15.421 Alaska Coastal Marine Institute

(ALASKA CMI),

FEDERAL AGENCY:

BUREAU OF OCEAN ENERGY MANAGEMENT, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.

OBJECTIVES:

The Bureau of Ocean Energy Management (BOEM) provides major economic and energy benefits on a national and local level to the taxpayers, States and the American Indian community. The BOEM oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the Nations outer continental shelf. BOEM continues to look for better ways to serve the American people and to ensure that the Nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal States and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. Outer Continental Shelf Lands Act (OCSLA) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Alaska Coastal Marine Institute is to use highly qualified scientific expertise at local levels to collect and disseminate environmental information needed for OCS oil and gas and marine minerals decisions; address local and regional OCS-related environmental and resource issues of mutual interest; and strengthen the BOEM-State partnership in addressing OCS oil and gas and marine minerals information needs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Environmental Studies Program allocates up to \$100,000 per year for cooperative research at the University of Alaska. The University of Alaska invites proposals that are reviewed by a Technical Steering Committee including the University, State of Alaska, and BOEM, and funds individual awards. Applications must be for scientific research projects which are within the BOEM' area of responsibility. The majority of funds are used to support research that will enhance understanding of long-term effects of oil and gas, and marine minerals projects. Funds can also be used for attendance at national conferences for the dissemination of project results. Funds are not normally used for capitalization.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); University of Alaska may make application for support by a named principal investigator. Non-UA scientists may participate in collaboration with a UA principal investigator.

Beneficiary Eligibility:

Federal; State; Research scientists, Federal, State and local decision-makers, Native American Organizations, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Evidence of the applicants qualifications for performance of the proposed research including past professional publications, resumes, and lists of past projects must be provided. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Limited discussions regarding funding availability and program interest are permitted. Environmental Impact Statements are not required for these projects.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Letters of intent responding to particular information needs/areas will be requested. From these, selected full proposals will be invited for mission-relevant research likely to provide needed information for OCS oil and gas resource management decisions. Proposals must include a full statement of work, estimated budget, and resumes.

ASSISTANCE LISTINGS DESCRIPTIONS

The standard SF-424 application forms required by 2 CFR Part 215.12, and the Department of the Interior Code of Federal Regulations at 43 CFR Part 12, Subpart F, or its revisions, must be used.

Award Procedure:

Awards are made on the basis of a competitive peer review of proposals by a panel consisting of government research managers and external reviewers, as appropriate. Criteria for judging proposals include mission relevance, technical merit, and the quality and appropriateness of the personnel including past performance and publication record, project management, logistics plan, safety management, permits and interagency coordination, outreach, budget/matching funds, and where appropriate, minimization of impacts. Notification of an award is issued. It is anticipated that 6 applications will be received and 6 awards will be granted in FY 2016, with a similar number anticipated for FY 2017.

On rare occasions exceptions may be considered. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Cooperative agreements will normally be awarded for 1 to 5 years, with funding awarded incrementally as funds become available, with approximately 15% to be provided in the final year of performance. Method of awarding/releasing assistance: other

Reports:

Quarterly progress reports and an annual report on the progress of the project funded under the cooperative agreement and presentations at a publicly held meeting as directed by BOEM are required. A draft final, proof copy, and final report; draft and final technical summary; articles based on the research published in journals, and presentation slides are required for each award. Dissemination of the research results conducted under the CMI at professional society meetings and symposia is encouraged. Annual and final Federal Financial Reports using OMB Standard Form SF-425 are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. 15.424 Marine Minerals Activities

(Marine Minerals Activities),

FEDERAL AGENCY:

BUREAU OF OCEAN ENERGY MANAGEMENT, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1331.

OBJECTIVES:

To evaluate OCS sand deposits for coastal restoration and beach nourishment

needs, and to foster good working relationships regarding OCS mineral issues with coastal States due to effects from hurricanes and coastal erosion. This can be accomplished through a variety of activities such as conducting state needs assessments, geophysical and geological surveys of specific areas on the OCS, analysis of existing or new geophysical and geological data to delineate new borrow areas, offshore bathymetry research, seismic data analysis and interpretation, application of marine resistivity or other geophysical techniques for sand resource identification, and cultural resources identification.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The funds must be spent for OCS-related sand activities. These cooperative agreements are awarded to assist States in order to identify needs and sand supplies for beach nourishment projects.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Proposals are received from coastal States in need of coastal restoration.

Beneficiary Eligibility:

Anyone/general public; State; State agencies and organizations participating in the project, as well as the general public.

Credentials/Documentation:

States submit proposals to BOEM, which furnish evidence of the applicant's qualifications for performance of the proposed research. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. A Notice of Funding Availability was posted on Grants.gov notifying applicants that BOEM was accepting proposals for the FY 2014 funding opportunities. Qualified applicants were given an opportunity to define their requirements and needs through the submittal of a proposal. After review, BOEM reviewed the applications and chose award recipients. Applicants should consult the office of official designated as the single point of contact in their State to find out if the State has selected this program for review and for information on the process the State requires when applying for Federal assistance. For FY2016, the current cooperative agreements will be modified to continue new work that BOEM will specify.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is subject to the Department of the Interior regulations at 43 CFR Part 12, or any subsequent revisions. The standard SF-424 application forms must be used for this program. Applicants will be asked to submit their proposals electronically through Grants.gov.

Award Procedure:

BOEM and potentially representatives from other Federal agencies will review and discuss the States' proposals and make the final decision on the funding for a project. A notification of a cooperative agreement award is issued so the project can begin.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

15.441 Safety and Environmental Enforcement Research and Data Collection for Offshore Energy and Mineral Activities

Office of Offshore Regulatory Programs (OORP),

FEDERAL AGENCY:

Bureau of Safety and Environmental Enforcement, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.

OBJECTIVES:

The Bureau of Safety and Environmental Enforcement (BSEE) program provides major economic and energy benefits on a national and local level to the taxpayers and states. The Agency oversees the exploration and development of oil, natural gas and other materials and renewable energy alternatives on the Nation's outer continental shelf. BSEE continues to look for better ways to serve the American people and to ensure that the nation receives the best oversight and regulation of National resource development now and into the future. The program not only supports decisions made within the Department of the Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. The Outer Continental Shelf Lands Act (OCSLA) Sections 1347 and 1348 respectively mandate the development and enforcement of regulations that protect safety, health and the environment. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purposes of the Office of Offshore Regulatory Program (OORP) is to obtain the information needed to improve the knowledge, practices, and technologies used to promote operational safety and pollution prevention for offshore oil and gas activities and alternate energy projects.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The assistance can be used to conduct technical research to satisfy the information needs associated with oil and gas, alternate energy and marine animal development on the outer continental shelf. Applications must be for technical research projects which are within the BSEE area of responsibility. The majority of funds are used to support research that will enhance understanding of exploration and production techniques to enhance safe operations and oil-spill prevention and cleanup from oil and gas, marine minerals, and alternate energy development projects. Funds can be also be used for attendance at national conferences for the dissemination of project results. Funds are not normally used for capitalization.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); State; State agencies and public universities may apply. More than one institution may collaborate in the preparation of an application for assistance.

Beneficiary Eligibility:

Federal; Anyone/general public; Scientist/Researchers; State; Local; Research scientists, Federal, State and local decision-makers, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Evidence of the applicant's qualifications for performance of the proposed research

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: To date, OESI has conducted eight forums which include Risk, Data Collection, Research, Human Factors, Shallow Water Blowouts, SEMS Next Steps, Keeping a Focus on Barriers for Safer Offshore Operations and Alarm Management Best Practices and Focus on Managing Drilling Margin and Well Control Risk. These forums have created a forum for dialogue for shared learning and cooperative research among academia, government, industry and other non-governmental organizations, in ocean energy related technologies and activities that ensure safe and environmentally responsible ocean energy operations. OESI supported BSEE as they hosted the 2015 BSEE Domestic and International Standards Workshop in Houston, Texas in May 2015. OESI also supported BSEE by hosting a BAST Forum on November 12, 2015 in Houston, Texas. On May 5, 2017, OESI will host a second International and Domestic Standards workshop in support of BSEE, the theme for the event is Integrity Management. Their expertise assisted BSEE as we shared the BAST Determination draft process with industry stakeholders. BSEE has also engaged OESI to assist in the hosting of a forum on BSEE Technology Assessment. The event occurred in February 2017, in Houston. BSEE has recently solicited OESI assistance in hosting a phase 2 public forum on BAST with focus on Early Kick Detection (EKD) and Methane Gas Detection (MGD) in April 2017. OESI has also published a draft white paper to highlight potential application for real-time monitoring on drilling operations. OESI is conducting a presentation on this topic at a separate forum on April 17, 2017 in Houston. Through the work of Director of Operations of OESI and the Primary Investigator, there is now an established Advisory Committee in place. The latest AC meeting was held in January 2017; the next one is scheduled for April 25, 2017 which will be hosted by Weatherford, The AC is in place to further assist in establishing future directions of the Safety Institute. The Advisory Committee consists of stakeholders from the four representative groups oil and gas, which are academia, industry, federal agencies and Non-Governmental Organizations (NGOs). Recent members to join the committee are from Department of Energy, United States Coast Guard and (NGO) Resources for the Future. OESI has conducted recent discussions with Louisiana State University (LSU), and hope they will join the Advisory Committee very soon. They have presented a list of topics for possible forums for 2017, and await response from the AC on next steps. The last one conducted in 2016 focused on well control operations, and occurred in November. OESI has consistently produced an OESI annual report and made available to all stakeholders for review. Latest one was completed in October 2016. BSEE personnel conducted a site visit to OESI, and were presented the annual report draft in October 2016. OESI is conducting a third party assessment for the offshore training program for BSEE engineers. OESI will be conducting an overall assessment of engineer training by SMEs that specialize in education/learning and others in training requirements and technical development of engineers. BSEE is looking for assessment tools such as measures that can continue to assess the BSEE engineer training program and make adjustments for improvement where necessary. OESI has aggressively started to conduct task associated with this work, and held internal meetings with identified SMEs, in addition to conferences with BSEE management and the Chief of the Offshore Training Branch. Assessment is scheduled to be completed NLT 6 months from execution of modification. Within the scope of work associated with this report, OESI conducted a site visit to BSEE Lake Jackson District in November 2016. The final draft report should be available for review late March 2017, with final completion in April 2017. In the area of RTM, this scope of work includes a pilot training program, and then full implementation of RTM training and subject matter expertise in this area. The official kick off meeting for RTM took place on September 20, 2016 in Houston. BSEE and OESI representatives have been collaborating on the topic of RTM since the execution of the cooperative agreement modification in late July early August timeframe. They have produced a draft white paper on RTM that has been published and available to the public. OESI has been asked to produce a strawman framework on the implementation of RTM, that is under consideration by BSEE. OESI will be reviewing recommendations prepared by the National Academy of Science (NAS) and how RTM should be implemented as it pertains to best available and safest

technologies (BAST). Latest monitoring report reflected task associated with year two of the BSEE Tech Challenge. Year one was a tremendous success, and recognized by the Secretary of DOI as well as the public. OESI is a partner with BSEE in conducting the youth initiative, and serves as the project manager. This event is in support of DOI's Youth initiative. This years challenge will be expanded to allow students in the Gulf of Mexico and Pacific Region areas to participate. This event highlights the work of BSEE and provides the opportunity to engage and serve/impact the communities geographically located in our areas of responsibilities. OESI staff briefed BSEE Senior Management in December 2016, and obtained approval for the execution of tech challenge year two. Dates are 3 March, 2017- University of Houston, March 31, 2017 University of Louisiana in Baton Rouge, 5 April 2017 in the Bakersfield California area, are the dates for the events. OESI has also been recognized by the oil and gas industry, and routinely sets on various panels, or attends meeting with companies as well as trade associations such as American Petroleum Institute (API) and the Offshore Operators Committee (OOC). 15.442 Alaska Native Science and Engineering

ANSEP.

FEDERAL AGENCY:

Bureau of Safety and Environmental Enforcement, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

Public Lands Corps Act (PLCA), 16 U.S.C. 1723(c)(1)

OBJECTIVES:

The Bureau of Safety and Environmental Enforcement (BSEE) program provides major economic and energy benefits on a national and local level to the taxpayers and states. The Agency oversees the exploration and development of oil, natural gas and other materials and renewable energy alternatives on the Nation's outer continental shelf. BSEE continues to look for better ways to serve the American people and to ensure that the Nation receives the best oversight and regulation of

National resource development now and into the future. The program not only supports decisions made within the Department of the Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. Through this cooperative agreement, training and learning opportunities will be provided to young people in order to develop the next generation of lifelong conservation stewards and protect, restore, and enhance America's Great Outdoors. Specifically, this cooperative agreement will give young people the opportunity to learn about the importance of the BSEE mission to promote safety, protect the environment and conserve resources offshore through vigorous regulatory oversight and enforcement while exploring future career options with BSEE. The Alaska Native Science and Engineering Program (ANSEP) are designated as tax exempt under the IRS for Institutions of Higher Education. ANSEP moves Native American and Alaskan Native students into science, technology, engineering and mathematics degree programs, and fosters a stronger Indigenous American representation within the science workforce of BSEE. Established in 1995, ANSEP has evolved into a longitudinal education model that provides a continuous string of components beginning with students in sixth grade and continuing on through high school, into science and engineering undergraduate and graduate degree programs through PhD. ANSEP has received numerous recognitions for successfully preparing students for professional science and engineering careers including the U.S. Department of Energy's Minorities in Energy Initiative, the U.S. Department of the Interior Partners in Conservation Award, and the Ash Center for Democratic Governance and Innovation, Harvard University-Top 25 Innovations in Government. ANSEP, through this cooperative agreement, provides an opportunity to further engage Alaska's Native professionals, and develop the future scientific and engineering employment pool required to support the BSEE mission. The overall objective is to expand the professional science employment preparedness of ANSEP students and to develop a more diversified pool of highly educated professionals with the BSEE workforce to reflect the rich diversity of the Nation.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Recipient of the assistance is the Alaska Native Science and Engineering Program (ANSEP), and the assistance must be used to provide work and training opportunities to young people between the ages of 16 and 25 working on appropriate conservation projects associated with oil and gas, renewable energy and marine mineral development on the Alaskan outer continental shelf within the BSEE area of responsibility. The majority of funds will be used to support conservation projects that will enhance the understanding of exploration and production techniques to enhance safe operations and oil-spill prevention and cleanup from oil and gas, and marine minerals. The young participants will receive classroom and on-the-job training in oil and gas operational safety and environmental conservation requirements through selected training seminars, meetings, or other organizational activities. The purpose of the training will be to provide experience in the practical application of basic petroleum engineering principles, techniques, and concepts. Funds will not be used for capitalization.

Applicant Eligibility:

Federal; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; State; None.

Beneficiary Eligibility:

Federal; State; Local; Research scientists, Federal, State and local decision-makers, the youth participants, BSEE, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Documentation that ANSEP is a qualified youth or conservation corp pursuant to 16 U.S.C. 1722(10). Documentation that ANSEP is able to provide eligible youth participants pursuant to 16 U.S.C. 1723(b). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

ASSISTANCE LISTINGS DESCRIPTIONS

Award Procedure:

All youth participants must be between the ages of 16 and 25 and satisfy the criteria specified in section 12591(b) of title 42, as required by 16 U.S.C. 1723(b). Youth participant selection will be made on the basis of; participation in ANSEP, enrolled or accepted for enrollment in an engineering degree or certificate program at a qualifying educational institution, be in good academic standing (at least a 2.0 GPA), and enrolled in or have completed at least one engineering course. It is anticipated that two applications will be received and up to two applicants will be selected in FY 2016 through FY 2020.

15.443 Not For Profit

FEDERAL AGENCY:

BUREAU OF OCEAN ENERGY MANAGEMENT, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

G. Under the Use of Cooperative Agreements authority (43 U.S.C. 1457b), to enter into cooperative agreements with a state or political subdivision (including any agency thereof), or any not-for-profit organization if: (1) the agreement will serve a mutual interest of the parties to the agreement in carrying out the programs administered by BOEM; and (2) all parties will contribute resources to the accomplishment of these objectives.

OBJECTIVES:

The Bureau of Ocean Energy Management (BOEM) provides major economic and energy benefits on a national and local level to the taxpayers, states and the American Indian community. The BOEM oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the Nations outer continental shelf. BOEM continues to look for better ways to serve the American people and to ensure that the Nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal States and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. The Outer Continental Shelf Lands Act (OCSLA) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The Delegations 218 DM 1 authorized, except as provided in 200 Departmental Manual (DM) 1, to exercise the program authority of the Assistant Secretary Land and Minerals Management with respect to leasing and authorizations for exploration, development, and production of conventional and renewable energy resources and marine mineral resources on the Continental Shelf, and all associated functions that relate thereto. The purpose of the Environmental Studies Program is to obtain the information needed for the assessment and the management of environmental impacts; to predict impacts on marine biota; and to monitor the human, marine, and coastal environments to provide time series and data trend information.

ASSISTANCE LISTINGS DESCRIPTIONS

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The assistance can be used to conduct environmental research to satisfy the information needs associated with oil and gas, renewable energy and marine mineral development on the outer continental shelf. Applications must be for scientific research projects which are within the BOEM's area of responsibility. The majority of funds are used to support research that will enhance understanding of long-term effects of oil and gas, marine minerals and renewable energy development projects. Funds can also be used for attendance at national conferences for the dissemination of project results. Funds are not normally used for capitalization. The assistance can be used to conduct public awareness related to environmental and cultural research within BOEMs Environmental Research portfolio.

Applicant Eligibility:

Federal; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; State; Anyone/general public; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); State or political subdivision (including any agency thereof), or any not-for-profit organization if: (1) the agreement will serve a mutual interest of the parties to the agreement in carrying out the programs administered by BOEM; and (2) all parties will contribute resources to the accomplishment of these objectives.

Beneficiary Eligibility:

Federal; Anyone/general public; Native American Organizations; State; Local; Research scientists, Federal, State and local decision-makers, Native American Organizations, and the general public will ultimately benefit from the program.

Credentials/Documentation:

Evidence of the applicant's qualifications for performance of the proposed research including submission of proposals that describe the proposed activities, identify methods for accomplishing the activities, and/or describe the process for ensuring that qualified personnel are used to conduct the activities; past professional publications, resumes, and lists of past projects must be provided. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Limited discussions regarding funding availability and program interest are permitted. Applicants should consult the office or official designated as the single point of contact in their State to find out if the State has selected this program for review and for information on the process the State requires when applying for Federal assistance.

Application Procedures:

Through this program, Reclamation provides financial and technical assistance for feasibility studies, water reclamation and reuse research, and full-scale construction of facilities to deliver and/or treat wastewater or naturally impaired ground or surface water for reuse applications. For purposes of the Title XVI Program, a water reuse project is a project (including the necessary facilities and features) that reclaims and reuses municipal, industrial, domestic, or agricultural wastewater or naturally impaired groundwater and/or surface waters. Consistent with State law, reclaimed water can be used, for a variety of purposes including, but not limited to, environmental restoration, fish and wildlife, groundwater recharge, municipal, domestic, industrial, agricultural, power generation, or recreation. Funds can be used for water treatment features where the improvement of the water quality is necessary to allow for reuse.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Other public institution/organization; Eligible recipients of Title XVI funding are identified under the 1902 Act and include State, regional, or local authorities; Indian tribes or tribal organizations; or other entities such as a water conservation or conservancy district, wastewater district, rural water district, all located within the 17 Western States or Hawaii. To be eligible to receive funding for construction activities, a water reclamation and reuse project must be specifically authorized under Title XVI or eligible under the amendments in section 4009(c) of the Water Infrastructure Improvements for the Nation (WIIN) Act.

Beneficiary Eligibility:

State; Local; Other public institution/organization; Water users, including municipal, industrial, and agricultural, that benefit from the additional drought resistant water source created.

Credentials/Documentation:

To be eligible to receive funding for construction activities, a water reclamation and reuse project must be specifically authorized under Title XVI or eligible under the amendments in section 4009(c) of the Water Infrastructure Improvements for the Nation (WIIN) Act. Funds for construction activities associated with an individual project will not be disbursed until all Title XVI pre-construction requirements have been met for that project. These include: (1) a finding that the feasibility study meets the requirements of Title XVI; (2) complete compliance with the National Environmental Policy Act and other environmental clearances; (3) an approved determination of financial capability; and (4) an executed grant or cooperative agreement for financial assistance. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. To be eligible to receive funding for construction activities, a water reclamation and reuse project must be specifically authorized under Title XVI or eligible under the amendments in section 4009(c) of the Water Infrastructure Improvements for the Nation (WIIN) Act. Funds for construction activities associated with an individual project will not be disbursed until all Title XVI pre-construction requirements have been met for that project. These include: (1) a finding that the feasibility study meets the requirements of Title XVI; (2) complete compliance with the National Environmental Policy Act and other environmental clearances; (3) an approved determination of financial capability; and (4) an executed grant or cooperative agreement for financial assistance between Reclamation and the project sponsor.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Discretionary funding opportunities will be posted on Grants.gov and will be subject to competitive funding process.

Award Procedure:

Reclamation will work with the funded recipient to negotiate a grant or cooperative agreement.

Title XVI Program,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

P.L. 102-575, Title XVI, Reclamation Wastewater and Groundwater Study and Facilities Act of 1992, October 30, 1992, as amended.

OBJECTIVES:

Title XVI of Public Law 102-575, as amended (Title XVI), directs the Secretary of Interior, acting through the Commissioner, to undertake a program to identify and investigate opportunities to reclaim and reuse wastewaters and naturally impaired ground and surface water in the 17 Western States and Hawaii. Title XVI also provides authority for the Secretary to provide up to the lesser of 25 percent of, or the Federal appropriations ceiling (typically \$20 million), for the cost of planning, design, and construction of specific water recycling projects, as well as up to 50 percent of the cost of Title XVI feasibility studies and 25 percent of the cost of Title XVI water reclamation and reuse research studies.

TYPES OF ASSISTANCE:

Cooperative Agreements, Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Title XVI Program applies to reclamation, recycling, and reuse of municipal, industrial, domestic, and agricultural wastewater and to naturally impaired ground

ASSISTANCE LISTINGS DESCRIPTIONS

Not Applicable.

Appeals:

Other. NONE.

Renewals:

Other. Continuation of funding from one fiscal year to the next to complete a project is contingent on the final Federal appropriations.

Formula and Matching Requirements:

Statutory Formula: Title XVI, Public Law 102-575. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Reclamation can pay up to 50% for feasibility study costs and 25% for research studies. Federal funding for Title XVI construction projects is limited to 25% of the total project or a specified maximum amount, whichever is less. The maximum amount varies by project. Generally, projects authorized after 1996 have a ceiling of \$20 million or less; the specific details are available in the authorizing legislation. If a project conducted under the Title XVI Program includes planning, design, and construction, the Reclamation Wastewater and Groundwater Study and Facilities Act of 1992 (the Act) requires the sponsor to provide at least 75 percent of all the costs incurred, including Reclamations administrative costs. In addition, the sponsor must pay all operation, maintenance and replacement (OM&R) costs of the project. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Feasibility studies which receive Reclamation funding must be completed in 18 to 36 months. See FOA for details. Research studies which receive Reclamation funding must be completed in 18 to 36 months. See FOA for details. For authorized Title XVI projects and WIIN projects, Reclamation will provide funding for planning, design, or construction that can be completed in a two year period. See FOA for details. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

All recipients of Federal awards shall maintain project records in accordance with 2 CFR 200.333 Retention requirements for records. Financial records, supporting documents, statistical records, and all other non-Federal entity records pertinent to a Federal award must be retained for a period of three years from the date of submission of the final expenditure report or, for Federal awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, respectively, as reported to the Federal awarding agency or pass-through entity in the case of a subrecipient. Federal awarding agencies and pass-through entities must not impose any other record retention requirements upon non-Federal entities, except as noted in 2 CFR 200.333.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Information not available. In FY 2017, six authorized projects

received \$20.9 million for planning design, and construction, \$1.7 million was awarded for thirteen new Title XVI feasibility studies, and \$847,701 was awarded for four water reclamation and reuse research projects. Three WIIN projects were also transmitted to Congress for a total of \$10 million in Federal funding. Fiscal Year 2018: Some of the Title XVI water reuse benefits include improving water-use efficiency, providing flexibility during water shortages, and diversifying the water supply. In areas where municipalities and industry (M&I) are looking to agriculture as a water source, Title XVI projects reduce the need to transfer agricultural water to M&I uses. Fifty-three projects are specifically authorized and forty-one projects are currently eligible under the WIIN Act. Two demonstration projects have also been undertaken through the general authority. Since the programs inception in 1992, more than \$692 million in Federal cost-share has been leveraged to design and construct water recycling projects. Fiscal Year 2019: Information not available.

EXAMPLES OF FUNDED PROJECTS:

2017 Information not available. Inland Empire Utilities Agency, in association with the Chino Basin Desalter Authority, received \$5,199,536 in Federal funding to expand the capacity of the existing Chino II Desalter plant. The water produced by this project will replace water that would otherwise be imported from the Colorado River and/or Sacramento-San Joaquin Bay-Delta. The Santa Clara Valley Water District received \$1,680,593 in Federal funding to expand the recycled water distribution system in the southern portion of Santa Clara County. The South Santa Clara County Recycled Water Project in Gilroy, California will increase the availability of recycled water by providing recycled water to a broader market of commercial, industrial, irrigation, and agricultural users and will reduce reliance on imported water from the Sacramento-San Joaquin Bay-Delta. 2018 Information not available. 2019 Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Reclamation will place priority on funding projects that reduce existing water diversions or address specific water supply issues in a cost-effective manner, address environmental and water quality concerns, are economically justified, and meet other program goals.

15.506 Water Desalination Research and Development

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Water Desalination Act of 1996, Public Law 104-298, as amended by the Water Infrastructure Improvements for the Nation Act of 2016 (WIIN Act) (P.L. 114-322;

ASSISTANCE LISTINGS DESCRIPTIONS

Section 3801), Reclamation Act of 1902, Sec 1 and Sec 2, and Public Law 111-11, Section 9509.

OBJECTIVES:

There are three goals for the program: (1) augment the supply of usable water in the United States; (2) understand the environmental impacts of desalination and develop approaches to minimize these impacts relative to other water supply alternatives; (3) develop approaches to lower the financial costs of desalination so that it is an attractive option relative to other alternatives in locations where traditional sources of water are inadequate. The three principal parts of the program are: (1) perform research on desalination technologies and related issues to advance the state of the art forward (research and studies), (2) conduct development and demonstration activities to test technological advancements, confirm economics, and gain public acceptance (development projects), and (3) support operation and maintenance at the Brackish Groundwater National Desalination Research Facility (BGNDRF)

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

To be used to support research and studies, demonstration and development projects and related activities, and operation and maintenance at BGNDRF as described in the Water Desalination Act and amendments..

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Any responsible source, to include individuals, State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, small businesses, profit organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, and other private institutions/organizations may submit a proposal which will be considered by Reclamation. Foreign entities are not eligible for funding. Federal agencies are not eligible to apply.

Beneficiary Eligibility:

Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Individuals, State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, small businesses, profit organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations and other private institutions/organizations.

Credentials/Documentation:

(1) A detailed written technical proposal including the current status of the technology supporting the proposed research, technical approach proposed to accomplish the work, a scope of work which separates the work into major tasks, applicability to local and/or national water problems, type of personnel participating in the research, type and location of facilities and equipment that will be utilized by the project applicant, experience in this type of research, the environmental impact of the research, an estimate of the costs and/or cost savings (\$/1000 gal) and economic and environmental benefit of the technology, and other information that may be useful for proposal evaluation. (2) A detailed project cost proposal including a budget covering salaries and wages, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, funding sources and commitments, cost-sharing, and a breakdown of costs by task. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on

the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A full proposal solicitation package is issued annually by Reclamation. The package may solicit laboratory, pilot-scale, and full-scale research projects. Submission of full technical and cost proposals in accordance with the instructions stated in the announcement document is mandatory. Additionally, applicants must submit all applicable SF-424 forms and a DI-2010 form which will be included in the announcement document.

Award Procedure:

The number of awards, maximum funding amount per award, and areas of interest for which proposals will be considered, are determined on an annual basis and are dependent upon the annual appropriation from Congress. Proposals received in response to the annual solicitation are reviewed on the basis of a competitive, merit- review process, and are rated in accordance with evaluation criteria stated in the solicitation document. Reclamation will make awards for the highest rated proposals based on the amount of funding available each year. Reclamation reserves the right to make awards to maintain balance among the program objectives listed in the solicitation document.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Contact Reclamation for the range of time when proposals are approved or disapproved.

Appeals:

Other. None. Final award decisions are not subject appeal; however, the Bureau of Reclamation will provide all applicants with information on why their proposals were not selected for award.

Renewals:

Other. Continuation of funding for the Program from one fiscal year to the next is at the discretion of the Congress. Yearly solicitation is made for projects of 12 months duration or less (follow-on funding may be available for additional research studies, pilot-plant projects, or demonstration projects). No-cost extensions to awarded agreements are provided for unique projects that can justify additional time beyond the 12-month duration.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. The Federal share of the cost of a project or activity carried out shall not exceed 50 percent of the total cost of the project or activity. A Federal contribution in excess of 25 percent for a project carried out under this Act may not be made unless the Secretary of the Interior determines that the project is not feasible without such increased Federal contribution. Costs of operation, maintenance, repair, and rehabilitation of facilities funded shall be nonfederal responsibilities with the exception of the BGNDRF.MOE requirements are not applicable to this assistance listing.

CRITERIA FOR SELECTING PROPOSALS:

Evaluation factors may include, but are not limited to the following: Technical Factors: (1) Demonstrated familiarity with the current technology in the field of

work and understanding of the potential difficulties in carrying out the work. (2) Impact of the proposed work on the current technology and on its related economics if a completely successful outcome were achieved. (3) Novelty of approach to the work. (4) Relationship to research priorities. (5) Availability of equipment, instruments, and test facilities required for the work. Managerial Factors: (1) The qualifications, capabilities, and experience of the proposed project manager and other key personnel who are critical to achievement of the proposed objectives. (2) Adequacy, completeness and realism of the research schedule, task phasing, and milestones. (3) The applicants capabilities, related experience, facilities, techniques, or unique combinations of these which are integral factors for achieving the proposed objectives. Pricing Factor: Cost realism and reasonableness. This requires that costs be directly relatable to items in the research work plan or Project Management Plan, be reasonable, and be appropriate to the project in terms of dollar amount and quantity.

15.507 Water SMART (Sustaining and Manage America's Resources for Tomorrow)

Water SMART Grants,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Section 9504(a), Omnibus Public Lands Management Act of 2009, (Public Law 111-11), as amended.

OBJECTIVES:

To make funding available for eligible applicants to leverage their money and resources by cost sharing with Reclamation on three different types of projects: projects that save water; mitigate conflict risk in areas at a high risk of water conflict; and accomplish other benefits to increase the reliability of existing supplies. development of water marketing strategies that will help prevent water conflicts and will contribute to water supply reliability; and small-scale water efficiency projects to that have been identified through previous planning efforts to conserve and use water more efficiently; mitigate conflict risk in areas at a high risk of future water conflict; and accomplish other benefits that contribute to water supply reliability in the western United States.

TYPES OF ASSISTANCE:

Cooperative Agreements, Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

WaterSMART Grants provide cost-shared financial assistance on a competitive basis to carry out water management improvements, small-scale water efficiency improvements, development of water marketing strategies, and other water management improvements. Reclamation may also provide financial assistance for these types of water conservation projects under this CFDA using this statutory authority, either competitively or non-competitively, for other non-WaterSMART projects when another Reclamation CFDA is not available. In addition, Section 9504 of Public Law 111-11 requires the following: (1) The Recipient shall not use any associated water savings to increase the total irrigated acreage of the Recipient or otherwise increase the consumptive use of water in the operation of the Recipient, as determined pursuant to the law of the State in which the operation of Recipient is located. (2) If the activities funded under this Agreement result in an infrastructure improvement that is integral to the existing operations of a federally owned facility, the Federal Government shall continue to hold title to the facility and improvements to the facility. (3) The non-Federal share of the cost of operating and maintaining any infrastructure improvement funded through this Agreement shall be 100 percent. (4) Except as provided under chapter 171 of title 28, United States Code (commonly known as the Federal Tort Claims Act), the United States shall not be liable for monetary damages of any kind for any injury arising out of an act, omission, or occurrence that arises in relation to any facility created or improved under this Agreement, the title of which is not held by the United States.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); In accordance with P.L. 111-11, Section 9502, eligible applicants include any: university, nonprofit research institution, or other organization with water or power delivery authority. Applicants must also be located in the western

Beneficiary Eligibility:

Anyone/general public; State; The general public, agricultural, municipal and industrial water users; irrigation or water districts; and state governmental entities with water or power delivery authority, located in the states identified in the Act of June 17, 1902.

Credentials/Documentation:

(1) A detailed written technical proposal including background data regarding the applicant, such as location, total project diversions, and relevant water use efficiency measurements, a detailed scope of work separating the work into major tasks, including any engineering or design work already completed, and describing data responsive to the evaluation criteria listed in the announcement. (2) When applicable, a funding plan showing how the applicant will pay for its 50 percent cost share requirement, and an official resolution adopted by the irrigation or water district's governing board of directors, resolving that, if selected, it will negotiate and execute a grant or cooperative agreement with Reclamation. (3) A detailed project cost proposal, including a budget with the annual estimated project costs, including salaries and wages, fringe benefits, travel, equipment, supplies, contracts, and indirect costs, an estimate of annual operation and maintenance costs, and the value of in-kind contributions of goods and services. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding opportunity announcements. Announcement are posted annually on www.grants.gov. Submission of a complete technical proposal and projects budget is mandatory by the due date identified in the announcement. In addition, applicants must submit all applicable SF-424 forms referenced in the Announcement.

Award Procedure:

Proposals received in response to the announcement are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the announcement. Reclamation will make awards to the highest rated proposals based on the amount of funding available each year. For non-WaterSMART awards made under this CFDA using this statutory authority, the awards may be made competitively or non-competitively.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. The review, scoring and announcement of the recipients typically take three to five months.

Appeals:

Other. Not applicable. Upon request, Reclamation will provide all applicants with information on why their proposals were not selected.

Renewals:

Other. Most awarded projects are fully funded at the time of award. Some Water and Energy Efficiency Grant projects (i.e. phased project) may be funded each year for up to three years.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. The Federal share of the cost of a project or activity carried out under the Program shall not exceed 50 percent of the total cost of the project or activity. Costs of

operation, maintenance, repair and rehabilitation of facilities funded under the authority for this Program shall be nonfederal responsibilities. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

In general, projects should be completed within 2 years of award. Applicants for Water and Energy Efficiency Grants must select one of two funding groups and must therefore propose either a project that can be completed within 2 years of award or a phased project that can be completed within 3 years of award with Federal funding to be provided separately for each phase. Applications for projects requiring more time will be considered for funding only under limited circumstances. Method of awarding/releasing assistance: other

Reports:

Unless otherwise stated in the agreement document, recipients shall submit Program Performance Reports, on a semi-annual basis. EXAMPLES OF FUNDED PROJECTS:

2019 Information not available. 2017 Information not available. The Buena Vista Water Storage District, near Bakersfield, California, will convert 9 miles of unlined canals and ditches to 8.4 miles of polyvinyl chloride and high-density polyethylene pipelines. These improvements are expected to result in annual water savings of 4,802 acre-feet that is currently being lost to seepage and over-deliveries. The conserved water will be used to offset groundwater pumping. The City of Alpine, located south of Salt Lake City, Utah, will install 2,420 meters on currently unmetered connections throughout the City's pressurized irrigation system. In addition to meters, the City will install Advanced Metering Infrastructure to allow for real-time flow monitoring, automatic meter reading, and usage-based billing. Once completed, the project is expected to result in annual water savings of 1,040 acre-feet, reducing the City's reliance on pumping water from the North Utah County Aquifer. Examples of all projects funded to date are available at <https://www.usbr.gov/watersmart/grants.html> 2018 Information not available.

15.508 Providing Water to At-Risk Natural Desert Terminal Lakes

Desert Terminal Lakes Program,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Public Law 107-171, Farm Security and Rural Investment Act of 2002, Sec. 2507; Public Law 108-7, Energy and Water Development Appropriations Act, 2003, Sec. 207 (to implement the Truckee River Settlement Act, P.L. 101-618); Public Law 108-137, Energy and Water Development Appropriations Act, 2004, Sec. 217; Public Law 109-103, Energy and Water Development Appropriations Act, 2006, Sec. 208; Public Law 110-161, Consolidated Appropriations Act, 2008, Sec. 207 and 208; Public Law 110-246, Food, Conservation, and Energy Act of 2008, Sec. 2807; Public Law 111-8, Omnibus Appropriations Act, 2009, Section 207 and 208; Public Law 111-85, Energy and Water Development and Related Agencies Appropriations Act, 2010, Sec. 206-208; Public Law 111-88, Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010, Sec. 440.; Public Law 112-74, Consolidated Appropriations Act, 2012 [H.R. 2055] Enacted 12/23/11, Title II, Division B, Sec. 208 a and b, and Public Law 113-79, Agricultural Act of 2014, Title II, Section 2507, Enacted 2/7/14.

OBJECTIVES:

All funding allocated for grants, interagency agreements and 93-638 grants and contracts has been obligated. Reclamation does not anticipate new awards in FY18. If additional funding is realized, new solicitations may become available, and the following would apply. Under this authority, Reclamation will fund various activities for the benefit of at-risk terminal lakes to provide water and assistance to a terminal lake to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants), Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

Funding is directed to be used for terminal lakes and associated watersheds in the State of Nevada and California.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher

education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals); State; All funding allocated for grants, interagency agreements and 93-638 grants and contracts has been obligated, if additional funding is realized, the following would apply: State and local public agencies, Indian tribes, nonprofit organizations, educational institutions, and individuals may submit a proposal which will be considered by Reclamation. Foreign entities and Federal agencies are not eligible to apply.

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; Anyone/general public; Native American Organizations; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; All funding allocated for grants, interagency agreements and 93-638 grants and contracts has been obligated, if additional funding is realized, the following would apply: State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, individuals, small businesses, profit organizations, private organizations, quasi-public nonprofit organizations, other private institutions/organization, general public, Native American organizations, higher education institutions, irrigation districts, municipal water authorities, farmers/ranchers/agriculture producers, and land/property owners.

Credentials/Documentation:

All funding allocated for grants, interagency agreements and 93-638 grants and contracts has been obligated, if additional funding is realized, the following would apply: (1) A detailed written technical proposal including background data regarding the applicant, technical approach proposed to accomplish the work, a scope of work that separates the work into major tasks, type of personnel implementing the proposal, experience in performing this type of work, benefits to be received by implementation of the project(s), environmental impact(s), timeline(s), the level of cooperation with other parties involved in the proposal, and other information that may be useful for proposal evaluation. (2) A detailed cost proposal by project including a budget covering labor categories, salaries and wages with estimated hours, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, other funding sources and commitments, cost-sharing, value of in-kind contributions of goods and services, and a narrative discussion. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. All funding allocated for grants, interagency agreements and 93-638 grants and contracts has been obligated, if additional funding is realized, the following would apply: Funding is allowed for work that will be for the benefit of at-risk terminal lakes and to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California. An environmental NEPA document may be required depending on the nature of the proposal and its impact on the environment. Compliance with National Historic Preservation Act and Endangered Species Act may also be required. Pre-application Coordination: Although it is not mandatory, Reclamation strongly encourages offerors to submit a pre-proposal to eliminate the possibility of submitting a full proposal that would not be considered for award. The pre-proposal should describe 1) how the proposal will provide benefits to a terminal lake or associated watershed, 2) the quantity of water anticipated to be provided if part of the proposal or benefit to the associated riparian and watershed resources, 3) the associated estimated cost, 4) potential environmental impacts, 5) state, local and other permits or approvals needed to implement the proposal.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All funding allocated for grants, interagency agreements and 93-638 grants and contracts has been obligated, if additional funding is realized, the following would apply: Funding is allowed for work for the benefit of at-risk terminal lakes and to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California. For Summit Lake, Reclamation will only accept proposals from the Summit Lake Paiute Tribe, since the lake is entirely within the reservation

ASSISTANCE LISTINGS DESCRIPTIONS

boundaries and any proposal affecting the lake would need the consent of the Tribe; the exception is if DTL funding is reprogrammed in another DTL grant for Summit Lake. For all other terminal lakes, Reclamation may accept applications after the applicant provides enough pre-application information to Reclamation to assure that the proposed work will be for the benefit of at-risk natural desert terminal lakes and associated riparian and watershed resources in Nevada and California or fund designated activities, the associated cost is reasonable, and it is likely Reclamation can satisfy its federal Indian trust, endangered species, environmental, and other responsibilities. If funding becomes available, discretionary funding opportunities will be posted on Grants.gov. Submission of a complete technical proposal and a project budget proposal in accordance with the instructions in the FOA is mandatory. In addition, applicants must submit all applicable SF424 forms, which are referenced in the FOA. Reclamation does not anticipate any new applications in FY18.

Award Procedure:

Terminal Lakes Proposals will be evaluated using a merit-based review process. Some past Pyramid Lake proposals were also reviewed on the basis of a competitive, merit-based review process, and were rated in accordance with the evaluation criteria stated in the FOA. Reclamation made awards to the highest-rated proposals based on the amount of funding available at that time. Reclamation reserves the right to prioritize projects based on availability of funds and to ensure balance among the program objectives listed in the FOA.

Unless otherwise stated in the agreement document, recipients shall submit on a quarterly or semi-annual basis Program Performance Reports. Upon completion of the agreement recipients shall submit a final Program Performance Report; and other specific reports that may be applicable to the agreement such as property inventories, and patent and invention disclosures. Unless otherwise stated in the agreement document, recipients shall submit on a quarterly or semi-annual basis the SF-425, Federal Financial Report. Upon completion of the agreement recipients shall submit a final SF-425.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

All recipients of Federal awards shall maintain project records in accordance with 2 CFR 200.333 Retention requirements for records. Financial records, supporting documents, statistical records, and all other non-Federal entity records pertinent to a Federal award must be retained for a period of three years from the date of

submission of the final expenditure report or, for Federal awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, respectively, as reported to the Federal awarding agency or pass-through entity in the case of a subrecipient. Federal awarding agencies and pass-through entities must not impose any other record retention requirements upon non-Federal entities, except as noted in 2 CFR 200.333.

All funding allocated for grants, interagency agreements and 93-638 grants and contracts has been obligated, if additional funding is realized, evaluation factors may include, but are not limited to the following: 1) Mandatory: be for the benefit of at-risk terminal lakes and to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California or fund designated activities from legislative allocations.

ASSISTANCE LISTINGS DESCRIPTIONS

15.509 Title II, Colorado River Basin Salinity Control

Basinwide Program,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Public Law 93-320, 59 Stat. 1219, 43 U.S.C. 1571-1573 and U.S.C. 1592(c), as amended; Sec. 2, Pub. L. 98-569, 98 Stat. 43 U.S.C. 1592(c); Sec. 1, Pub. L. 104-20, 43 U.S.C. 1592; Title III, Subtitle D, Chapter 4, Pub. L. 104-127, 110 Stat. 1006; Pub. L. 106-459, 114 Stat. 1987.

OBJECTIVES:

To provide financial and technical assistance to: (1) identify salt source areas; (2) develop project plans to carry out conservation practices to reduce salt loads; (3) install conversation practices to reduce salinity levels; (4) carry out research, education, and demonstration activities; (5) carry out monitoring and devaluation activities; and (6) to decrease salt concentration and salt loading which causes increased salinity levels within the Colorado River and to enhance the supply and quality of water available for use in the United States and the Republic of Mexico. Such programs shall consist of cost-effective measures and associated works to reduce salinity from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Eligible owners or operators in the Colorado River Basin above Imperial Dam may receive assistance to treat salinity problems.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Individual/Family; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any legal entity that is the owner or operator of the features to be replaced and/or to be constructed and capable of contracting with Reclamation.

Beneficiary Eligibility:

Anyone/general public; Any person who uses or reuses Colorado River water for irrigation, domestic, municipal or industrial water supply, or for fish and wildlife habitat will benefit.

Credentials/Documentation:

Projects will require compliance with the National Environmental Policy Act and Endangered Species Act. Information regarding whether these requirements must be met will be included in the funding opportunity announcement posted on www.grants.gov. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding opportunity announcements for this program, along with registration procedures, application packages and instructions, SF-424 forms and any other forms to be used to submit

application information, points of contact, and procedures for submitting applications will be available on www.grants.gov.

Award Procedure:

Reclamation will solicit proposals and award funding through a Funding Opportunity Announcement (FOA) process. The FOA will request proposals from public and private sectors that would control salinity based on cost per ton. The proposals will be ranked based on their cost effectiveness for preventing salt from entering the Colorado River system. The ranking would consider risk factors that might affect the project's performance. Upon receipt of applications/proposals by the date identified in the announcement(s), the applications will be reviewed to determine if application/proposal(s) are consistent with requirements identified in the announcements. The application/proposal(s) are reviewed against identified criteria by a Federal technical team of experts, that may include representatives of states as advisors. Based on the review, a ranking will be defined. Negotiations will be conducted and/or awards will be made based on recommendations from the technical experts. Award will be based on those applications best meeting the needs of the program, including cost and risk factors.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 90 days.

Appeals:

Other. Final award decisions are not subject to appeal; however, the Bureau of Reclamation will provide all applicants with information on why their proposals were not selected for award.

Renewals:

Other. NONE.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Cost share in the amount of \$.43 per \$1.00 of appropriated funds is provided from the Upper Colorado River Basin Fund and the Lower Colorado River Basin Development Fund (Basin Funds). Moneys in the Basin Funds come from a surcharge on power produced at Reclamation power generation facilities on the Colorado River. \$1.00 Appropriated+\$.43 Basin Fund = \$1.43 for the Basinwide Salinity Control Program. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Cooperative agreements and grants are normally written for a 1 to 5 year period. Method of awarding/releasing assistance: other

Reports:

Unless otherwise stated in the agreement document, recipients shall submit the following reports on a quarterly basis program performance reports. Annually, recipients shall submit an annual program performance report. Upon completion of the agreement, recipients shall submit a final program performance report, and other specific reports that may be applicable to the agreement such as property inventories, and patent and invention disclosures. For Recovery Act projects recipient quarterly reporting is required in www.FederalReporting.gov. Unless otherwise stated in the agreement document, recipients shall submit the following reports on a quarterly basis the Federal Financial Report SF 425. Upon completion of the agreement, recipients shall submit a final Federal Financial Report SF 425.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

All recipients of Federal awards shall maintain project records in accordance with 2 CFR 200.333 Retention requirements for records. Financial records, supporting documents, statistical records, and all other non-Federal entity records pertinent to a Federal award must be retained for a period of three years from the date of submission of the final expenditure report or, for Federal awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual

EXAMPLES OF FUNDED PROJECTS:

2017 No information available. One example of a current funded project is the Grand Valley Irrigation Company Phase 4 Project. Selected under the 2015 FOA, the GVIC was awarded a \$2.8 million cooperative grant to line approximately 1.65 miles of their main irrigation canal within the Grand Valley. This will result in a salt load reduction of approximately 2,363 tons annually at a cost effectiveness of \$49.64 per ton. The canal lining will consist of a 30-mil PVC membrane with 3-4 inches of shotcrete cover. The cooperative agreement was executed in August 2016, and construction will begin in November of 2017. It is expected to be completed in 2019. 2018 No information available. 2019 No information available.

CRITERIA FOR SELECTING PROPOSALS:

In 1984, the Salinity Control Act was amended to direct the Secretary of the Interior to give preference to units which reduce salinity at the least cost per unit of salinity reduction (or cost-effectiveness). Cost-effectiveness is defined as the Salinity Programs annual cost per ton of salt prevented from entering the Colorado

River system. Conceptually, cost-effectiveness is analogous to determining the cost per mile to own and operate a car. That computation combines the annual expenses (loan payments, gas, maintenance, etc.) and divides by the miles traveled each year. The key to understanding this approach is to appreciate that the government evaluates all projects as if the money is borrowed from a loan institution and repaid in annual installments over the life of the project. This economic evaluation principle is required by the Economic and Environmental Principles Guidelines for Water and Related Land Resources Implementation Studies, March 1983. This method lends consistency in the comparison of non-federally financed alternatives (which must borrow funds) to Federally financed projects. Each proposal will be evaluated by an application review committee in accordance with the following criteria and corresponding percentage weights: (a) Technical merit those passing will be evaluated further; (b) Cost effectiveness 30%, (the annual cost for each ton of salt load reduction, expressed in dollars per ton); (c) The ability to enable future on-farm projects with the USDA 25%; (d) Performance risk factors 45%. Detailed information will be included in each FOA or may be obtained from the Salinity Control Program contacts listed above.

15.510 Colorado Ute Indian Water Rights Settlement Act

Colorado Ute Settlement Act/Animas La Plata,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Colorado River Basin Project Act, Public Law 90-537, 82 Stat.885; Colorado Ute Indian Water Rights Settlement Act of 1988, as amended, Public Law 100-585, 102 Stat. 1973; Colorado Ute Settlement Act Amendments of 2000, Public Law 106-554, 114 Stat 2763A-266.

OBJECTIVES:

To supply municipal and industrial water supply to the Ute Mountain Ute, Southern Ute Indian Tribe, the Navajo Nation and non-Tribal participants from the Animas-La Plata Project in settlement of water rights claims for the Tribes, and also fulfill other project activities that may be required as a result of the construction, such as relocation of roads and moving powerlines. To complete construction of a reconfigured Animas-La Plata Project, consisting of facilities to divert and store water from the Animas River to provide for an average annual depletion of 57,100 acre-feet of water, to be used for municipal and industrial water supply only, for the Ute Mountain Ute and Southern Ute Indian Tribes, and other tribal and non-tribal entities in the Four Corners Region of the United States. Also, to supply 4,680 acre-feet per year to the Navajo Nation through a pipeline from Farmington to Shiprock, NM.

TYPES OF ASSISTANCE:

Cooperative Agreements, Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

The Bureau of Reclamation is specifically authorized to: (1) Construct a reservoir, a pumping plant, a reservoir inlet conduit, and appurtenant facilities with sufficient capacity to divert and store water from the Animas River to provide for an average annual depletion of 57,100 acre-feet of water to be used for a municipal and industrial water supply. (2) Meet specific annual depletion rates for water allocation delivery. (3) To supply 4,680 acre-feet per year to the Navajo Nation through a pipeline from Farmington to Shiprock, NM. The design and construction functions of the Bureau of Reclamation with respect to the Dolores and Animas-La Plata Projects shall be subject to the provisions of the Indian Self-Determination and Education Assistance Act (ii Stat. 2203; 25 U.S.C. 450 et seq.) to the same extent as if such functions were performed by the Bureau of Indian Affairs.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Government - Projects shall be subject to the provisions of the Indian Self-Determination and Education Assistance Act (ii Stat. 2203; 25 U.S.C. 450 et seq.) to the same extent as if such functions were performed by the Bureau of Indian Affairs; and for projects not awarded subject to Public Law 93-638: State, local,

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Bureau of Reclamation is required by Public Law 100-585 to use Public Law 93-638 procedures to contract for construction of the Animas-La Plata Project with the Ute Mountain Ute Tribe and the Southern Ute Indian Tribe. Construction contracts for estimated quantities and with firm fixed unit pricing are issued to accomplish the work. For projects under this program that are not required to be awarded subject to Public Law 93-638, funding opportunity announcements, along with registration procedures, application packages and instructions, SF-424 forms and any other forms to be used to submit application information, points of contact, and procedures for submitting applications will be available on <http://www.grants.gov>.

Award Procedure:

An initial statement of work is issued to the Tribe for review and pricing by the Contract Specialist. The Tribe reviews the initial statement of work, and submits a proposal with an estimate for completion of the work. The proposal with cost estimate is evaluated by the Government Technical Team, the Government Cost & Price Analyst, Contract Specialist, Contract Administrator, and Contracting Officer. Negotiations are held on the various elements until an agreement is reached and an award is then made. For projects not awarded subject to Public Law 93-638, all applications will be initially screened for eligibility and compliance with the requirements stated in the program funding announcement. Applications passing this screening process will be forwarded for review by a proposal evaluation panel comprised of qualified experts in the program area. Applications will be reviewed against the proposal evaluation criteria, and any additional review factors, as stated in the funding announcement. Final selection will be determined by the Commissioner, Bureau of Reclamation, or regional officials, as applicable to the project.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Varies depending on the type and complexity of the project. Further information will be available for each specific project at the time the funding opportunity announcement is posted on www.grants.gov and may be obtained by contacting the Reclamation personnel listed as the point of contact in the funding announcement.

Appeals:

Not Applicable. Final award decisions are subject to appeal; however, the Bureau of Reclamation will provide all applicants with information on why their proposals were not selected for award.

EXAMPLES OF FUNDED PROJECTS:

2019 Information not available. 2018 Information not available. 2017 Information not available. The examples of funded projects include agreements with the University of Texas San Antonio and the Institute of the Great Plains for cataloging and curation of Reclamation museum property; Colorado Historical Society for public education efforts; University of Nebraska State Museum for testing sites at Red Willow Reservoir; Kansas State University for cultural resource inventory, evaluation and excavation of sites at Red Willow Reservoir and other Reclamation lands; University of North Dakota for archaeological investigations at Reclamations Shadehill, Jamestown, and Heart Butte Reservoirs and McClusky Canal and producing electronic versions of cultural resource site records; University of Denver Museum of Anthropology to inventory, analyze, and catalog objects recovered from archeological investigations at Lake Pueblo State Park (Pueblo Reservoir) in 2017; University of Oklahoma for archaeological fieldwork and investigation of unanticipated discoveries; Sam Noble Oklahoma Museum of Natural History and Wichita State University for curation of Reclamation collections and NAGPRA remains; and archaeological fieldwork for unanticipated discoveries and their analysis; Wyoming Department of State Parks and Cultural Resources for analysis and development of a restoration plan for the smokestack at the Heart Mountain Relocation Center National Historic Landmark; Wichita State University and the Nebraska State Historical Society for providing curation services of Reclamation collections and NAGPRA remains; University of Kansas for curation of Reclamation collections; and the Nebraska State Historical Society for curatorial services such as object processing, cataloging, and curation of a repossessed and back-logged archeological collection from Medicine Creek Reservoir.

CRITERIA FOR SELECTING PROPOSALS:

Criteria used for selecting a recipient are based on a balanced and informed review of program needs and sources of information. For example, states have mandatory responsibilities to cooperate with Federal agencies to maintain statewide inventories of cultural resources, so states are sole sourced funds to maintain databases under the various National Historic Preservation Act sections requiring data sharing and cooperation. Indian tribes are often sole sourced because only they can identify properties of religious and cultural concern to tribal members. For other cultural resources activities, a technical proposal, budget proposal, and relevancy to program objectives are required. The specific evaluation criteria for each project will be included in the funding announcement posted on www.grants.gov.

15.512 Central Valley Improvement Act, Title XXXIV

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Reclamation Projects Authorization and Adjustment Act of 1992, Title XXXIV, Central Valley Project Improvement Act, Public Law 102-575.

OBJECTIVES:

The purposes of the Central Valley Project Improvement Act (CVPIA) are (1) to protect, restore, and enhance fish, wildlife, and associated habitats in the Central Valley and Trinity River basins of California, (2) to address impacts of the Central Valley Project on fish, wildlife, and associated habitats, (3) to improve the

Credentials/Documentation:

None. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding Opportunity Announcements (Announcement) are posted on www.grants.gov. Submission of a complete technical proposal and projects budget is mandatory by the due date identified in the Announcement. In addition, applicants must submit all applicable SF 424 forms referenced in the Announcement.

Award Procedure:

Proposals received in response to the Announcement are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the Announcement. Reclamation will make awards to the highest rated proposals based on the amount of funding available each year.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

EXAMPLES OF FUNDED PROJECTS:

2019 No information available. 2018 No information available. 2017 No information available. This program funds collaborative Drought Contingency Plans that will help provide water managers prepare in advance of a drought. For example, the Dolores Water Conservancy District in Colorado will develop a Drought Contingency plan in partnership with the Ute Mountain Ute Tribe Farm and Ranch Enterprise, and the Montezuma Valley Irrigation Company. The plan will include the areas served by the Bureau of Reclamation's Dolores Project, located in southwest Colorado, which provides irrigation water for approximately 36,600 acres of irrigated land, provides municipal and industrial water to the Ute Mountain Ute Tribe, the tribal community of Towaoc, several other towns and cities, and serves downstream fish and wildlife purposes. The Dolores Project

suffered severe shortages (25%) from drought in 2013. The plan will include a comprehensive evaluation of mitigation and response actions to reduce water shortages and improve drought resiliency for water users through collaboration with local agricultural districts, tribal farmers, municipal and industrial users, non-governmental organizations, and Federal and state agencies. This program also funds Drought Resiliency Projects that help provide water managers with flexibility during periods of drought. For example, in Arizona, the City of Phoenix, will purchase components for a well as part of an Aquifer Storage and Recovery Well Restoration project at their Deer Valley Water Treatment plant. The City will construct a dual-purpose well that will directly inject under-utilized surface water supplies into the aquifer for later withdrawal during times of drought. The City, which services more than 1.5 million residents, is currently experiencing drought conditions. This project enables the City to maintain a supply of surplus water while offering operational flexibility during times of drought. The City estimates the groundwater recharge to be 2,400 gallons per minute, or approximately 3,874 acre-feet per year.

CRITERIA FOR SELECTING PROPOSALS:

Drought contingency plans must include input and participation by multiple stakeholders. Plans will also consider uncertainties related to changing hydrologic conditions and identify potential drought mitigation and response actions to build resilience to drought. Drought resiliency projects supported by an existing drought contingency plan (e.g., an existing state, county, municipal, or other plan is acceptable) receive prioritization. Projects that are eligible for funding should address at least one of the following goals: 1) increase the reliability of water supply; 2) improve water management; and 3) provide benefits for fish and wildlife and the environment.

15.516 Fort Peck Reservation Rural Water System

Fort Peck Water Supply Project,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Fort Peck Reservation Rural Water System Act of 2000, Pub. L. 106-382.

OBJECTIVES:

To ensure a safe and adequate municipal, rural and industrial water supply for the residents of the Fort Peck Indian Reservation in the State of Montana; and to assist the citizens in those portions of Roosevelt, Sheridan, Daniels, and Valley Counties that are outside the Fort Peck Indian Reservation, in developing safe and adequate municipal, rural, and industrial water supplies.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements), Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

The project is for the construction of municipal, rural, and industrial water supply systems that will serve the Fort Peck Indian Reservation (Assiniboine and Sioux Rural Water System), and all or portions of Valley, Daniels, Sheridan and Roosevelt counties in northeastern Montana (Dry Prairie Rural Water System).

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; Specialized group (e.g. health professionals, students, veterans); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); The Fort Peck Tribal Executive Board, Dry Prairie Rural Water Association Incorporated (or any successor non-Federal entity).

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); State; Federally Recognized Indian Tribal Governments; The Fort Peck Indian Reservation, the Dry Prairie Rural Water Association, and the residents of all or portions of Valley, Daniels, Sheridan and Roosevelt counties in the State of Montana.

15.518 Garrison Diversion Unit

Garrison Diversion Unit Project,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Garrison Diversion Unit, Missouri River Basin Project, Public Law 89-108, as amended; Energy and Water Development Appropriation Act of 1985, Public Law 98-360; Garrison Diversion Unit Reformulation Act of 1986, Public Law 99-294; the Dakota Water Resources Act of 2000, Public Law 106-554, and the Indian Self-Determination and Education Act P.L. 93-638, as amended (ISDEA is not applicable for nontribal recipients).

OBJECTIVES:

To meet the water needs within the State of North Dakota by providing funds on a non-reimbursable basis for the planning and construction of a multi-purpose water resource development project within the State of North Dakota for irrigation; municipal, rural, and industrial water; fish, wildlife, and other natural resource conservation and development; recreation; flood control; augmented stream flows; ground water recharge; and other project purposes.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

Different projects and programs under the authorization have different cost ceilings. The Bureau of Reclamation's Great Plains Region shall enter into cooperative agreements with the State of North Dakota, the Garrison Conservancy District, the Standing Rock Sioux, the Three Affiliated Tribes, the Spirit Lake Nation, and the Turtle Mountain Band of Chippewa and the Trenton Indian Service Area to undertake the authorized activities, programs and projects as the Secretary of the Interior determines necessary.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); The State of North Dakota, the Garrison Conservancy District, the Standing Rock Sioux, the Three Affiliated Tribes, the Spirit Lake Nation, the Turtle Mountain Band of Chippewa and the Trenton Indian Service Area

Beneficiary Eligibility:

Native American Organizations; American Indian; Federally Recognized Indian Tribal Governments; The citizens of the State of North Dakota and the Standing Rock Sioux, the Three Affiliated Tribes, the Spirit Lake Nation, the Turtle Mountain Band of Chippewa and the Trenton Indian Service Area.

Credentials/Documentation:

See Public Law 99-294, Section 2, for considerations to be given to fish and wildlife conservation, including habitat impacts, mitigation procedures, and

enhancement. See Public Law 99-294, Section 3, regarding when it may be necessary for applicants to complete a comprehensive report covering feasibility, capability, impacts, cost and efficiency measures, National Environmental Policy Act requirements, and other matters. Please contact the Bureau of Reclamation personnel listed in the Contacts section, below, for further information regarding these requirements. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Preapplication is not required. Depending on the project, an environmental impact assessment or statement may be required. If requested, the Bureau of Reclamation's Great Plains Region will assist the State of North Dakota, the Garrison Conservancy District, the Standing Rock Sioux, the Three Affiliated Tribes, the Spirit Lake Nation, and the Turtle Mountain Band of Chippewa and the Trenton Indian Service Area in preparing their respective proposals.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications shall include: (1) Detailed written technical proposals including background data regarding the applicants, technical approaches proposed to accomplish the work, scopes of work that separate the work into major tasks, types of personnel implementing the proposals, experience in performing these types of work, timelines, the levels of cooperation with other parties involved in the proposals, and other information that may be useful for proposal evaluation; and (2) Detailed project cost proposals, including budgets with estimated project costs, including salaries and wages, fringe benefits, travel, equipment, supplies, contracts, and indirect costs, and the values of any in-kind contributions of goods and services. Applicants must submit all applicable SF-424 Application for Federal Assistance forms, along with their technical and budget proposals.

Award Procedure:

Once the parties agree with their respective scopes of work and cooperative agreements, the Bureau of Reclamation's Great Plains Region will finalize the agreements. The Bureau of Reclamation's Great Plains Region will negotiate and enter into cooperative agreements with the State of North Dakota, the Garrison Conservancy District, the Standing Rock Sioux, the Three Affiliated Tribes, the Spirit Lake Nation, the Turtle Mountain Band of Chippewa and the Trenton Indian Service Area. The tribes may choose to enter into an agreement under Public Law 93-638, the Indian Self-Determination and Education Assistance Act. For those agreements that are in place, the Bureau of Reclamation negotiates annually the workplan and budget for that fiscal year.

assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Bureau of Reclamation Native American Affairs Specialists in each Region will notify tribes when funds become available. They will also provide application packages and instructions, points of contact, and procedures for submitting applications. A Funding Opportunity Announcement will also be posted on Grants.gov.

Award Procedure:

All applications will be initially screened for eligibility and compliance with the requirements stated in the notification to tribes and the funding announcement. Applications passing this screening process will be forwarded for review by a proposal evaluation panel comprised of Bureau of Reclamation Native American Affairs Program managers who are knowledgeable in the program area. Applications will be reviewed against the proposal evaluation criteria, and any additional review factors, as stated in the funding announcement. Reclamation will notify successful applicants as soon as possible after proposals have been reviewed and approved for award. Reclamation anticipates that contracts will be awarded under the authority of PL 93-638 as amended in accordance with federal self-determination and self-governance policies. Tribes may also request to enter into financial assistance grants or cooperative agreements.

15.524 Recreation Resources Management

Title XXVIII.

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Federal Water Projects Recreation Act of 1965, Pub. L. 89-72 as amended; Reclamation Recreation Management Act of 1992, Pub. L. 102-575, Title XXVIII.

OBJECTIVES:

To provide cost-share opportunities with non-Federal recreation partners (e.g., state, county, local governments, etc.), to assist in planning, development, operation, maintenance, and replacement of recreation and fish and wildlife resource facilities at partner managed Reclamation project recreation areas.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Cost share agreements are used to provide assistance to non-Federal managing partners, who currently manage or will be managing one or more Reclamation project recreation areas, for the long-term management and care of publicly-owned recreation resources, and for the planning, construction and other facets of improving recreation access and assets. Concession contracts are not authorized by the above authorities.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Non-Federal managing partners (e.g., state, county, local government entities, etc.), that currently manage or will be managing one or more Reclamation project recreation areas.

Beneficiary Eligibility:

Anyone/general public; State; Local; Non-Federal recreation management partners.

Credentials/Documentation:

Pub. L. 89-72, as amended, requires that prospective non-Federal managing partners that will be entering into long-term agreements for management of Reclamation project recreation areas indicate their intent in writing to administer Reclamation project recreation areas and enter into such long-term agreements for management of recreation and fish and wildlife facilities. Management agreements must be current for existing partners. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

ASSISTANCE LISTINGS DESCRIPTIONS

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for categorical exclusion, environmental assessment, or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. State and local governments that have managing partner agreements with Reclamation submit proposals with detailed scopes of work and budgets for recreation as well as fish and wildlife improvement projects.

Award Procedure:

All applications will be initially screened by Bureau of Reclamation personnel for eligibility and compliance with the requirements stated in the program funding announcement. Applications are reviewed by the Bureau of Reclamation office having administrative jurisdiction of the land and water areas being considered for public recreation purposes.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Varies depending on the type and complexity of the project.

Appeals:

Other. None. Final award decisions are not subject to appeal; however, the Bureau of Reclamation will provide all applicants with information on why their proposals were not selected for award.

Renewals:

Other. If renewals or extensions are applicable to the project, this information will be communicated to the Recipient. The financial assistance agreements are renewable if both the Bureau of Reclamation and the state or local partners are in mutual agreement. When renewals or extensions are applicable, continuation of funding for these activities is at the discretion of Congress and will be subject to availability of appropriated funds.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. In the case of recreation development, a minimum cost share of 50 percent is required from a non-Federal partner. For fish and wildlife enhancement projects, the Federal share is exactly 75 percent of the project cost. (16 U.S.C. 4601-13(a)). MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Agreements are typically for 1 to 5 years depending on the type of project. Method of awarding/releasing assistance: other

Reports:

Unless otherwise stated in the agreement, recipients shall submit the following reports on an annual basis: (1) SF-425, Federal Financial Report; and (2) Program Performance Reports. Upon completion of the agreement, recipients shall submit a final: (1) SF-425, Federal Financial Report; and (2) Program Performance Report; and (3) other specific reports that may be applicable to the agreement such as property inventories, and patent and invention disclosures. For Recovery Act projects, quarterly reporting is required. Unless otherwise stated in the agreement document, recipients shall submit on a quarterly basis the Federal Financial Report SF 425. Upon completion of the agreement, recipients shall submit a final Federal Financial Report SF 425.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

All recipients of Federal awards shall maintain project records in accordance with 2 CFR 200.333 Retention requirements for records. Financial records, supporting documents, statistical records, and all other non-Federal entity records pertinent to a Federal award must be retained for a period of three years from the date of submission of the final expenditure report or, for Federal awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, respectively, as reported to the Federal awarding agency or pass-through entity in the case of a subrecipient. Federal awarding agencies and pass-through entities must not impose any other record retention requirements upon non-Federal entities, except as noted in 2 CFR 200.333.

EXAMPLES OF FUNDED PROJECTS:

ASSISTANCE LISTINGS DESCRIPTIONS

2019 Information not available. 2017 Information not available. Cost-share cooperative agreements were awarded to a number of non-federal partners, such as states or counties, in an effort to facilitate planning and development of recreation and fish and wildlife facilities on various Bureau of Reclamation water project recreation areas. These projects were identified primarily through existing resource management plans (RMPs), budget availability, and in coordination with managing partners. Many of the projects funded promote active and health youth opportunities on public lands and waters through development and/or expansion of outdoor day-use and camping facilities, water access points to enjoy fisheries, hunting, sport shooting facilities, etc. Provided below are just some of the many examples of cost-share funded projects in Reclamation. The Tri-Cities Joint Job Development Authority (JJDA) of North Dakota (ND) completed cost share projects consisting of a fish cleaning station, a playground, a hiking trail, and camper cabins at Heart Butte Reservoir. Dickinson Parks and Recreation Department of ND contributed funding towards the Crooked Crane hiking trail at Edward A. Patterson Lake which is currently in progress. The Stutsman County Parks Board in ND began the development of the Pelican Point recreation site at Jamestown Reservoir. South Dakota Game, Fish, and Parks (SDGFP) contributed to the development of recreation at Shadehill, Angostura, Belle Fourche, and James Diversion Lakeside. In addition, SDGFP also contributed funding for enhancement of wildlife facilities and habitat improvements on Reclamation lands. Wyoming State Parks and Trails has constructed camper cabins and a shower house at Keyhole Recreation Area. Larimer County has completed construction of the South Shore Campgrounds. Estes Valley Recreation and Park District completed construction of ADA accessible bathroom and shower facilities and is in progress of completing a sewer line, and dump station in the campground area. The Oklahoma Tourism and Recreation Department completed several cost share projects including accessible comfort stations, and a swim beach route. The development of other accessible comfort station projects are currently in progress. The Central Oklahoma Master Conservancy District completed an accessible fishing dock with an associated sidewalk and parking lot. Oregon State Parks and Recreation (OSPR) completed repair of an aging boat ramp at Unity Reservoir campground. Washington County Parks and Recreation is in progress of completing an accessibility retrofits at Henry Hagg Scoggins Dam. Idaho Department of Parks and Recreation is in progress of completing construction of an accessible fishing pier and retrofit. California State Parks and Recreation (CSPR) has made progress on the South Shore Service Yard at Millerton Lake. Casitas Municipal Water District is in the process of completing recreation improvements at Lake Casitas. CSPR received funding for the Auburn Recreation Area Resource Management Plan. The Nevada Division of State Parks also provided cost share for recreation planning, and O&M activities at Lahontan Recreation Area. Colusa County contributed funding to an ADA Disk Golf course. The Pine River Irrigation District is in the process of providing operation, maintenance, and replacement (OM&R) of recreation facilities at Vallecito Reservoir. New Mexico State Parks received funding for facility improvements and O&M at Reclamations reservoirs in New Mexico. Utah State Parks completed rehabilitation at Deer Creek Recreation Area and is in the process of rehabilitation work at Steiner Recreation Area. The City of Durango, CO and Pine River Irrigation District are seeking funding O&M activities. 2018 Information not available.

CRITERIA FOR SELECTING PROPOSALS:

In no priority order and at the discretion of each Reclamation office, cost-share funding will be given to proposals that will: (a) Provide for the public's health and safety; (b) Comply with Federal, State, and local laws and regulations; (c) Protect critical resources such as wetlands, critical wildlife habitat, endangered and threatened species, and cultural resources; and/or (d) Modernize existing facilities to meet current standards.

15.529 Upper Colorado and San Juan River Basins Endangered Fish Recovery

Upper Colorado and San Juan River Recovery Implementation Program,
FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Upper Colorado and San Juan River Basins Endangered Fish Recovery Programs, Pub. L. 106-392, 114 Stat. 1602, as amended; Upper Colorado and San Juan River Basins Endangered Fish Recovery Programs Extension, Pub. L. 107-375, 116 Stat. 3113

OBJECTIVES:

To authorize the Bureau of Reclamation to provide cost sharing for the endangered fish recovery implementation programs for the Upper Colorado and San Juan River Basins.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Recovery Implementation Programs are designed to help recover the Colorado Pikeminnow, Razorback Sucker, Bonytail, and the Humpback Chub while allowing water development to continue in the Upper Colorado and San Juan River Basins. The term Recovery Implementation Programs mean the intergovernmental programs established pursuant to the 1988 and 1992 Cooperative Agreement described in Sec. 2 of the Act. The major portion of the work (between 80% to 90%) will be accomplished through mandatory grant and cooperative agreement awards established by these intergovernmental Cooperative Agreements. The remaining work is done under contracts to purchase equipment for O&M or monitoring work. The types of projects authorized by these Cooperative Agreements include Administration of Water Right; Oversight of the Development of Water Resources; Protection and Management of Fish and Wildlife Resources; Projects related to Tribal Sovereignty; Long Range Plan and Program Goal Development; Protection, Management and Augmentation of Habitat; Interactions Between Native and Non-Native Fish Species; and Monitoring and Data Management. Periodically, the Bureau of Reclamation will have discretionary funding available to make awards for certain types of projects. When this project funding becomes available, funding opportunity announcements will be posted to www.Grants.gov or Fedbizopps.gov

Applicant Eligibility:

Federal; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Federal, Interstate,

Intrastate, State and Local governments; Public Institution/Organizations, and Federally Recognized Indian Tribal Governments and private contractors.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Federally Recognized Indian Tribal Governments; Indian Tribes in the location of the San Juan River Basin and in the Duchesne River Basin, and the general public in the Colorado River Basin.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Depending on the project to be accomplished, an environmental impact statement may be required for this program, but not until after receipt of applications.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All discretionary funding opportunities will be posted on www.grants.gov or fedbizopps.gov. The funding opportunity will include the name of the Federal agency, the Funding Opportunity Title of work associated with the project, the application due date, eligible applicants, the federal funding amounts per agreement, the estimated number of agreements to be awarded, and the overall total amount of funding available for awards. All applicants, whether submitting projects under the mandatory or discretionary portions of this authority, will be required to submit a Standard Form 424, Application for Federal Assistance, and Standard Forms 424B or 424D for Assurances must also be submitted. A detailed budget worksheet guide form will be included to assist in preparation of the budgeted amount requested. The Funding Opportunity posting will identify the program description, background and purpose, program objectives, objective or request for proposals, eligible projects, types of projects, and program authority. General provisions and special provisions, along with reporting requirements will be identified to provide applicants with information that must be followed if an award is made. The funding opportunity will identify a point of contact for assistance or consultation for preparing the form.

Award Procedure:

Upon receipt of applications by the date identified in the announcement(s), the applications will be reviewed to determine if applications are consistent with requirements identified in the announcements. The application/proposal(s) are reviewed by a Federal technical team of experts (along with state and private advisors) against identified criteria. Negotiations, revised applications, or awards will be made based on recommendations from the technical experts. Proposals submitted under the mandatory authority portion of this program will undergo a similar review and screening procedure.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Information not available. The Upper Colorado River and San Juan River Endangered Fish Recovery Programs (Recovery Programs) are partnerships composed of State, Tribal and Federal agencies, water and power interests, and environmental groups working to recover endangered fish in the Upper Colorado and San Juan River basins while water development proceeds in accordance with federal and state laws and interstate compacts. In Fiscal Year 2016 and 2017, the Recovery Programs continued to provide ESA coverage to thousands of state, federal and private water development projects while advancing endangered fish recovery. The programs implemented management actions and projects to recover endangered fish in the areas of in-stream flow protection, habitat restoration, nonnative fish management, propagation and genetics, research and monitoring, information and education, and program management. Specific examples include operation and maintenance of river gages and infrastructure (fish passages and screens), installation of and maintenance of electronic fish monitoring antennae, coordination of reservoir operations, management of floodplain wetland rearing habitats including stocking of endangered fish in managed wetlands, removal of and translocation of nonnative fish, propagation and stocking of endangered fish, planning for pond construction, research and monitoring of early life history endangered fish survival including larval fish monitoring, database management, population estimates, maintenance of program website and publication of outreach materials. 15.531 Yakima River Basin Water Enhancement (YRBWE)

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Yavapai-Prescott Indian Tribe Water Rights Settlement Act of 1994, Title XII, Yakima River Basin Water Enhancement Project, Public Law 103-434.

OBJECTIVES:

Within the Yakima River Basin: (1) to protect, mitigate, and enhance fish and wildlife through improved water management; improved instream flows; improved water quality; protection, creation and enhancement of wetlands; and by other appropriate means of habitat improvement; (2) to improve the reliability of water supply for irrigation; (3) to authorize a Yakima River basin water conservation program that will improve the efficiency of water delivery and use; enhance basin water supplies; improve water quality; protect, create and enhance wetlands, and determine the amount of basin water needs that can be met by water conservation measures; (4) to realize sufficient water savings from the Yakima River Basin Water Conservation Program so that not less than 40,000 acre-feet of water savings per year are achieved by the end of the fourth year of the Basin Conservation Program; (5) to encourage voluntary transactions among public and private entities which result in the implementation of water conservation measures, practices and facilities; and (6) to provide for the implementation by the Yakama Indian Nation at its sole discretion of (A) Wapato Irrigation Project improvements, (B) an irrigation demonstration project on the Yakama Indian Reservation using water savings from system improvements to the Wapato Irrigation Project, and (C) a Toppenish Creek corridor enhancement project integrating agricultural, fish, wildlife, and cultural resources.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

To participate in the Conservation Basin Program an entity must submit a proposed

water conservation plan to the Secretary of the Interior. Assistance is limited to those entities (districts, irrigation districts, individuals, or other entities) that equip all surface water delivery systems within their boundaries with volumetric water meters or equally effective water measuring methods within five years of the date of enactment of this Act. The Yakima Nation is not included in the provisions of this, Section 1203, except as to any funds specifically applied for from the Basin Conservation Program. The Secretary of the Interior may use appropriated funds to purchase, or lease, land, water, or water rights from an entity or individual willing to limit or forego water use on a temporary or permanent basis. Funds used for purchase or lease under this paragraph are not subject to the cost sharing provisions of Section 1203(d).

Applicant Eligibility:

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A Funding Opportunity Announcement (FOA) will be posted at Grants.gov as funding is made available by the Bureau of Reclamation. Applications shall include: 1) A detailed written technical proposal that should include information such as a scope of work which separates the work into major tasks, the approach proposed to accomplish the work, type of personnel who will participate in accomplishing the work, background and location of applicant, any equipment that will be utilized by the project applicant, experience in this type of work, an estimate of the costs and/or cost savings, any economic benefit, and any other information that may be useful for proposal evaluation. 2) A detailed cost proposal including a budget covering salaries and wages, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, funding sources and commitments, cost-sharing, and a breakdown of costs by task. In addition, applicants must submit all applicable SF 424 forms, which are referenced in the FOA.

Award Procedure:

The number of awards, maximum funding amount per award, and areas of interest for which proposals will be considered, are determined on an annual basis and are dependent upon the annual appropriation from Congress. Proposals received in response to the FOA are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the FOA. The review team will consist of Federal personnel and qualified non-Federal personnel when specific expertise is required by the review team. The Bureau of Reclamation will make awards to the highest rated proposals based on the amount of funding available each year. The Bureau of Reclamation reserves the right to prioritize projects based on availability of funds and to ensure balance among the program objectives listed in the FOA.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

15.535 Upper Colorado River Basin Fish and Wildlife Mitigation

Section 314c Projects,

FEDERAL AGENCY:

OFFICE OF THE SECRETARY OF THE INTERIOR, INTERIOR,
DEPARTMENT OF THE
AUTHORIZATION:

Authorization for Section 314(c) projects comes from the Reclamation Projects Authorization and Adjustment Act of 1992, Title III Fish, Wildlife, and Recreation Mitigation and Conservation, Sec. 314, P.L. 102-575, as amended. -Authorization for the June Sucker Hatchery and JSRIP Projects comes from Title II Central Utah Project Construction, Sec. 202, P.L. 102-575, as amended. -Authorization for the species status review comes from the Endangered Species Act and the Fish and Wildlife Coordination Act.

OBJECTIVES:

To protect, restore and enhance wetland and upland ecosystems for the conservation of fish and wildlife resources in the upper Colorado River Basin. -To produce June sucker to be released into Utah Lake -To recover the endangered June sucker -To Determine which species listed under the Endangered Species Act are potentially eligible for de-listing or down-listing

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

-The purpose of Section 314(c) projects is to benefit fish and wildlife resources adversely affected by the construction and operation of Federal water resource developments authorized by the Colorado River Storage Project Act of 1956 (P.L. 84-485). Projects are for fish and wildlife habitat improvements and recreation in accordance with the goals and criteria established by Congress in Section 314 of the Central Utah Project Completion Act (CUPCA). Projects supplement historic water resource development mitigation that has occurred, expand previous mitigation efforts to address unforeseen circumstances, or otherwise benefit associated wildlife habitat and public interests. By statutory restriction, funds are expended outside the state of Utah. -The purpose of the June Sucker Hatchery Assistance Agreement is to fund the operation and maintenance of the June Sucker Interim Fish Hatchery. -The purpose of the JSRIP Assistance Agreement is to fund activities aimed at the recovery of the endangered June sucker. -The purpose of the Endangered Species Status Review Assistance Agreement is to fund efforts to de-list or down-list Utah species.

Applicant Eligibility:

Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; -Under Section 314(c) projects, state and local government agencies, Federally recognized Indian Tribal governments, private nonprofit institutions/organizations; public nonprofit institutions/organizations; for-profit organizations, interstate and intrastate entities, and individuals. While entities within the state of Utah are eligible to receive funds under this program, funds must be expended for project activities outside the State of Utah. -The State of Utah manages the June sucker Interim Hatchery. Therefore, funding is granted to the State. -The JSRIP is provided funding under the June Sucker Recovery Implementation Program Agreement -The Fish and Wildlife Service is provided funding under the Endangered Species Status Review Agreement.

Beneficiary Eligibility:

Individual/Family; State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; - For Section 314(c) projects, state and local government agencies, Federally recognized Indian Tribal governments, private nonprofit institutions/organizations; public nonprofit institutions/organizations; for-profit organizations, interstate and intrastate entities, and individuals. While entities within the state of Utah are eligible to receive funds under this program, funds must be expended for project activities outside the State of Utah. -The State of Utah manages the June sucker Interim Hatchery. Therefore, funding is granted to the State. -The JSRIP is provided funding under the June Sucker Recovery Implementation Program Agreement -The Fish and Wildlife

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Environmental impact statements or assessments may be required based on potential impacts to the human environment.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. -For Section 314(c) projects, applicants submit written technical and budget proposals in accordance with guidance stated in the annual program announcement. The standard application forms required by 43 CFR 12, Subparts C and F, must be used. Preparation of Environmental Impact Statement/Environmental Assessment and compliance with the Federal Endangered Species Act and other Federal environmental laws may be prerequisites, based on impacts of the proposed action, prior to receiving federal assistance/funding. State Plans are not required. -The June Sucker Hatchery is funded annually under a Cooperative Agreement-The JSRIP is funded annually under a Cooperative Agreement-The Endangered Species Status Review is funded annually under a Cooperative Agreement

Award Procedure:

-Under Section the 314(c), projects ranking highest against the program criteria for selecting proposals as stated in the annual funding announcement (see Criteria for Selecting Proposals, below), and consistent with available funding, are requested to submit a draft grant or cooperative agreement along with supporting forms and documents. Applicants will work with the CUPCA program office to complete required documents and execute the award. Awards are granted to other Federal, State and local government agencies, non-governmental entities, institutions of higher learning, and private individuals.-The June Sucker Hatchery is funded annually under a Cooperative Agreement. These funds are expended by the hatchery on operational maintenance costs.-The JSRIP is funded annually under a Cooperative Agreement. The JSRIP expends these funds on program management, as well as services and products provided by the State of Utah, universities, and private entities.

Grants and cooperative agreements are normally written for a 1 to 5 year period with funding provided only for the current year. See Renewals, above. Method of awarding/releasing assistance: other

Reports:

All projects and activities are monitored for progress and compliance with the agreed-upon scope of work. Recipients are required to submit periodic requests for advance or reimbursement of funds using the SF-270, or may request payments through the Automated Standard Application for Payments (ASAP) system. Recipients also submit Financial Status Reports annually within 90 calendar days after the grant year (i.e., 12 months after the approved effective date of the assistance agreement and every 12 months thereafter until the expiration date of the assistance agreement). A final Financial Status Report is required within 90 calendar days after the expiration or termination of the assistance agreement. Written quarterly progress reports detailing project accomplishments are generally required, as are written reports upon completion of the project. Periodic site visits and internal reports are completed by the CUPCA program office.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

EXAMPLES OF FUNDED PROJECTS:

2019 Information not available. 2018 Information not available. 2017 Information not available. - Section 314(c) Projects constructed a diversion dam on the Green River that will allow for controlled releases into an existing but dewatered oxbow to enhance waterfowl and shorebird wetlands improvements; constructed rock vanes in the Little Snake River that will reestablish and maintain a natural hydrological connection between the river and four oxbows; planted nearly two acres of cottonwood seedlings or cuttings to establish a cottonwood nursery that will provide trees to be used in habitat replacement as tamarisk are eliminated along the Colorado River and including its tributaries. Funded the removal of tamarisk along the Green River in Dinosaur National Monument. Funded Cheat Grass Survey near Pinedale, WY to be used in Sage Grouse habitat improvement. Provided funding to assist in the acquisition of a Conservation Easement near Mancos, CO.-The June Sucker Hatchery has produced June sucker that have been released into Utah Lake each year since 2000.-The JSRIP has accomplished recovery actions that have made sufficient progress toward the recovery of June sucker. These have included projects aimed at reducing the impacts of no-native and sportfish populations on June sucker; habitat development and maintenance; water acquisition, management, and protection; preserving genetic integrity and augmenting the population; various research projects answering critical questions in the life history of June sucker; and information and education efforts.-The Endangered Species Status Review has identified species eligible for de-listing and down-listing and is currently working toward down-listing several species that exist in Utah.

CRITERIA FOR SELECTING PROPOSALS:

- Section 314(c) Projects - Criteria for funding projects have been established by Congress in the authorizing legislation (P.L. 102-575) at Section 314(c). Generally, these criteria require that projects restore damaged natural ecosystems on public lands and waterways affected by Federal Reclamation projects in the upper Colorado River basin. In addition, priority is given to projects that assist recovery of endangered or sensitive species or ecosystems, allow reintroduction of native flora and fauna, control or eliminate exotic pest species, or provide enhanced conservation value to state and local government lands. A complete list of program criteria is available at the address listed in Information Contacts (:151). Projects that leverage grant funds with applicant funds, or in-kind services, will receive bonus consideration, but not automatic preference. Specific evaluation criteria will be included in the annual funding opportunity announcement.-The June Sucker Hatchery and JSRIP Projects are selected under recovery criteria established within the June Sucker Recovery Plan.-The Endangered Species Status Review funds the Fish and Wildlife Service to carry out de-listing and down-listing activities.

Collaborative Program,

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

P.L. 110-161, Consolidated Appropriations Act of 2008: (c) In compliance with applicable Federal and State laws, the Secretary (acting through the Commissioner of Reclamation), in collaboration with the Executive Committee, may enter into any grants, contracts, cooperative agreements, interagency agreements, or other agreements that the Secretary determines to be necessary to comply with the 2003 Biological Opinion described in section 205(b) of the Energy and Water Development Appropriations Act, 2005 (Public Law 108-447; 118 Stat. 2949) as amended by section 121(b) of the Energy and Water Development Appropriations

Act, 2006 (Public Law 109-103; 119 Stat. 2256) or in furtherance of the objectives set forth in the collaborative program long-term plan. P.L. 111-8, Omnibus Appropriations Act, 2009: (b) The Secretary of the Interior (referred to in this section as the Secretary) shall establish and maintain an Executive Committee of the Middle Rio Grande Endangered Species Collaborative Program (referred to in this section as the Executive Committee) consistent with the bylaws of the Middle Rio Grande Endangered Species Collaborative Program adopted on October 2, 2006.(c) Hereafter, in compliance with applicable Federal and State laws, the Secretary (acting through the Commissioner of Reclamation), in collaboration with the Executive Committee, may enter into any grants, contracts, cooperative agreements, interagency agreements, or other agreements that the Secretary determines to be necessary to comply with the 2003 Biological Opinion described in section 205(b) of the Energy and Water Development Appropriations Act, 2005 (Public Law 108447; 118 Stat. 2949) as amended by section 121(b) of the Energy and Water Development Appropriations Act, 2006 (Public Law 109103; 119 Stat. 2256) or any related subsequent biological opinion or in furtherance of the objectives set forth in the collaborative program long-term plan.

OBJECTIVES:

The Middle Rio Grande Endangered Species Collaborative Program (Program) is a collaborative effort consisting of 16 stakeholders including federal, state, and local governmental entities; Indian tribes and pueblos; and non-governmental organizations representing diverse interests working to support compliance with the Endangered Species Act (ESA). The purpose of the Program is to protect and improve the status of endangered listed species along the Middle Rio Grande (MRG) by implementing certain recovery activities to benefit those species and their associated habitats and, simultaneously, to protect existing and future water uses while complying with applicable state and federal laws, including Rio Grande compact delivery obligations. Listed species means federally listed species under the ESA, with special emphasis on the Rio Grande silvery minnow (silvery minnow) and the southwestern willow flycatcher (flycatcher).

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Financial assistance may be used in furtherance of the goals and objectives of the Executive Committee and the Collaborative Program Long-Term Plan which focuses on beneficial activities for improving the status of the silvery minnow and the flycatcher, and the conservation and contribution to the recovery of both listed species while protecting existing and future water uses within the geographic boundaries of the Program area. The Program Area is defined as the headwaters of the Rio Chama watershed and the Rio Grande, including tributaries, from the New Mexico-Colorado state line downstream to the elevation of the spillway crest of the Elephant Butte Reservoir at 4,450 ft above mean sea level, excluding the land area reserved for the full pool of the Elephant Butte Reservoir. Indian Pueblo and Tribal lands and resources within the Program area will not be included in the Program without their express written consent of the affected Indian Pueblo or Tribe.

Applicant Eligibility:

Federal; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Federal, Interstate, Intrastate, State, Local, Public nonprofit institution/organization, Other public institution/organization, Federally Recognized Tribal Government, Specialized Group, Private Non-profit Institution/Organization.

Beneficiary Eligibility:

Federal; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Interstate; Intrastate; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Federal, Interstate, Intrastate, State, Local, Public nonprofit institution/organization, Other public institution/organization, Federally Recognized Tribal Government, Specialized Group, Private Non-profit Institution/Organization.

Credentials/Documentation:

Whenever applicable, all necessary federal, state, local, and/or private access, collection, and other environmental permits must be provided. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

ASSISTANCE LISTINGS DESCRIPTIONS

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding opportunity announcements for this program, along with registration procedures, application packages and instructions, SF-424 forms and any other forms to be used to submit application information, points of contact, and procedures for submitting applications will be available on www.grants.gov.

Award Procedure:

All applications will be initially screened for eligibility and compliance with the requirements stated in the funding opportunity announcement. Applications passing this screening process will be forwarded for review by a proposal evaluation panel comprised of qualified experts (federal and non-federal stakeholders) in the program area. Applications will be reviewed against the proposal evaluation criteria and any additional review factors stated in the funding announcement. Final selection will be determined by the designated Grants Officer.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Varies depending on the type and complexity of the project. Further information will be available for each specific project at the time the funding opportunity announcement is posted on www.grants.gov and may be obtained by contacting the Reclamation personnel listed as the point of contact in the funding announcement.

Appeals:

Not Applicable. None. Final award decisions are not subject to appeal; however, upon request, the Bureau of Reclamation will provide applicants with information on why their proposals were not selected for award.

Renewals:

Other. If renewals or extensions are applicable to the project, this information will be included in the funding opportunity announcement. When renewals or extensions are applicable, continuation of funding for these activities is at the discretion of Congress and will be subject to availability of appropriated funds.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Federal assistance is typically available during the current fiscal year of appropriations. The Program expects all awarded funds to be expended during the fiscal year in which grant awards were made or no more than 2 years from the time of grant award. For more complex projects that may involve environmental compliance, design, feasibility studies, construction and implementation, effectiveness monitoring, and other related activities, the project will be divided into phases. The project will then be funded incrementally at phase level costs. Funding of subsequent phases will be based on project viability, effectiveness, and fund availability. Method of awarding/releasing assistance: other

Reports:

Unless otherwise stated in the agreement document, recipients shall submit on annual basis Program Performance Reports. Upon completion of the agreement, recipients shall submit a final Program Performance Report, and other specific reports that may be applicable to the agreement such as property inventories, and patent and invention disclosures. CRITERIA FOR SELECTING PROPOSALS:

The Las Vegas Wash Coordination Committee has decided that the SNWA will be the lead agency for receiving funding for this program due to the high costs and types of environmental improvement and enhancement, and ability to maintain restoration projects. The Las Vegas Wash Program plays an important role in environmental and water resource issues in Southern Nevada. Historically, the Las Vegas was an ephemeral stream carrying storm flows from the Las Vegas Valley to Lake Mead and the Colorado River. Urban development over the past 60 years has resulted in the formation of the wetlands that helped remove nutrients from these wastewater flows. As the rate of discharges increased, erosion also increased, gradually destroying the existing natural treatment systems and wildlife habitat and creating a large delta in the Las Vegas Bay of Lake Mead. Accelerating erosion, declining water quality, and loss habitat are some of the more pressing issues. Proposals submitted will be reviewed and awarded based on priority fulfillment of the 44 action items identified in the Plan and the availability of funding appropriations.

15.554 Cooperative Watershed Management

(CWMP).

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Public Law 111-11, Omnibus Public Land Management Act of 2009, Title VI,
Subtitle A, Sec. 6001-6003 (16 USC 1015 et seq.)

OBJECTIVES:

The purpose of the Cooperative Watershed Management Program is to enhance water conservation, uses; improve water quality; improve ecological resiliency of a river or stream; and to reduce conflicts over water at the watershed level by supporting the formation of watershed groups to develop local solutions to address water management issues.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Watershed Group Development and Restoration Planning (Phase I): In 2012, Reclamation began providing funding for the establishment or further development of watershed groups. A watershed group is a self-sustaining, non-regulatory, consensus-based group that is composed of a diverse array of stakeholders, which may include, but is not limited to, private property owners, non-profit organizations, Federal, State, or local agencies, and Tribes. As part of Phase I

activities, applicants may use funding to develop bylaws, a mission statement, watershed management project concepts, and complete stakeholder outreach and a watershed restoration plan. For Phase I projects, Reclamation will award a successful applicant up to \$50,000 per year for a period of up to two years with no non-Federal cost-share required. Implementation of Watershed Management Projects (Phase II): Starting in 2017, Reclamation will provide cost-shared financial assistance to watershed groups to implement watershed management projects (Phase II). These on-the-ground projects, collaboratively developed by members of a watershed group, will address critical water supply needs, water quality, and help water users meet competing demands and avoid conflicts over water. Program criteria will prioritize projects that contribute to the ecological resilience of the watershed. Reclamation will award a successful applicant up to \$50,000 per year for a period of up to two years. For Phase II projects, applicants must contribute at least 50% of the total project costs.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; State; Watershed Group Development and Restoration Planning (Phase I): Applicants eligible to receive financial assistance through Phase I of the Cooperative Watershed Management Program include: ●States;●Indian tribes;●Local and special districts; (e.g., irrigation and water districts, county soil conservation districts, etc.);●Local governmental entities; and non-profit organizations, including watershed groups. To be eligible, applicants must also significantly affect or be affected by the quality or quantity of water in a watershed; be capable of promoting the sustainable use of water resources within the given watershed area; and be located within the 17 western United States or Territories as identified in the Reclamation Act of June 17, 1902, as amended and supplemented. Implementation of Watershed Management Projects (Phase II): An eligible applicant is an established watershed group as defined in the Section 6001(5) of the Cooperative Watershed Management Act (Act) that has met the requirements outlined in Section 6002(c)(2)(A)(iv) of the Act (see Section A.3. Statutory Authority for full citation). In summary, the applicant must be a grassroots, non-regulatory entity that addresses water availability and quality issues within the relevant watershed, represents a diverse group of stakeholders, and is capable of promoting the sustainable use of water resources in the watershed. The applicant must also have approved articles of incorporation, bylaws, and a mission statement; hold regular meetings; and have developed a restoration plan and project concepts for the watershed. Applicants must also be located in the Western United States or Territories as identified in the Reclamation Act of June 17, 1902, as amended and supplemented.

Beneficiary Eligibility:

State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; The Cooperative Watershed Management Program benefits a diverse array of stakeholders, which may include but is not limited to, private property owners, Federal, State, or local agencies, and Indian tribes that are located in the 17 western States identified in the Act of June 17, 1902, as amended, and have authority with respect to the watershed.

Credentials/Documentation:

(1) A detailed written technical proposal is required, including background data regarding the applicant, such as: location; diversity, and the geographic scope of the proposed or existing watershed group; a description of the watershed, including the source of water supply, the water rights involved, current water uses (i.e., agricultural, municipal, domestic, instream uses or industrial), and the types of water issues faced in the affected watershed (e.g., shortfalls in water supply, endangered species concerns, environmental issues, or other issues in the watershed) an overview of the proposed project; an estimated project schedule that shows the stages and duration of the proposed work, including major tasks, milestones, and dates for the project upon entering into a financial assistance agreement; and describing data responsive to the evaluation criteria listed in the Funding Opportunity Announcement (FOA). (2) A detailed project cost proposal, including a budget with the annual estimated project costs, including salaries and wages, fringe benefits, travel, equipment, supplies, contracts, and indirect costs, an estimate of annual operation & maintenance costs, and the value of in-kind contributions of goods and services. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

ASSISTANCE LISTINGS DESCRIPTIONS

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. FOAs for this program are posted on www.grants.gov. Submission of a complete technical proposal and budget is mandatory by the due date identified in the FOA. In addition, applicants must submit all applicable SF 424 forms referenced in the FOA.

Award Procedure:

Proposals received in response to the FOA are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the FOA. Reclamation will make awards to the highest rated proposals based on the amount of funding available each year.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. The review, scoring and FOA of the recipients typically take three to five months.

Appeals:

Not Applicable. Upon request, Reclamation will provide all applicants with information on why their proposals were not selected.

Renewals:

Other. Projects which requested funding for one year only are fully funded at time of award. For projects requesting two consecutive years of funding, second-year may be awarded to applicants that demonstrate sufficient progress throughout the year, contingent on the availability of appropriations.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Development of Watershed Groups (Phase I): A non-Federal cost-share is not required for Phase I activities. Implementation of Watershed Management Projects (Phase II): A 50% non-Federal cost-share is required for watershed management projects. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Proposed activities should be completed within 2 years from the project start date. Applicants seeking funding for activities requiring more than 2 years will be considered if you can demonstrate that there will be measureable accomplishments each year. Method of awarding/releasing assistance: other

Reports:

Grant recipients shall submit the following reports on a semi-annual basis: (1) SF-425, Federal Financial Report; and (2) Semi-Annual Program Performance Reports. Upon completion of the agreement, recipients shall submit a final: (1) SF-425, Federal Financial Report; and (2) Prior to receiving second-year funding, all program participants will submit a report at 270 days that demonstrates achieved milestones for review and concurrence; and (3) Final Program Performance Report that demonstrates the applicants successful completion of the activities described in the financial assistance agreement. Grant recipients shall submit the SF-425, Federal Financial Report on a semi-annual basis. Upon completion of the agreement, a final SF-425 shall be submitted.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

All recipients of Federal awards shall maintain project records in accordance with 2

CFR 200.333 Retention requirements for records. Financial records, supporting documents, statistical records, and all other non-Federal entity records pertinent to a Federal award must be retained for a period of three years from the date of submission of the final expenditure report or, for Federal awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, respectively, as reported to the Federal awarding agency or pass-through entity in the case of a subrecipient. Federal awarding agencies and pass-through entities must not impose any other record retention requirements upon non-Federal entities, except as noted in 2 CFR 200.333.

EXAMPLES OF FUNDED PROJECTS:

2017 No information available. Phase I: The Land Trust of the Treasure Valley will establish the Boise River Enhancement Network in collaboration with Trout Unlimited, Ecosystem Sciences Foundation, Idaho Rivers United and the South Boise Water Company. The Network will address water quality issues, endangered species and loss of natural habitats in the lower Boise River watershed and will work with stakeholders to increase opportunities for public and private enhancement project collaboration. Phase II: The Eagle Creek Watershed Council, in conjunction with Trout Unlimited, Colorado Parks and Wildlife, and Buckhorn Valley Metropolitan District (BVMD), will improve instream flows in Abrams Creek, southwest of Eagle, Colorado. Abrams Creek, which supports a core conservation population of Green-Lineage cutthroat trout, suffers from low flows, affecting habitat for the trout and other aquatic species. The Council will pipe a 21,790 linear feet section of the JPO ditch and use the approximately 300 acre-feet of saved water for instream use. This increase to base flows in Abrams creek will benefit the target trout species, as well as other aquatic resources. This project, supported by the Eagle Creek Watershed Plan, has been endorsed by numerous elected officials, conservation groups, government agencies, and water users. 2018 No information available. 2019 No information available.

ASSISTANCE LISTINGS DESCRIPTIONS

CRITERIA FOR SELECTING PROPOSALS:

Specific evaluation criteria will be included in the FOA posted on www.grants.gov. All applications will be evaluated using criteria that give priority based on the diversity and geographic scope of the proposed watershed group; the critical nature of the issues to be addressed by the group; whether the proposed group (or its proposed activities) is aligned with a state water plan; whether the amount of funding requested is reasonable for the work proposed; and whether the proposed schedule and milestones are reasonable and appropriate.

15.555 San Joaquin River Restoration

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Public Law 111-11, Omnibus Public Land Management Act of 2009, Title X, Subtitle A, Part I, San Joaquin River Restoration Settlement Act (123 Stat. 1349), and Part III, Friant Division Improvements

OBJECTIVES:

The objective of the San Joaquin River Restoration Program (SJRRP) is to implement the Stipulation of Settlement in NRDC, et al., v. Rodgers, et al., consistent with and as supplement by, the San Joaquin River Restoration Settlement Act. The Settlement identifies the following two goals: (1) Restoration Goal - Restore and maintain fish populations in good condition in the main stem of the San Joaquin River below Friant Dam to the confluence of the Merced River, including naturally-reproducing and self-sustaining populations of salmon and other fish; and, (2) Water Management Goal - Reduce or avoid adverse water supply impacts to all of the Friant Division long-term contractors that may result from the Interim Flows and Restoration Flows provided for in this Settlement.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Assistance can be used only to implement the Settlement consistent with and as supplement by, the San Joaquin River Restoration Settlement Act. It is anticipated that all activities funded will be Project Grants or Financial Assistance that will relate to implementing specific activities in the Settlement and the San Joaquin River Restoration Settlement Act or specific monitoring, mitigation or other commitments that are necessary to implement the Settlement or the San Joaquin River Restoration Settlement Act (such as project implementation or mitigation commitments in environmental compliance documents prepared for SJRRP actions, including the SJRRP's Program Environmental Impact Statement and Record of Decision signed in September 2012).

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; Anyone/general public; State, tribal, and local governmental agencies, and with private parties, including agreements related to construction, improvement, and operation and maintenance of facilities, subject to any terms and conditions that the Secretary deems necessary to achieve the purposes of the Settlement.

Beneficiary Eligibility:

Private nonprofit institution/organization; Anyone/general public; State; Local; Federally Recognized Indian Tribal Governments; State, tribal, and local governmental agencies, private parties, and the general public

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact

assessment or environmental impact statement prior to the commencement of project activities. Federal, state, or local permits and approvals for the program may be required depending on the scope of the specific project funded. This may result in the need for the issuance of the required permits and approvals prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding announcements for this program, along with registration procedures, application packages and instructions, points of contact, and procedures for submitting applications will be available on www.grants.gov.

Award Procedure:

All applications will be initially screened by Bureau of Reclamation personnel for eligibility and compliance with the requirements stated in the program funding announcement. Applications passing this screening process will be forwarded for review by the issuing office. Qualified experts from the Bureau of Reclamation will review applications against the proposal evaluation criteria, and any additional review factors, as stated in the funding announcement. Final selection will be determined by the Commissioner, Bureau of Reclamation, or regional officials, as applicable to the project.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Varies depending on the type and complexity of the project. Further information will be available for each specific project at the time the funding opportunity announcement is posted on www.grants.gov and may be obtained by contacting the Bureau of Reclamation personnel listed as the point of contact in the funding announcement.

Appeals:

Other. None. Final award decisions are not subject to appeal; however, the Bureau of Reclamation will provide all applicants with information on why their proposals were not selected for award.

Renewals:

Other. Projects may generally be renewed on an annual basis, not to exceed a total of 5 years. If renewals or extensions are applicable to the project, this information will be included in the funding opportunity announcement. When renewals or extensions are applicable, continuation of funding for these activities is at the discretion of Congress and will be subject to availability of appropriated funds.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Projects undertaken under Section 10004 have no matching requirements. Projects undertaken under Section 10202 require a 50 percent share of the costs associated with planning, design, and environmental compliance activities associated with such a project and a 50 percent share of the costs associated with construction of any such project. For these projects, all operation, maintenance, and replacement and rehabilitation costs of such projects shall be the responsibility of the local agency. The Secretary shall not provide funding for any operation, maintenance, or replacement and rehabilitation costs of projects funded. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Varies depending on the type and complexity of the project. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Information not available. All of the project funded will work towards the implementation of the Stipulation of Settlement in NRDC, et al., v. Rodgers, et al., consistent with and as supplement by, the San Joaquin River Restoration Settlement Act. These projects will contribute towards meeting the Restoration and Water Management goals of the Settlement. The SJRRP focuses on restoring flows and fish, including Chinook salmon, to the San Joaquin River. These efforts will have wide reaching benefits, including: restoring riparian habitat to more than 30 miles of the San Joaquin River; restoring ecosystem function and aquatic, riparian, and upland species habitats along the river; improving river channel capacities and flood control operations; and reconnecting the upper San Joaquin River to the Sacramento-San Joaquin Delta. Beyond the scope of the Settlement, a restored river will enhance recreational access and opportunities for many communities along the river. Specific Program accomplishments include, but are not limited to the following: Successfully moved fall-run adults into the upper reaches of the San Joaquin River and documented successful fall-run spawning in the river. Successfully spawned spring-run Chinook salmon in the San Joaquin River. Completed the Restoration Flows Guidelines and began the Programs long-term flow releases, termed Restoration Flows. Completed various planning and design efforts in working towards implementing the Programs highest priority infrastructure projects to prepare for construction of Reach 2B projects in 2019. Continued flow releases since 2009 and worked to recapture and recirculate these release consistent with the Settlements Water Management Goal. Continued local groundwater banking project intended to reduce, avoid, or offset the water supply impacts to Friant Division long-term contractors. Continued implementation of comprehensive groundwater seepage management and monitoring program, including implementation of seepage management actions. Began repairs and isolation of a gravel pit at the Sycamore Island recreation area. Fiscal Year 2018: Information not available. Fiscal Year 2019: Information not available.

Public Law 111-11, Omnibus Public Land Management Act of 2009, Subtitle F, Secure Water, Section 9509.

OBJECTIVES:

The objective of the Desert and Southern Rockies LCCs is to enhance the management of natural and cultural resources that have a nexus to water resource management. This includes developing tools to assess and adapt to the impacts of climate change and other landscape scale stressors within the geographic boundaries of the Desert and Southern Rockies LCC and adapt to those stressors.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

ASSISTANCE LISTINGS DESCRIPTIONS

The Desert and Southern Rockies LCCs provide cost-shared financial assistance on a competitive basis for the following types of applied science projects: (1) assessing water availability and quality, (2) assessing the resiliency and vulnerability of natural or cultural resources to drought and other landscape scale stressors, and (3) assessing and evaluating natural or cultural resource management practices and opportunities to adapt. Eligible projects are restricted to within the geographic boundaries of the Desert or Southern Rockies LCCs. Occasionally, financial assistance is also used for inter-agency agreements to support capacity needs of the LCCs (e.g., meeting facilitation and/or website support).

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; State; Eligible applicants include any: States; Tribes; Irrigation districts; Water districts; Organizations with water or power delivery in the Western United States or Territories as identified in the Reclamation Act of June 17, as amended and supplemented; specifically, Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands; Universities located in the United States; Non-profit research institutions located in the United States; or Non-profit organizations (Non-profit organizations are eligible to apply for funding under all three task areas so long as the proposal addresses fish or wildlife habitat in wetland, riparian, or aquatic areas and there is a nexus to a Reclamation project.)

Beneficiary Eligibility:

U.S. Territories; Anyone/general public; State; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; The general public; agricultural, municipal and industrial water users; irrigation or water districts; state governmental entities with water or power delivery authority; tribes; non-profit research institutions; and non-profit organizations located in the states identified in the Act of June 17, 1902.

Credentials/Documentation:

(1) A detailed written technical proposal including background data regarding the applicant, such as location, a detailed scope of work separating the work into major tasks, detail the stages of the proposed project, include an estimated project schedule showing the stages and the duration of the proposed work, including major milestones and dates, and substantiate the method(s) selected, the principles or techniques which are proposed to solve the problem, and the degree of success expected, and describing data responsive to the evaluation criteria listed in the Announcement. (2) A funding plan showing how the applicant will pay for its 50% cost share requirement, and an official resolution adopted by the applicants board of directors or governing body, or for state government entities and universities, an official authorized to commit the applicant to the financial and legal obligations associated with receipt, resolving that, if selected, it will negotiate and execute a cooperative agreement with Reclamation. (3) A detailed project cost proposal, including a budget with the annual estimated project costs, including salaries and wages, fringe benefits, travel, equipment, supplies, contracts, and indirect costs, an estimate of annual operation & maintenance costs, and the value of in-kind contributions of goods and services. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Multiple Funding Opportunity Announcements (Announcement) are annually posted on www.grants.gov. Submission of a complete technical proposal and projects budget is mandatory by the due date identified in the Announcement. In addition, applicants must submit all applicable SF 424 forms referenced in the Announcement.

Award Procedure:

Proposals received in response to the Announcement are reviewed on the basis of a

competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the Announcement. Reclamation will make awards to the highest rated proposals based on the amount of funding available each year.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

15.565 Implementation of the Taos Pueblo Indian water rights settlement

FEDERAL AGENCY:

BUREAU OF RECLAMATION, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Taos Pueblo Indian Water Rights Settlement Act, Title V of Pub. L. 111-291 (Settlement Act)

OBJECTIVES:

The Claims Resolution Act of 2010 was signed into law on December 8, 2010, authorizing the settlement of two long-running New Mexico Indian water rights cases. Title V, the Taos Pueblo Indian Water Rights Settlement Act, authorizes implementation of the Abeyta (Taos Pueblo) settlement. The Settlement Act authorizes and directs the Bureau of Reclamation to provide financial assistance in the form of grants on a non-reimbursable basis to plan, permit, design, engineer, and construct Mutual-Benefit Projects that will minimize adverse effects on the Pueblos water resources by moving future non-Indian ground water pumping away

ASSISTANCE LISTINGS DESCRIPTIONS

from the Pueblos Buffalo Pasture, a culturally sensitive wetland. The Federal Team is working with the Mutual-Benefit Project parties as they get ready for the on-the-ground phase of settlement implementation. Reclamations Albuquerque Area Office is in the process of completing environmental compliance and awarding grants to the entities that are moving forward with their projects. The overall cost of the settlement is \$144 million, of which \$124 million would be paid by the Federal government and \$20 million by the State of New Mexico. The total federal contribution of \$124 million includes \$88.0 million directed to the Bureau of Indian Affairs for the Taos Pueblo Water Development Fund, and a \$36 million settlement fund (\$16 million mandatory and \$20 million discretionary funds) directed to Reclamation for the Mutual-Benefit Projects.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Section 507 of the Settlement Act provides that the financial assistance will be used to plan, permit, design, engineer, and construct the Mutual-Benefit Projects in accordance with the Settlement Agreement. Project grants (cooperative agreements) will be provided to the eligible non-Pueblo entities for the Mutual-Benefit Projects, as specified in the section 507(a) of the Settlement Act. The up to amount of financial assistance for each of the Mutual-Benefit Projects will be in accordance with the limitations specified in the Settlement Agreement.

Applicant Eligibility:

Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Only the eligible non-Pueblo entities identified in section 503(1) of the Settlement Act are eligible to receive financial assistance.

Beneficiary Eligibility:

Native American Organizations; Only the eligible non-Pueblo entities identified in section 503(1) are eligible to receive financial assistance.

Credentials/Documentation:

All of the eligible non-Pueblo entities are political subdivisions of the State of New Mexico, as provided in the Settlement Agreement. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Section 509(e)(2) of the Settlement Act requires Reclamation to comply with each law of the federal government relating to the protection of the environment. The Mutual-Benefit Projects will require an environmental impact assessment, which will be completed before an eligible non-Pueblo may begin implementation of an assisted activity that requires environmental or other regulatory compliance approval. An environmental impact statement is required for this program. An environmental impact assessment is required for this program.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The award of the financial assistance is mandatory. See section 507(a) of the Settlement Act. Reclamation will conduct a workshop to inform and educate the eligible non-Pueblo entities about the procedures for entering into financial assistance agreements and the responsibilities of the parties. Section 509(d) authorizes the Secretary, acting through Reclamation, to enter into such agreements and to take such measures as the Secretary may deem necessary or appropriate to fulfill the intent of the Settlement Agreement and Settlement Act.

Award Procedure:

Reclamation will follow normal award procedures to provide mandatory financial assistance.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Other. Varies depending on the type and complexity of the project. Further information will be available for each of the eligible non-Pueblo entities, as specified in the assistance agreement.

Appeals:

Other. None. Final award decisions are not subject to appeal; however, the Bureau of Reclamation will provide all eligible non-Pueblo entities with information about why their proposals were not selected for award.

Renewals:

Other. Projects may generally be renewed on an annual basis, not to exceed a total of 5 years. If renewals or extensions are applicable to the project, this information will be included in the financial assistance agreement. When renewals or extensions are applicable, continuation of funding for these activities is subject to the availability of the appropriations authorized in section 509(c)(2) of the Settlement Act.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: The first grant for \$4M was awarded in FY17, and at least one more grant should be awarded early in FY18. There are questions that will need to be resolved about who would own and operate certain projects before some of the Mutual-Benefit Project entities will be ready to apply for their grants, as a few have indicated that they are not interested in applying for funding or constructing their project. Additionally, the Federal Team was informed in October 2017 that some project locations may need to be reassessed due to hydrogeologic concerns. The parties will have to work together to resolve these issues. In the meantime, the Federal Team will continue to support efforts to move forward with settlement implementation, and Reclamation will continue to award grants as project entities apply for their funding. EXAMPLES OF FUNDED PROJECTS:

2018 Program has not yet selected projects for funding. Program anticipates funding projects that increase sport fishing and boating opportunities through wise investment of excise tax dollars in sport fishery development, research, and management projects. 2017 Californias Clean Vessel Act Program created Pumpout Nav - a revolutionary new app that allows boaters to find operational pumpout stations, flag non-working units, and access an array of outreach and education material. It is a tool states can use to monitor pumpout stations and report their findings. Although Pumpout Nav will begin with just information for marinas in California, it is being created with the intent to expand to other States. Californias vision is to make Pumpout Nav a national resource to help boaters find pumpout and floating restroom facilities in all parts of the U.S. Floridas Fish and Wildlife Conservation Commission used Sport Fish Restoration funds to research the life history, population dynamics, ecology, and behavior of recreationally important coastal and estuarine fishes in Florida including snook, red drum, and red snapper. This project builds upon research results from previous project years and expands the knowledge needed to support stock assessments and needed fisheries management actions. Idaho Department of Fish and Game (IDFG) used Sport Fish Restoration and Boating Access Funds to construct Deyo Reservoir, in Clearwater County, in north central Idaho. Nestled amid farms and timber, the 55 acre reservoir is part of 100 acres of land donated to IDFG by landowners with a vision of the area being used for recreational fishing. A 20+ year project from conception to completion, this community-driven project included several local service organizations and many individuals contributed to its success. In addition to Sport Fish Restoration and Boating Access Funds, over \$1 million dollars of non-federal funds were secured by IDFG and the community to ensure completion. For over 50 years the area was a sawmill and logging operation. Now, it is a destination for anglers, boaters and other outdoor recreationists. IDFG stocks the reservoir with rainbow trout throughout the year, and its estimated the reservoir received approximately 6,000 angler trips annually. In cooperation with the IDFG, local community based organizations help manage the site. A maintained trail surrounding the entire reservoir features seven fishing docks and two large fishing peninsulas. There is also a boat ramp, modern and primitive camping opportunities, picnic shelters and restrooms. Nevadas Department of Wildlife partnered with the Nevada State Parks Department to use Boating Access monies to return the lagoon at Big Bend on the Colorado River to a boaters mecca. Boaters have long launched/landed motorboats, wet bikes, and jet skis from the beach, as the backwater lagoon had filled in with sediment. The launching beach had also eroded. The beach was reinforced, and sand was dredged back out of the lagoon to re-nourish the beach area. Amenities were added for boaters, including accessible walkways and shade structures. Equipment acquired by the project will help Nevada State Parks continually harvest and clean sand that can be re-used to nourish the landing beach, making access easier and safer for boats and boaters. New Hampshires Fish and Game Department (NHFG) used Sport Fish Restoration monies to fund their aquatic resources education program. The New Hampshire Fish and Game Department delivered 60 Lets Go Fishing courses (ice fishing, fly tying, kayak fishing, fly fishing and basic fishing) to schools, parks and recreation Departments, Scout groups, 4H, and Becoming an Outdoors-Woman program with nearly 2000 participants. In 2013, bass fishing became an official high school sport in New Hampshire and is supported by NHFG, along with New Hampshire B.A.S.S. Nation, New Hampshire Bass Federation and Bass Pro Shops. Sport Fish Restoration funds continue to provide funding to educate children in New Hampshire schools about fishing and aquatic resources, and to teach families to fish and enjoy the outdoors. Texass Parks and Wildlife Department partnered with

Texas Tech University, Texas State University, University of Texas, and private land owners on the Conserving Texas Rivers Initiative. Sport fishing opportunities for Guadalupe Bass and associated economic benefits to local communities of the Hill Country are dependent upon quality fish habitats in the regions rivers. To support landscape-scale restoration and protection of fish habitats in Hill Country rivers, TPWD initiated this 10-year conservation project (2010-2020). The Initiative is a public-private partnership that is successfully leveraging Sport Fish Restoration funds, private donations, and other project-based funding sources to deliver science-based, scale-appropriate, and transformative conservation actions to benefit Hill Country rivers. The Initiative is designed to provide technical guidance, tools, and resources to build and sustain long-term capacity among local conservation partners (particularly local watershed alliances, private landowners, and fly fishing clubs) to steward Hill Country rivers. The Initiative is guided by a 10-year business plan that identifies specific habitat degradation issues, related conservation strategies, objectives, planned outcomes, and related funding needs. In 2016, this project was awarded the Sport Fishery Development and Management Outstanding Sport Fish Restoration Project of the Year by the American Fisheries Society. West Virginias Division of Natural Resources (WV DNR) Wildlife Resources Section used Sport Fish Restoration funds to raise and stock approximately 3 million sport fish per year, as well as operate and maintain 11 fish hatcheries. Some sport fish species are not able to naturally sustain adequate populations to meet angler expectations; stocking allows the state to provide excellent recreational fishing opportunities. Rainbow trout, brook trout, brown trout, muskellunge, walleye, striped bass, largemouth bass, channel catfish, and blue catfish are stocked into more than 150 water bodies annually. This work will benefit anglers through increased sport fish populations, support local economies via anglers spending, and provide societal benefits through a healthy environment and increased outdoor recreation opportunities Wisconsin Department of Natural Resources (WI DNR) used Sport Fish Restoration funds to expand fishing opportunities and foster economic stability in Wisconsin Ceded Territory. Between 1991-2014 walleye bag limits for anglers in this area were regulated with a sliding bag limit system (bag limits were adjusted twice annually - normally a few days before the opening of the walleye season) based upon tribal harvest declarations and actual harvest. This caused uncertainty within the angling and business communities. Monitoring of Ceded Territory walleye populations continue to provide WI DNR with enough data to review the management system, and explore alternative harvest management options and models for sustainably managing joint angler and tribal walleye fisheries. In 2014, a revised model was developed for determining the allocation of the walleye that allowed for a static bag limit for sport anglers, and increased the number of walleye available for tribal harvest, while preserving the long-term sustainability of both the angling and tribal fisheries. In 2015-2016, this work resulted in adoption of a 3-bag limit rule for sport anglers, replacing the former sliding bag limit and periodic adjustment system. The response from anglers and businesses was very positive, and has eased concerns of resort owners and fishing guides. WI DNR continues to monitor the health of the walleye populations in the Ceded Territory with continuing support from the Sportfish Restoration Program. 2019 Program has not yet selected projects for funding. Program anticipates funding projects that increase sport fishing and boating opportunities through wise investment of excise tax dollars in sport fishery development, research, and management projects.

CRITERIA FOR SELECTING PROPOSALS:

ASSISTANCE LISTINGS DESCRIPTIONS

Prevention and Control Act, 16 U.S.C. 4701-4741; and Lacey Act, 16 U.S.C. 3376(b).

OBJECTIVES:

To provide technical and financial assistance to other federal agencies, states, local governments, native American tribes, non-governmental organizations, citizen groups, and land owners on the conservation and management of fish and wildlife resources, including minimizing the establishment, spread, and impact of aquatic invasive species. This includes co-management of marine mammals by Alaskan natives for subsistence use.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds may be used to conduct fish and wildlife management activities that align with the conservation, restoration, and management goals and priorities of the Fish and Wildlife Conservation Offices. This includes goals and priorities identified by the National Fish Passage Program (NFPP), the individual partnerships under the National Fish Habitat Partnership (NFHP), and work conducted under the Strategic Plan. Restoration work can consist of habitat construction activities such as culvert replacements, dam removals, fish way construction, installation of fish habitat structures and vegetation plantings. Examples of funded activities include habitat restoration (stream improvements or deconstruction of barriers to increase quality of aquatic habitats), monitoring and assessment, removal of barriers to passage, fish propagation, and aquatic plant establishment. This also includes efforts to minimize the establishment, spread, and impact of aquatic invasive species, including those efforts conducted under the auspices of the State/Interstate Aquatic Nuisance Species (ANS) Management Plan Grant Program. Technical assistance in the form of advice on biological, chemical, and/or physical aspects of a project is also available to awardees. Awardees are expected to include a public outreach component in their project. Applicants applying for State/Interstate ANS Management Plan funds must be a State or Interstate organization with an ANS Task Force approved plan.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Applicants may be other federal agencies, state agencies, local governments, native American organizations, interstate, intrastate, public nonprofit institution/organization, other public institution/organization, nonprofit/organization, private landowners, or any other organization subject to the jurisdiction of the United States with interests that support the mission of the U.S. Fish and Wildlife Service on a cost recoverable basis. Applicants applying for State/Interstate ANS Management Plan funds must be a State or Interstate organization with an ANS Task Force approved plan.

Beneficiary Eligibility:

Federal; Private nonprofit institution/organization; American Indian; State; Local; Public nonprofit institution/organization; Federal agencies, state agencies, local governments, Native Americans, Interstate, Intrastate, public nonprofit institution/organization, other public institution/organization, private nonprofit/organization, or any other organization subject to the jurisdiction of the United States with interests that support the mission of the Service on a cost recoverable basis.

Credentials/Documentation:

There must be factual evidence of the need for management assistance. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Applicants must have (or obtain) a DUNS number and EIN/TIN to apply for funding. If a proposed project will cause a significant environmental impact, then an environmental impact statement should be prepared and provided with the application. Applicants must provide documentation detailing the findings of an environmental impact assessment for sites where proposed habitat improvements will occur as part of the application

process for NFHP funding.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. An approved State ANS Management Plan is needed for the State ANS Management Plan Grant program. See www.Grants.gov for additional information and application procedures. To apply for NFHP funds, applicants must contact the appropriate Fish Habitat Partnership or visit www.Grants.gov for application procedures and requirements.

Award Procedure:

After considering program commitments and obligations, grant or cooperative agreement recipients will generally be informed by electronic correspondence via email.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. National Fish Passage Program projects are identified throughout the year. Projects are to be submitted through the regions. Awards are approved annually. 15.611 Wildlife Restoration and Basic Hunter Education

(Pittman-Robertson Wildlife Restoration Program),

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Pittman-Robertson Wildlife Restoration Act, 16 U.S.C. 669 et seq.

OBJECTIVES:

The Act provides grants to State, Commonwealth, and territorial fish and wildlife agencies for projects to restore, conserve, manage, and enhance wild birds and mammals and their habitat. Projects also include providing public use and access to wildlife resources; hunter education and safety; and the development and management of shooting ranges.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Approved activities include selection, restoration, rehabilitation, and improvement of wildlife habitat; wildlife management research; wildlife population surveys and inventories; land acquisition; coordination; development of facilities; facilities and services for conducting hunter safety. Law enforcement and public relations are not eligible under the Act.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Agencies from the 50 States, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and the territories of Guam, the U.S. Virgin Islands, and American Samoa with primary responsibility for fish and wildlife conservation may submit grant proposals to the Fish and Wildlife Service. To be eligible, they must pass assent legislation to the provisions of the Act for conservation of wildlife that includes a prohibition against the diversion of license fees paid by hunters for any other purpose than the administration of the fish and wildlife agency.

Beneficiary Eligibility:

State; General Public (While direct participation is limited to fish and wildlife agencies, the general public will ultimately benefit from these wildlife conservation measures.)

Credentials/Documentation:

Each year within 60 days of the apportionment notice, States, Commonwealths, and territories must notify the Secretary of the Interior that they want to participate in the program for the year. The State, Commonwealth, or territorial fish and wildlife Director must furnish a certification of the number of paid hunter license holders. Allocable costs are determined in accordance with 2 CFR 200. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

ASSISTANCE LISTINGS DESCRIPTIONS

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An applicant should consult the office or official designated as the single point of contact in his or her State, the District of Columbia, Commonwealth, or territory for more information on this process when applying for assistance if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

The Regional Director of the Fish and Wildlife Service or his designee approves or disapproves proposed grants. Regional Offices are responsible for notification of grant approval to the grantee.

Deadlines:

July 01, 2018. July 1, 2018 Annually by July 1. Check with your Regional Service Office to determine any Regionally specific deadlines.

Range of Approval/Disapproval Time:

Other. Average 30 days.

Appeals:

Other. Regional Directors will consider differences of opinion concerning the eligibility of proposals. Final determination rests with the Director of the Fish and Wildlife Service.

Renewals:

Other. Grantees may renew projects on an annual basis if justifiable and if funds are available.

Formula and Matching Requirements:

Statutory Formula: Public Law 16 U.S.C. 669b. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Yes. Grant funds may be disbursed to States for up to 75 percent of the total cost of a project. Grant funds may be disbursed from 75 to 100 percent of the total project costs to the Commonwealths of Puerto Rico, Northern Mariana Islands and the territories of Guam, the U.S. Virgin Islands, and American Samoa. Each Regional Director decides on the specific Federal share between 75 and 100 percent based on what he or she decides is fair, just, and equitable. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Apportioned funds are available for obligation for a period of two years. Balances remaining unobligated after the period of availability revert to the U.S. Fish and Wildlife Service. Any funds not obligated within two years by a State, Commonwealth, or territorial fish and wildlife agency revert to the U.S. Fish and Wildlife Service and will be spent under the provision of the Migratory Bird Conservation Act. In addition, under the provisions of the Wildlife Restoration Act, the interest accumulated by Wildlife Restoration account is available to the North American Wetland Conservation program. Funds are disbursed to recipients as requested and in accordance with the payment methods prescribed in 2 CFR 200, or as otherwise prescribed in program-specific legislation. Method of awarding/releasing assistance: other

Reports:

Recipients must submit a final performance report no later than 90 calendar days after the award end date. Recipients of awards with performance periods longer than 12 months will be required to submit annual interim reports. Program will detail all performance reporting requirements, including frequency and due dates, in the notice of award letter. Recipients must report expenditures using the SF 425, Federal Financial Report form. Recipients must submit a final report no later than 90 calendar days after the award end date. Recipients of awards with performance periods longer than 12 months will be required to submit annual interim reports. Program will detail all financial reporting requirements, including frequency and due dates, in the notice of award letter. A Federal Financial Report SF 425 is required for each grant award annually within 90 days after the anniversary date and/or end of the grant. Recipients are responsible for monitoring and reporting

performance each award and sub-award under this program in accordance with 2 CFR 200 and 2 CFR Part 170.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Cost records must be maintained separately for each grant. Records, accounts and supporting documents must be retained for three years after submission of the Federal Financial Report (SF 425).

EXAMPLES OF FUNDED PROJECTS:

2019 The Program has not selected projects for funding. 2018 The Program has not selected projects for funding. The Program anticipates funding projects to restore, conserve, manage and enhance wild birds and mammals and their habitats and to provide hunter development and safety programs. 2017 FY17: Idaho Department of Fish and Game (IDFG) is researching the population drivers of pronghorn in various habitat types including natural shrub-steppe, altered shrub-steppe, and agricultural communities. This project will evaluate factors affecting pronghorn herds in eastern Idaho, and develop a reliable, cost-effective technique for monitoring status and trend of pronghorn herds in Idaho. Pronghorn will be captured, fitted with radio collars, have their body condition assessed, and be monitored with telemetry. Habitat quality, nutritional condition of vegetation, neonatal survival and cause specific mortality will be assessed. Monitoring methods will focus on the vital rates deemed most likely to influence populations. This information is necessary for conservation and management decisions, including hunting seasons, habitat improvement efforts, and technical assistance to public and private landowners. Oregon has a Statewide Habitat Management grant that covers habitat restoration efforts in seven distinct Watershed Districts (Deschutes, John Day, Malheur, Klamath, Rogue, South Willamette, and Umpqua). Goals of the project are to (1) maintain, restore, or enhance wildlife habitat on public and private lands to optimize wildlife populations, while paying particular attention to listed species; (2) evaluate, protect, or enhance existing habitat conditions or restore lost habitats on private and public lands; (3) assist landowners by providing resources to restore and improve fish and wildlife habitat; and (4) provide technical advice and assistance to local, State, and Federal agencies regarding land-use activities and proposed developments to promote conservation of fish and wildlife habitats. The areas managed under this grant are designed to provide year-round habitat for wildlife species and to reduce and/or minimize agricultural damage and depredation to surrounding communities by wildlife. By coordinating with agencies and private landowners to implement and administer the proposed activities, the general public can benefit from healthier habitats for many species. The Indiana Department of Natural Resources, in partnership with Hamilton County Parks and Recreation Department, recently completed construction of the Koteewi Park Archery Range. The facility includes beginner archery ranges with 10-25 yard targets, advanced archer ranges with up to 90 meter targets, practice shooter ranges, and a 3-D target shooting trail. The facility provides a safe environment to learn about archery, shooting sports, and bow hunting that serves the local, regional, and national communities. This range is one example of many ranges that have been constructed throughout the country with Wildlife Restoration funds. The Arkansas Game and Fish Commission (AGFC) is renovating 11 Wildlife Management Areas to benefit waterfowl. In addition to replacing and upgrading pumps and pipeline for increased water management ability, AGFC is also establishing three new moist-soil units and expanding or renovating at least 20 more. More than 1,300 acres of waterfowl habitat will be created or improved and the ability to control water levels greatly enhanced on thousands of additional acres. FY17: Californias Department of Fish and Wildlife (CDFW) used \$245,016 of Wildlife Restoration funds to implement a four-year project to help establish a mountain lion conservation and assessment program. Hunters have expressed concern that the mountain lion population is increasing and impacting deer herds by high rates of predation. Conversely, other groups have suggested other factors (e.g. habitat loss and degradation, vehicle strikes, habitat fragmentation, depredation take, etc.) are likely causing the states mountain lion population and genetic diversity to decline to a point that would threaten the populations viability. The establishment of a comprehensive mountain lion program will allow CDFW the ability to identify, verify, and/or address these concerns in a well-coordinated manner. Colorados Parks and Wildlife initiated

large-scale research project to evaluate the states moose herd. Moose were captured in three different study areas in Colorado along the Laramie River (Northeast Colorado), the southern portion of North Park and in the Williams Fork drainage (Northwest Colorado), and near Creede and the Rio Grande Reservoir (Southwest Colorado). Each captured moose was evaluated to document health and reproductive status, and fitted with a satellite GPS collar to track their movements. Results from this study will provide valuable information for managing moose herds across the State. Idahos Department of Fish and Game (IDFG) constructed a new 4,000 square foot Wildlife Health and Genetics Lab, replacing a 50-plus year old dilapidated, leased facility. The new building includes office space, a multi-purpose conference/training room, genetics lab, wet lab, and state-of-the-art necropsy lab. The Wildlife Health Program provides leadership for surveillance and management of wildlife diseases in Idaho, particularly those that can affect humans or livestock. The new lab was constructed on IDFG property adjacent to the Fisheries Health Lab and Fisheries genetics building, providing increased opportunity for greater collaborative efforts and increased administrative efficiencies. The \$1.8 million dollar project was primarily funded with Wildlife Restoration funds plus match provided by Idaho sportsmen through license and tag fees, along with an important contribution from the State Permanent Building Fund. Floridas Fish and Wildlife Conservation Commission is building the Palm Beach County Shooting Park with Hunter Educations funds. The surrounding area has some of the highest demand for hunter safety courses in the state. Also, the J.W. Corbett Wildlife Management Area is located west of the shooting sports complex, and has no place for hunters to sight-in their rifles or practice shotgun shooting. The first phase of construction will include the rifle and pistol ranges. The second phase will include sporting clays ranges, trap and skeet fields, and supporting structures. This shooting education complex will offer hunter education classes. Partners on this project include the National Rifle Association, Palm Beach County, Fish and Wildlife Foundation of Florida, and South Florida Water Management District. Montanas Fish Wildlife and Parks used over \$1 million of Wildlife Restoration funds to purchase 320 acres of prime riparian corridor habitat adjacent to the Fish Creek Wildlife Management Area in Northwest Montana. The land purchase d 1.19 linear miles of stream habitat and associated wetlands from three distinct watersheds; Bear Creek, Trail Creek, and Winkler Gulch. This habitat serves as a crucial connectivity corridor for game, as well as non-game wildlife species. This purchase will provide high-quality access and recreational opportunities for anglers, hunters, and outdoor recreationists in Montana. In Nevada, thousands of big game and other wildlife are killed each year by motorists on busy sections of highways and interstates that intersect critical habitats for wildlife. Not only do these wildlife vehicle collisions pose a significant impact to wildlife populations, they jeopardize human safety. The Nevada Department of Wildlife used Wildlife Restoration funds, in collaboration with the Nevada Department of Transportation, to build and monitor the effectiveness of a first-ever wildlife overpass project along Highway 93 in Elko County. Other studies have shown that these structures were immediately used by migrating mule deer, and there was a greater use by the overpass than a comparable underpass. Most importantly, monitoring has shown these types of structures succeeded in removing a large number of mule deer from the roadway, making the highway safer for wildlife and motorists. North Dakotas Game and Fish Department used Wildlife Restoration funds to do a comprehensive assessment of oil and gas development on mule deer populations in western North Dakota. A primary concern with increased oil and gas development is the potential loss of important wildlife habitat along with indirect effects (such as traffic and noise) that might reduce suitability of an area. Ungulates are particularly sensitive to human disturbances, but responses are variable among species and populations. This study will identify of mitigation measures intended to reduce and avoid impacts to mule deer populations, and model the effects of oil and gas development on population dynamics of mule deer populations in western North Dakota. Wisconsin Department of Natural Resources (WDNR) used Wildlife Restoration funds for The Southwest Wisconsin Chronic Wasting Disease (CWD), Deer, and Predator Study - the largest and most comprehensive deer research project ever undertaken in Wisconsin. The goal of this five-year study is to examine factors that could impact deer survival and deer population growth in southern Wisconsin including CWD, predation, habitat suitability, and hunter harvest. Simultaneous studies will take place in areas with differing rates of CWD infection, which will help WI DNR better understand how CWD may, or may not, be interacting with other factors that impact the deer herd. Uniquely, this study will directly estimate the abundance and distribution of deer predators (bobcats and coyotes) within the study areas, and examine their

ASSISTANCE LISTINGS DESCRIPTIONS

impact on deer survival and behavior. Over 113 landowners have agreed to assist with this research, allowing access to their land for trapping and tracking. Understanding factors that impact deer and deer populations is a high priority among deer hunters, county deer advisory councils, and wildlife managers in Wisconsin. This project helps build trust with local communities and hunters, and ensures hunters can utilize our natural resources.

CRITERIA FOR SELECTING PROPOSALS:

The State, Commonwealth, or territorial agency having lead responsibility for the management of their wildlife resources must submit the projects. The State, Commonwealth, or territorial agency selects those projects submitted for funding under the program. If approved, projects must meet the basic criteria outlined in the regulations and the Fish and Wildlife Service Manual.

15.614 Coastal Wetlands Planning, Protection and Restoration

National Coastal Wetlands Grants,

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Coastal Wetlands Planning, Protection and Restoration Act, 16 U.S.C. 3951-3957.

OBJECTIVES:

To provide competitive matching grants to coastal States for coastal wetlands conservation projects. The Coastal Wetlands Planning, Protection, and Restoration Act (Section 305, Title III, Public Law 101-646 U.S.C. 3954) established the National Coastal Wetlands Conservation Grant Program to acquire, restore, and enhance wetlands in coastal States.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds are available to coastal States for acquisition of interests in coastal lands or waters, and for restoration, enhancement or management of coastal wetlands ecosystems.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Eligible applicants include any agency or agencies designated by the Governor of a coastal State. It is usually a State natural resource or fish and wildlife agency. Eligible coastal States are States bordering the Great Lakes (Illinois, Michigan, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin); States bordering the Atlantic, Gulf (except Louisiana), and Pacific coasts (Alabama, Alaska, California, Connecticut, Delaware, Florida, Georgia, Hawaii, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Oregon, Rhode Island, South Carolina, Texas, Virginia, and Washington); and American Samoa, Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, and the Virgin Islands.

Beneficiary Eligibility:

U.S. Territories; State; States, Commonwealths, or territories as designated in the applicant eligibility section.

Credentials/Documentation:

No credentials or documentation are required. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit

Requirements for Federal Awards applies to this program.

Award Procedure:

The Director of the Fish and Wildlife Service will select projects to be funded based on established criteria.

Deadlines:

July 29, 2017. The Fiscal Year 2019 application deadline is 11:50 PM (PDT) on June 29, 2018.

Range of Approval/Disapproval Time:

Other. Approximately 150 days.

Appeals:

Other. Regional Directors will consider differences of opinion concerning the eligibility of proposals. Final determination rests with the Director of the U.S. Fish and Wildlife Service.

Renewals:

Other. Applications for successive project phases are competed as new project applications

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. States with a dedicated fund for land conservation are required to provide a minimum cost share equal to 25 percent of the grant request. All other States are required to provide a 50 percent cost share. We waive the first \$200,000 of match for the following insular areas: American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Program obligates funds and sends a notice of award to successful applicants. Recipients request funds in accordance with 2 CFR 200, Subpart E-Cost Principles, unless otherwise dictated by program-specific legislation or special award terms. Method of awarding/releasing assistance: other

Reports:

Recipients must submit a final performance report no later than 90 calendar days after the award end date. Recipients of awards with performance periods longer than 12 months will be required to submit interim reports. Program may require recipients to submit interim reports annually, semiannually, or quarterly. Program will detail all performance reporting requirements, including frequency and due dates, in the notice of award letter. Recipients must report expenditures using the SF 425, Federal Financial Report form. Recipients must submit a final report no later than 90 calendar days after the award end date. Recipients of awards with performance periods longer than 12 months will be required to submit interim reports. Program may require recipients to submit interim reports annually, semiannually, or quarterly. Program will detail all financial reporting requirements, including frequency and due dates, in the notice of award letter. Recipients are responsible for monitoring performance for each award and sub-award under this program in accordance with 2 CFR 200.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, they are subject to Program specific audits contracted by the Fish and Wildlife Service.

Records:

Cost records must be maintained separately for each project. Grantees must retain records, accounts, and supporting documents for three years after submission of final request for reimbursement.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: The program received 25 applications from 11 coastal States. Of these, 20 projects from 10 states were funded with \$17.4 million federal share and \$20.3 million in non-federal share. The projects cumulatively protect, restore or enhance more than 13,000 acres of important coastal wetland habitat, including several miles of shoreline. Conservation of this habitat not only benefits coastal-dependent federal trust species, but also enhances flood protection and water quality, and provides economic and recreational benefits to commercial fishermen and anglers. The program received 25 applications and issued 20 awards. Fiscal Year 2018: The program received 29 applications and issued 22 awards. Fiscal Year 2019: The program anticipates receiving 30 applications and issuing 22 awards.

2017 Grays Harbor, WA -The Washington State Department of Ecology, partnering with Ducks Unlimited, was awarded \$1 million to acquire 1,750 acres of diverse and threatened habitats, including wetlands in Grays Harbor County, Washington. The project site is located within close proximity to protected areas, including Grays Harbor National Wildlife Refuge. Multiple fish and bird species that use watershed along with elk, deer, black bear and river otters will benefit from the protection.Red Banks Alvar State Natural Area, WI - The Wisconsin Department of Natural Resources was awarded \$152,496 to help acquire and protect 140 acres on the Red Banks Alvar State Natural Area located adjacent to the Bay of Green Bay in Brown County, Wisconsin. The property is dominated by palustrine emergent, scrub/shrub and forested wetlands that provide important habitat for the threatened dwarf lake iris as well as migratory and breeding birds and other wildlife. Lower Altamaha River watershed, GA - The Georgia Department of Natural Resources (GA DNR) was awarded \$1 million to acquire

and protect approximately 2,091 acres of diverse habitat known as Sansavilla Phase 4. This tract is part of a long-term initiative by GA DNR, The Conservation Fund, The Nature Conservancy and the U.S. Marine Corps, to conserve priority habitats in the lower Altamaha River watershed. More than 100 rare plants and animals occur within the tidal wetlands and adjacent uplands; of these 15 are federally listed as threatened or endangered, and 17 are state listed and are considered globally rare or imperiled. 2018 Kanaha Pond Wildlife Sanctuary - The Hawaii Department of Land and Natural Resources (DLNR) is proposing to restore 240 acres of coastal wetlands by removing introduced predators and re-planting habitat within the Kanaha Pond State Wildlife Sanctuary on the island of Maui. DLNR will restore the area by building a predator-proof fence around the sanctuary, removing predators inside the fence, and replanting areas with native Hawaiian wetland plants. Follets Island Conservation Initiative The Texas Parks and Wildlife Department is proposing to provide long-term protection for 148.8 acres of coastal and estuarine barrier island habitats including vegetated and non-vegetated estuarine intertidal marsh, estuarine shallow open water, a small amount of palustrine marsh, coastal prairie, dune (natural and restored) and intertidal beach habitats. Texas coastal wetlands are highly productive biologically and serve as nursery grounds for over 95% of the recreational and commercial fish species found in the Gulf of Mexico. Iliamna Islands Conservation Easements - The Alaska Department of Natural Resources, in partnership with the Conservation Fund and the Bristol Bay Heritage Land Trust, is proposing to complete the purchase of two conservation easements in northeast Lake Iliamna, in Southwest Alaska. The easements protect a total of 13,876 acres of wetlands habitat in Lake Iliamna, covering 173 total islands with 283 miles of shoreline. 2019 Program has not yet selected projects for funding. Program anticipates funding projects for acquisition of interests in coastal lands or waters, and for restoration, enhancement or management of coastal wetlands ecosystems.

CRITERIA FOR SELECTING PROPOSALS:

Applications are scored and then ranked based on criteria published in 50 CFR 84.32. See the Notice of Funding Opportunity (NOFO), and Attachment A to this NOFO for more information on ranking criteria. The NOFO is available at www.Grants.gov.

15.615 Cooperative Endangered Species Conservation Fund

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Endangered Species Act, 16 U.S.C. 1531 et seq.; and Land and Water Conservation Fund Act, 54 U.S.C. 200302 et seq., 16 U.S.C. 4601(el)-4 to 4601(el)-11 (prior to 2015)

OBJECTIVES:

To provide Federal financial assistance to any State or Territory (hereafter, "States"), through its appropriate State or territorial agency, to assist in the development of programs for the conservation of endangered and threatened species.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The assistance provided to the State fish and wildlife agency can include animal, plant, and habitat surveys; research; planning; monitoring; habitat protection, restoration, management, and acquisition; and public education. Assistance is restricted to those State agencies with which the Fish and Wildlife Service has a current cooperative agreement for the species involved.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Participation limited to State agencies that have a cooperative agreement with the Secretary of the Interior. The annual Notice of Funding Opportunity (NOFO), announced through www.grants.gov and posted to the U.S. Fish and Wildlife Service Web site at

ASSISTANCE LISTINGS DESCRIPTIONS

<http://www.fws.gov/endangered/grants/index.html>, describes the criteria that must be satisfied for an application to be eligible for funding.

Appeals:

Other. Decisions can be appealed to the U.S. Fish and Wildlife Service, Chief, Ecological Services Division of Recovery and Restoration. Final determination rests with the Secretary of the Interior.

Renewals:

Other. Renewals can be made through submission of a project proposal and approval of a grant award document.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. States may receive up to 75 percent of the program costs. When two or more States have a common interest in one or more endangered or threatened species and enter into a joint agreement, the Federal share of the total project cost may be increased to 90 percent. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

So much of the annual appropriation allocated for obligation to any State for any fiscal year as remains unobligated at the close thereof is authorized to be made available to that State until the close of the succeeding fiscal year. Any amount allocated to any State which is unobligated at the end of the period during which it is available for expenditure is authorized to be made available for expenditure by the Secretary for conducting programs authorized by Section 6 of the Endangered

Species Act. Method of awarding/releasing assistance: other

Reports:

Annual interim reports are due 90 calendar days after the end of each four full quarters based on fiscal quarters (March 31, June 30, September 30, December 31). The final report is due 90 calendar days after the grant ending date. A performance report is required for each project segment within 90 days following the close of the segment. The Federal Financial Report, SF 425 is required. Recipients are responsible for monitoring and reporting performance each award and sub-award under this program in accordance with 2 CFR 200 and 2 CFR Part 170.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Assuming the average grant awards remain consistent with FY16 levels, we anticipate making 10 awards through the Habitat Conservation Planning Assistance program, 10 awards through the HCP Land Acquisition program, 18 awards through the Recovery Land Acquisition program, and providing funding to 53 states and territories through the Traditional Conservation Grants program. FY 2017 grant awards have not yet been announced. However, the Service awarded approximately \$44.8 million in fiscal year 2016 to Nontraditional Program projects through the CESC. Of that amount, approximately \$5.8 million was awarded through the Habitat Conservation Planning Assistance program to fully and partially fund 7 out of 8 eligible proposals from 8 States. Approximately \$22 million fully funded 11 out of 11 eligible proposals through the HCP Land Acquisition program. The Recovery Land Acquisition program awarded approximately \$17.2 million in funding to 24 projects in 19 States. Information on the fiscal year 2016 grant awards can be found at:

[ProjectDescriptions.pdf](https://www.fws.gov/endangered/grants/pdf/FY16.CESCF-ProjectDescriptions.pdf) An additional \$10.5 million was awarded to 53 states and territories through the Traditional Conservation grants program. Fiscal Year 2018: Assuming the average grant awards remain consistent with FY16 levels, we anticipate making 6 awards through the Habitat Conservation Planning Assistance program and providing funding to 53 states and territories through the Traditional Conservation Grants program. We do not anticipate awarding grants under the Recovery Land Acquisition or HCP Land Acquisition grant programs. Fiscal Year 2019: Assuming the average grant awards remain consistent with FY16 levels, we anticipate making 6 awards through the Habitat Conservation Planning Assistance program and providing funding to 53 states and territories through the Traditional Conservation Grants program. We do not anticipate awarding grants under the Recovery Land Acquisition or HCP Land Acquisition grant programs.

(CVA),

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Clean Vessel Act, 33 U.S.C. 1322; and Dingell-Johnson Sport Fish Restoration Act, 16 U.S.C. 777 et seq.

OBJECTIVES:

This program provides funding to States, the District of Columbia, Commonwealths, and territories for the construction, renovation, operation, and maintenance of sewage pumpout stations, waste reception facilities, and pumpout boats for recreational boaters and for educational programs that inform boaters of the importance of proper disposal of their sewage.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

This program authorizes matching funds on a competitive basis for development of surveys and plans for installing sewage pumpouts and dump stations for recreational boats in the coastal zone of coastal States; and for construction of sewage pumpouts and dump stations for recreational boats; and for implementation of education programs. These stations must provide protection of sensitive areas from recreational boat sewage. Prohibited activities include: law enforcement; construction/renovation of upland restroom facilities; construction, renovation, operation and maintenance of sewage treatment plants; and any activity that does not provide public benefits.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Agencies from the 50 States, the District of Columbia, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and the territories of Guam, the U.S. Virgin Islands, and American Samoa may submit grant proposals to the U.S. Fish and Wildlife Service.

Beneficiary Eligibility:

U.S. Territories; State; General public, recreational boaters, municipalities, and private marinas within eligible States, the District of Columbia, Commonwealths, and territories.

EXAMPLES OF FUNDED PROJECTS:

2019 Program has not yet selected projects for funding. Program anticipates funding projects with similar objectives as those in FY18. 2017 Program has not yet selected projects for funding. Program anticipates funding projects that construct, renovate, operate, and maintain sewage pumpout stations, waste reception facilities, and pumpout boats for recreational boaters and for educational programs that inform boaters of the importance of proper disposal of their sewage. In their coastal region, the Oregon State Marine Board plans to fund construction of one new coastal pumpout/dump station, renovation of three floating restrooms, and maintenance of 17 pumpout stations, 16 dump stations and six floating restrooms. In their inland region they plan to fund replacement of four pumpout/dump stations, renovation of three floating restrooms and maintain 18 pumpout stations, 20 dump stations and 18 floating restrooms. They will also continue their information and education efforts. The Michigan Department of Natural Resources, (MI DNR), plans to issue grants to local governments and private marina operators primarily for the renovation or purchase and installation of new pumpout stations funded by the CVA program. MI DNR estimates funding approximately 13 pumpout stations and associated infrastructure using FY 2017 CVA funds. They also plan to increase boater education and eligible activities on the purpose and use of pumpouts. The South Carolina Department of Natural Resources is planning on renovating 18 stationary units and eight mobile units, purchasing seven boat-mounted pumpout units, installing two floating restrooms, and providing operations and maintenance funding for 37 pumpout boats in coastal and inland waters. They will continue to fund their education program that informs recreational boaters about the importance of using pumpout stations and their locations. 2018 Program has not yet selected projects for funding. Program anticipates funding projects that construct, renovate, operate, and maintain sewage pumpout stations, waste reception facilities, and pumpout boats for recreational boaters and for educational programs that inform boaters of the importance of proper disposal of their sewage.

15.619 Rhinoceros and Tiger Conservation Fund

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Rhinoceros and Tiger Conservation Act, 16 U.S.C. 5301 et seq., Multinational Species Conservation Act of 2007, Statue 121-1360, Public Law 110-132

OBJECTIVES:

To provide financial assistance for projects for the effective long-term conservation of rhinoceros and tigers. This program supports projects that focus on one or more of the following areas: Enhanced protection of at-risk rhinoceros and tiger populations; protected area/reserve management in important rhinoceros and tiger range; Veterinary care for wild populations; habitat conservation and management; reintroduction to former range; restoration of habitat; wildlife inspection, law enforcement, and forensics skills; conservation education and community outreach; efforts to decrease human-rhinoceros and human-tiger conflicts; strengthening local capacity to implement conservation programs; transfrontier rhinoceros and tiger conservation; applied research on rhinoceros and tiger populations and their habitats, including surveys and monitoring; development and execution of rhinoceros and tiger conservation management plans; and compliance with applicable treaties and laws that prohibit or regulate the taking or trade of rhinoceros and tigers or regulate the use and management of their habitat.

TYPES OF ASSISTANCE:

15.620 African Elephant Conservation Fund

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

African Elephant Conservation Act, 16 U.S.C. 4201 et seq.

OBJECTIVES:

To provide financial assistance to support projects that will enhance sustainable conservation programs to ensure effective, long-term conservation of African elephants. The African Elephant Conservation Fund supports projects that promote conservation through: Applied research on elephant populations and their habitat, including surveys and monitoring; Development and execution of elephant conservation management plans; Compliance with applicable treaties and laws that prohibit or regulate the taking or trade of elephants or regulate the use and management of elephant habitat; Conservation education and community outreach; Enhanced protection of at-risk elephant populations; Efforts to decrease human-elephant conflict; Habitat conservation and management; Protected area/reserve management in important elephant range; Strengthening local capacity to implement conservation programs; Transfrontier elephant conservation; and Wildlife inspection, law enforcement, and forensics skills.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Project work should occur within the range of the African elephant, or, if work is to be conducted outside of the range, the proposal should show a clear relevance to African elephant conservation. Applied research projects should address specific management needs and actions. Funds provided under this program will not be used for: the purchase of firearms or ammunitions; buying of intelligence

information or paying informants; gathering information by persons who conceal their true identity; law enforcement operations that prompt suspects to carry out illegal activities so they may be arrested (entrapment); or any activity that would circumvent sanctions, laws or regulations of either the U.S. or the country in which the activity would occur. Funds may not be used to provide material support or resources to individuals, entities, or organizations of countries that have been identified by the U.S. Department of State as state sponsors of terrorism. The countries currently identified are: Cuba, Iran, North Korea, Sudan and Syria. This program is administered in compliance with the Federal Grants and Cooperative Agreements Act of 1977, as amended. These funds may not be used towards training U.S. Federal Government personnel.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Anyone/general public; Applications may be submitted by any African government agency responsible for African elephant conservation and protection and any other organization or individual with demonstrated experience in African elephant conservation.

enhancing degraded wetlands through permanent habitat protection efforts on both public and private lands. This is the third proposal of a multiple year initiative with an overall goal to accelerate the permanent protection of prairie wetland complexes open to the public and to ensure every Waterfowl Production Area and Wildlife Management Area is providing the maximum benefits for waterfowl and wetland dependent species. More specifically, SWIM III accelerates efforts to permanently protect in fee title and easement 690-acres of Waterfowl Production Areas and Wildlife Management Areas and 61.9-acres via Re-Invest in Minnesota perpetual conservation easement. Further, this partnership restores 40-acres on Hurricane Lake WMA and enhances another 270-acres of wetland habitat on Chen Bay and Sioux Valley WMAs. Projects within this proposal will address both reproductive and migration habitat needs of waterfowl and wetland dependent species within the area. The project area and project components are important to successful implementation of the NAWMP and the PPJV Implementation Plan. Several stateside conservation plans are served by the work outlined in this proposal as well, including the Minnesota Prairie Conservation Plan and Minnesota's duck and pheasant plans. 2018 Program has not yet selected projects for funding. EXAMPLES OF FUNDED PROJECTS:

2019 The Program has not yet selected projects for funding. The Program anticipates funding Section 10 Enhanced Hunter Educational projects and activities that are eligible each year. 2017 The Alabama Division of Wildlife and Freshwater Fisheries (WFF) continues to promote the National Archery in the School Program (NASP) and conducted hunter and shooting sports education and outreach to non-traditional audiences in Alabama. As part of this project WFF conducted 20 Basic Archery Instructor workshops for 266 teachers to implement the NASP curriculum and purchased archery equipment to supplement new schools enrolling in the program. Approximately 370 schools and 55,500 students participated in Alabama's NASP during this fiscal year. Thirty-three hundred and forty-one students from 145 schools participated in seven regional events and 74 teams with 1,237 student archers participated in a statewide event at the Montgomery Sportsplex. Total cost \$180,000 (\$135,000 Federal; \$45,000 non-Federal). Iowa Department of Natural Resources and Pheasants Forever, Inc. signed a cooperative agreement to hire a joint Iowa Outreach Coordinator. This position is a Pheasants Forever employee but works closely with the Iowa DNR on shooting sports efforts, mentored hunts, long-term mentoring efforts, youth habitat projects, and expanding youth/family events at the local level. Through this partnership 28 mentored hunts were held involving 539 youth, 84 shooting sports events were held involving 3410 youth, 26 field days were held involving 2038 youth, and 8 habitat projects were completed involving 1006 youth with 20 acres planted. Cost for the project was \$30,000 (\$22,500 federal and \$7500 state. Vermont Fish and Wildlife Department held various advanced trainings designed to bridge the gap between hunter education certification and actually hunting or trapping and also to introduce new audiences to the outdoors. Youth attended various advanced weeks at the Green Mountain Conservation Camps, 113 received their trapping certification, and 134 received their waterfowl certification. Becoming an Outdoors Family event had 51 families (154 participants) attend this year. Cost for these projects \$20,000 (\$15,000 Federal; \$5,000 State). The Alabama Division of Wildlife and Freshwater Fisheries (WFF) continues to promote the National Archery in the School Program (NASP) and conducted hunter and shooting sports education and outreach to non-traditional audiences in Alabama. As part of this project WFF conducted 20 Basic Archery Instructor workshops for 266 teachers to implement the NASP curriculum and purchased archery equipment to supplement new schools enrolling in the program. Approximately 370 schools and 55,500 students participated in Alabama's NASP during this fiscal year. Thirty-three hundred and forty-one students from 145 schools participated in seven regional events and 74 teams with 1,237 student archers participated in a statewide event at the Montgomery Sportsplex. The Program anticipates funding Section 10 Enhanced Hunter Educational projects and activities that are eligible each year.

CRITERIA FOR SELECTING PROPOSALS:

The State, Commonwealth, or territory agency having responsibility for the management of their resources must submit the projects. The State, Commonwealth's, or territory's wildlife resources must submit the projects. The State, Commonwealth, or territorial agency selects those projects submitted for funding under the program. If approved, projects must meet the basic criteria outlined in the regulations and the Fish and Wildlife Service Manual.

15.628 Multistate Conservation Grant

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Wildlife and Sport Fish Restoration Programs Improvement Act, Pub. L. 106-408, 114 STAT. 1766, 112 et seq.; Dingell-Johnson Sport Fish Restoration Act, 16 U.S.C. 777 et seq.; and Pittman-Robertson Wildlife Restoration Act, 16 U.S.C. 669 et seq.

OBJECTIVES:

This program provides funding for sport fish and wildlife restoration projects identified by the Association of Fish and Wildlife Agencies.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Project types that are generally selected for funding are those considered of national importance according to state fish and wildlife agencies. Funding activities focus on: education, training, data analysis, values and use of sport fish and wildlife restoration programs; new technologies, hunting and fishing participant recruitment/retention; and evaluation in restoration, recreation, enhancement, or protection of sport fish and wildlife and their habitats. For further information, please contact the Washington D.C. Office.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); .

Beneficiary Eligibility:

State; Projects must benefit at least 26 States, a majority of States in a Region of the U.S. Fish and Wildlife Service, or a Regional association of State fish and game departments.

Credentials/Documentation:

None. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for

more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. This program is co-managed with the Association of Fish and Wildlife Agencies (AFWA). AFWA receives all applications in its two step application process. To apply, the first step is to submit a Letter of Intent (LOI) to AFWA. AFWA may invite applicants that submit a LOI to submit a full grant proposal for review. If selected by AFWA as a priority project, your project will be recommended for funding on the priority list. The Director of the U.S. Fish and Wildlife Service selects the awards from the priority list.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

The Director of the U.S. Fish and Wildlife Service will select projects for funding from a priority list developed by the Association of Fish and Wildlife Agencies (AFWA) based on established criteria.

Deadlines:

October 01, 2018. Please contact the headquarters office for specific application deadlines. The Wildlife and Sport Fish Restoration (WSFR) Program and Association of Fish and Wildlife Agencies (AFWA) post a Notice of Funding Opportunity (NOFO) in March/April of the year preceding the award year on grants.gov. The NOFO is also posted on AFWA's website, <http://www.fishwildlife.org>. Letters of Intent (LOI) are due to AFWA by early May of each year before the award year. If a LOI is chosen, applicants will be instructed to submit a full proposal, which is due to AFWA by early August of each year, before the award year. AFWA reviews the applications and submits its priority list of project proposals recommended for funding to the U.S. Fish and Wildlife Service, Assistant Director, Wildlife and Sport Fish Restoration Program by October 1 of each year, which is the start of the fiscal year of the award year. The list of WSFR approved priority projects submitted by AFWA is published in the Federal Register in the spring of each calendar year.

EXAMPLES OF FUNDED PROJECTS:

2018 Although the Program has not awarded projects for funding as of this update, we anticipate projects that will look into assisting the state fish and wildlife agencies with what angler, bowhunting and shooting sports participant recruitment, retention and reactivation efforts have been successful over the last 20 years; to continue state fish and wildlife agency participation in the coordination of Farm Bill conservation programs and to assess harvest management influences on Chronic Wasting Disease trends in the western U.S. 2019 The Program has not yet selected projects for funding. The Program anticipates funding projects that address species or habitat research activities, hunting and fishing recruitment and retention information collection, aquatic or hunter education activities, conservation planning, outreach and coordination. 2017 The American Sportfishing Association is currently working on a project titled, Economic Significance of Sportfishing: Jobs, Tax Revenues and other Measures Needed to Achieve Greater Support. The project will provide each and all 50 states with scientific, easy-to-understand

information about the expenditures, jobs, tax revenue, income and other economic data needed to strengthen their abilities to increase public awareness about the importance of fish and wildlife. The Association is administering on behalf of the National Fish Habitat Board a project titled, Science and Conservation collaboration through the National Fish Habitat Partnership. The project is working to collectively advance fish habitat partnership habitat assessments through identification of mutual data needs, data acquisition and landscape-level analysis for the benefits of fish, mussels, and other aquatic animals. In addition, the project will provide regional and system-specific fish population, habitat, and human impact data to fill regional data gaps; achieve conservation results through strategic actions and allow further critical collaboration to occur among the Fish Habitat Partnerships. The Council to Advance Hunting and the Shooting Sports (CAHSS) is working on a project titled, Implementation of the National Hunting and Shooting Sports Action Plan. The objective is to conduct facilitated workshops necessary to develop state-level recruitment, retention, and reactivation (R3) plans. These collaborative sessions will serve to enhance cooperative efforts between nonprofits, industry and state fish and wildlife agencies that result in stronger and larger R3 partnerships at the state level. These activities will provide information regarding the most effective ways to preserve the hunting and shooting sports traditions.

CRITERIA FOR SELECTING PROPOSALS:

Projects will be reviewed and evaluated for scope, significance, feasibility, and cost effectiveness. In addition, projects must address one or more focus areas as described in the National Conservation Needs established annually by the Association of Fish and Wildlife Agencies (AFWA).

15.629 Great Apes Conservation Fund

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Great Ape Conservation Act, 16 U.S.C. 6301 et seq.

OBJECTIVES:

To provide financial assistance for projects for the effective long-term conservation of great apes and their habitats. This program supports projects that focus on one or more of the following areas: applied research on ape populations and their habitats, including surveys and monitoring; development and execution of ape conservation management plans; compliance with applicable treaties and laws that prohibit or regulate the taking or trade of ape or regulate the use and management of ape habitat; conservation education and community outreach; enhanced protection of at-risk ape populations; efforts to decrease human-ape conflicts; habitat conservation and management; protected area/reserve management in important ape range; strengthening local capacity to implement conservation programs; transfrontier ape conservation; and wildlife inspection, law enforcement, and forensics skills.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Project work should occur within the ape range, or, if work is to be conducted outside of the range, the proposal should show a clear relevance to ape conservation. Applied research projects should address specific management needs and actions. Funds provided under this program will not be used for: the purchase of firearms or ammunitions; buying of intelligence information or paying informants; gathering information by persons who conceal their true identity; law enforcement operations that prompt suspects to carry out illegal activities so they may be arrested (entrapment); or any activity that would circumvent sanctions, laws or regulations of either the U.S. or the country in which the activity would occur. Funds may not be used to provide material support or resources to individuals, entities, or organizations of countries that have been identified by the Department of State as state sponsors of terrorism. The countries currently identified are: Cuba, Iran, Sudan and Syria. This program is administered in compliance with the Federal Grants and Cooperative Agreements Act of 1977, as amended. These funds may not be used towards training Federal Government personnel.

EXAMPLES OF FUNDED PROJECTS:

2019 Projects similar to the ones funded in FY17 will be funded 2018 Projects similar to the ones funded in FY17 will be funded 2017 The Program anticipates funding projects that help protect and restore fish and wildlife habitats that benefit Federal trust species. Burnet Bay Wetlands Restoration Project: The Burnet Bay Wetlands Restoration project implements the highest priority action item (HP-1: Restore, create, and protect wetlands) in The Galveston Bay Plan, the comprehensive conservation and management plan for Galveston Bay. The Burnet Bay Wetlands Restoration Project will provide 35 acres of estuarine intertidal habitat for finfish and shell fish, help improve water quality in the affected area, and protect the existing shoreline of Burnet Bay from wave energy generated by ship wakes from the nearby Houston Ship Channel. These marsh habitats provide important nursery grounds for recreationally and commercially important aquatic species such as Gulf menhaden, sand seatrout, Southern flounder, red drum, bay anchovy, and other marine forms to develop into juveniles. Several species of birds also utilize the wetland habitat created in the project including: brown and white pelicans, black skimmers, several tern and gull species, as well as a bald eagle. MacDill AFB Living Shoreline Creation Project: The goal of this project was to reduce erosion and stabilize the shoreline at MacDill AFB in Tampa Bay. Tampa Bay Watch, in partnership with MacDill AFB and the Department of Defense completed this project to create a living shoreline on the base, which is one of the goals outlined in the CCMP (Changing the Course Management Plan). The project created .66 acres of estuarine oyster reef habitat by building 1,350 linear feet of oyster shell communities using 137 tons of fossilized oyster shell. The project restored .92 acres of salt marsh habitat by planting 1,000 linear feet of *Spartina alterniflora* at two to three foot intervals within the intertidal zone. Salt marsh is a biological filter for runoff, aides in the uptake of excess nitrogen loads, provides a natural erosion barrier for upland habitats, and serves as a habitat for numerous shorebird and other organisms. Zis-a-ba Estuary Habitat Restoration Project: Originally tidal wetlands, the project area has been diked and farmed for more than 100 years. This project restored tidal and riverine influence by removing the majority of the perimeter levee and associated tide gate, improving a levee on the south side to protect the adjacent property owner, and permanent protection of the property. To restore tidal influence to the 88 acre estuary (inside the dike), tidal

channels were excavated across the interior of the site to encourage natural tidal channel development while protecting infrastructure that traverses the property. The nearly 7,000 feet of perimeter dike was then removed. The project was designed to restore estuary rearing habitat for juvenile salmonids, especially Endangered Species Act listed Chinook and bull trout populations of the Stillaguamish and Skagit Rivers. The restoration of tidal wetlands inside the project area is specifically called for in the Puget Sound Chinook Recovery Plan.

CRITERIA FOR SELECTING PROPOSALS:

All projects must benefit Federal trust species and be cost effective. Project selection occurs at the field level. See the annual "Notice of Availability of Federal Assistance" in <http://grants.gov> for more details.

OBJECTIVES:

Provide technical and financial assistance to private landowners, States, municipalities, and Native American Tribes interested in voluntarily restoring or otherwise improving native habitats for fish and wildlife on their lands. Deliver Department of Interior priorities to the American people.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The PFW program uses congressionally appropriated funding in accordance with the Partner for Fish and Wildlife Act of 2006, 16 U.S.C. 3771-3774.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Private landowners, tribal governments, local and state governments, educational and non-profit institutions and organizations are eligible for financial and technical assistance from Partners for Fish and Wildlife Program. Projects must be located on private lands. Private land is defined by the Partners for Fish and Wildlife Act of 2006, 16 U.S.C. 3771-3774, as any land that is not owned by the Federal Government or a State. Private land includes tribal land and Hawaiian homeland.

Beneficiary Eligibility:

Anyone/general public; Federally Recognized Indian Tribal Governments; Private landowners, tribal governments, local and state governments, educational and non-profit institutions and organizations are eligible for financial and technical assistance from Partners for Fish and Wildlife Program. Projects must be located on private lands. Private land is defined by the Partners for Fish and Wildlife Act of 2006, 16 U.S.C. 3771-3774, as any land that is not owned by the Federal Government or a State. Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The local Partners for Fish and Wildlife Program Coordinator works with the applicant and makes a site visit to design a project that will benefit Federal trust resources and is acceptable for the landowner's needs. Contact the appropriate Partners for Fish and Wildlife Program Office for application procedures. Applicant must complete the Standard Form (SF) 424, and the appropriate Budget and Assurances forms (SF424A and SF 424B - Non-construction; or SF 424C and SF 424D - Construction) Information is also available at <http://www.grants.gov>.

Award Procedure:

ASSISTANCE LISTINGS DESCRIPTIONS

After a project has been designed and the cost calculated, the local Partners Program coordinator will be able to inform the private landowner whether or not the Service will provide cost-share assistance. When the landowner has signed a cooperative agreement (a minimum of 10 years) work can begin on the project. The Service reimburses the landowner after the project is completed.

2019 Program has not yet selected projects for funding. Program anticipates funding projects that voluntarily restores habitat for wildlife and recreational benefits to the American people. 2017 The Program has not yet selected projects to support. The Program anticipates funding projects that help protect and restore fish and wildlife habitats to benefit Federal trust species and declining species. Montana: Blackfoot River MT-BF-17-23 Providing angling opportunities This project provides improved instream and riparian habitat conditions that will benefit local fisheries population as well as downstream populations in the Blackfoot river drainage. Specifically, the priority species to benefit are the sensitive westslope cutthroat trout. Trying to keep species off the Endangered Species List is a goal for the program. The project will also benefit other aquatic invertebrates, amphibian and native riparian plant communities. The project improved recreational opportunities for anglers and miles of habitat Utah: UT-2017-006 Restoring Trust and Being a Good Neighbor The purpose of this project is to allow the landowner to manage grazing on riparian and upland areas. The private property is within an area that is primarily Federally owned. A plan has been developed to consolidate grazing allotments and rotate through the area and the landowner would like to be able to have better grazing control on the private property. To continue managing the grazing on the privately owned property the boundary fence was repaired to insure the landowner can maintain grazing control on sagebrush acres and riparian areas of a stream. Oklahoma: 1014365-MH_Wetland Providing hunting opportunities The property can be described as an upland savanna habitat with adjacent riparian habitat. The area is vegetated with introduced grasses and native grasses scattered across the upland habitat with a variety of hardwoods tree species in the riparian habitat. Habitat treatments include restoring a 3 acre wetland, enhance 14 acres of riparian habitat to benefit federal trust resource species and migratory birds by constructing a fence to protect the area from livestock grazing. Water levels will be allowed to fill in the winter months for waterfowl use and recreational opportunities. 2018 Program has not yet selected projects for funding. Program anticipates funding projects that voluntarily restores habitat for wildlife and recreational benefits to the American people.

CRITERIA FOR SELECTING PROPOSALS:

All projects must benefit Federal trust species, involve partnerships, be-cost effective, and where applicable involve on-the-ground habitat restoration. Specific criteria for reviewing and ranking projects were established in the national Partners policy, at <https://www.fws.gov/policy/640fw1.html>. The program gives high priority to proposed projects that benefit the National Wildlife Refuge System, species at risk, conserve globally or nationally imperiled habitats; and reduce habitat fragmentation. Please review the annual Notice of Availability of Federal Assistance for additional selection criteria referenced in <http://www.grants.gov>.

FEDERAL AGENCY:

ASSISTANCE LISTINGS DESCRIPTIONS

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Department of the Interior and Related Agencies Appropriations Act of 2006, Public Law 109-148; Title I; Land and Water Conservation Fund Act of 1965; 16 U.S.C. 4601-4 through 11., Public Law 109-148, 16 USC Code 4601-4 through 11.
OBJECTIVES:

This program establishes or supplements existing landowner incentive programs that provide technical or financial assistance. This includes habitat protection and restoration; to assist private landowners in protecting and managing habitats to benefit federally listed, proposed, or candidate species, or other at-risk species; and to encourage States, the District of Columbia, Commonwealths, or territories to enhance private landowner conservation.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Tier 1 projects provide the States, the District of Columbia, Commonwealths, or territories to support development of a new program, or to enhance an existing landowner incentive program, through administration, development of plans, outreach, and other associated activities that assist in the accomplishment of projects on private lands. Tier 2 projects should place a priority on the implementation of State, the District of Columbia, Commonwealth, or territorial programs that provide technical and financial assistance to private landowners for the protection and restoration of habitats that benefit federally listed, proposed, or candidate species, or other species-at-risk.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions; Agencies from the 50 States, the District of Columbia, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and the territories of Guam, the U.S. Virgin Islands, and American Samoa with primary responsibility for fish and wildlife conservation may submit grant proposals to the U.S. Fish and Wildlife Service.

Beneficiary Eligibility:

Anyone/general public; Private landowners and the public (While direct participation is limited to State, the District of Columbia, Commonwealth, or territorial fish and wildlife agencies, private landowners will directly benefit from financial and technical assistance and the public will ultimately benefit from these wildlife conservation measures implemented on private lands).

Credentials/Documentation:

Only that agency that has lead management responsibility for fish and wildlife resources within the State, the District of Columbia, Commonwealth, or territory may apply for these grants. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: The discretionary (competitive) subprogram anticipates receiving 25 applications and issuing 12 to 18 awards. The number of applications for mandatory grants varies annually based on State priorities and capacity. SWG Program funds are positively impacting many Endangered Species Act listing decisions. The Program has likely helped to curtail growth of State and Federal expenditures on federally listed species since the Program was first created in 2001. The SWG Program was a key funding source for the conservation and recovery of more than 50 percent of threatened and endangered species that were de-listed by the Service for conservation-related reasons through 2015. The SWG Program has also helped States contribute to Service removal or withdrawal of a significant portion of Candidate species listing those species found by the Service to be warranted for listing but not yet listed. The Service awarded 309 grants under the Formula (mandatory) subprogram in 2017. The number of applications for Formula grants varies annually based on State priorities and capacity. The discretionary (competitive) subprogram received 20 applications and issued 16 awards in 2017. Fiscal Year 2018: The discretionary (competitive) subprogram anticipates receiving 24 applications and issuing 12 to 18 awards. The number of applications for mandatory grants varies annually based on State priorities and capacity. Fiscal Year 2019: The discretionary (competitive) subprogram anticipates receiving 24 applications and issuing 12 to 18 awards. EXAMPLES OF FUNDED PROJECTS:

2018 Program has not yet selected projects for funding. Program anticipates funding projects that support States to develop and implement programs or projects for the benefit of wildlife and their habitat, including species that are not hunted or fished. 2017 Lesser Prairie Chicken Translocation in Colorado and Kansas: Since the mid-1990s, conservation concern for the lesser prairie-chicken has been elevated to consideration for listing under the Endangered Species Act, and in November 2016, the Service initiated a 12-Month Status Review of the species. The Colorado Division of Parks and Wildlife will partner with the Kansas Department of Wildlife, Parks, and Tourism, Kansas State University, and the United States Forest Service to help secure the long-term persistence, resiliency, and distribution of lesser prairie-chicken populations in the Sand Sagebrush Ecoregion, using SWG Program funding. Project goals include restoration of core populations and assessment of the feasibility of translocating the species to help restore population abundance and habitat occupancy. Reducing Impacts of Wind Turbines: Bats provide ecosystem services to the American people by helping to control disease vectors such as mosquitoes. A largely unanticipated impact of utility-scale wind energy development has been widespread mortality of tree-roosting bats, yet the geographic and demographic impact of this mortality is poorly understood because of a lack of tools for assessing movement and population size in these difficult-to-study species. Partnering States using SWG Program funding will collect data from bat tissue to obtain information on the scale and demographic impact of these mortalities. This information can be used by State and Federal agencies to assess and mitigate the impact of wind energy facilities on tree-roosting bats. Maintaining State Management Authority: Using SWG Program funding, partnering fish and wildlife agencies in Washington, Oregon, and California will help improve the population status of western pond turtles, a species currently under review by the Service for potential listing under the ESA. Working across State borders, the agencies will produce a comprehensive, range-wide population assessment using new genomic and field data. The results will provide critical information for identifying priority areas for conservation at the range-wide and local levels. Active habitat restoration will be conducted at five sites supporting key life functions of the turtle. These activities will provide vital information for the Services status review and help reduce the need for Federal listing of the species, thus helping maintain State authority for its management. 2019 Program has not yet selected projects for funding. Program anticipates funding projects that support States to develop and implement programs or projects for the benefit of wildlife and their habitat, including species that are not hunted or fished.

CRITERIA FOR SELECTING PROPOSALS:

Formula Grants: Proposals submitted to the Service must address species and conservation actions identified in the State Wildlife Action Plans. Project Grants (competitive): Applications are scored and ranked based on criteria, subfactors, and priorities published annually in the Notice of Funding Opportunity (NOFO). The NOFO is available at Grants.gov.

15.635 Neotropical Migratory Bird Conservation

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Neotropical Migratory Bird Conservation Act, 16 U.S.C. 6101 et seq.

ASSISTANCE LISTINGS DESCRIPTIONS

OBJECTIVES:

To assist in the conservation of neotropical migratory birds by providing financial resources for the projects of partnerships in countries within the ranges of neotropical migratory birds.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds may be used for approved neotropical migratory bird conservation projects. Projects must: enhance the conservation of neotropical migratory bird species in the U.S., Canada, Latin America, or the Caribbean; ensure adequate local public participation in project development and implementation; be implemented in consultation with relevant wildlife management authorities and other appropriate government officials with jurisdiction over the resources addressed by the project; be sensitive to local historic and cultural resources and comply with applicable laws; promote sustainable effective, long-term programs to conserve neotropical migratory birds; and other requirements the Secretary considers to be necessary. The Act requires that not less than 75 percent of the amounts made available each fiscal year shall be expended for projects outside of the U.S. Projects are approved for up to a 2-year period of time. For further information, please contact the headquarters office. 100%.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); An individual, corporation, partnership, trust, association, or other private entity; an officer, employee, agent, department, or instrumentality of the Federal Government, of any State, municipality, or political subdivision of a State, or of any foreign government; a State municipality, or political subdivision of a State; or any other entity subject to the jurisdiction of the United States or of any foreign country; or international organization with an interest in neotropical migratory bird conservation.

Beneficiary Eligibility:

Federal; Individual/Family; Specialized group (e.g. health professionals, students, veterans); Small business; State; Public nonprofit institution/organization; An individual, profit organization, other private institution/organization, public nonprofit institution/organization, an officer, employee, agent, department, or instrumentality of the Federal Government, of any State, municipality, or political subdivision of a State, or of any foreign government; a State municipality, or political subdivision of a State; or any other entity subject to the jurisdiction of the United States or of any foreign country; or international organization with an interest in neotropical migratory bird conservation.

Credentials/Documentation:

. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Proposals are reviewed and competitively selected for funding using criteria developed on the requirements of the Neotropical Migratory Bird Conservation Act. Review criteria can be found in the application information on the program website. Proposals are reviewed by a panel of experts from the Fish and Wildlife Service and other government agencies, who make funding recommendations to the Director. After projects are selected for funding, a grant agreement between the Fish and Wildlife Service and the grantee is drafted by the Division of Bird Habitat Conservation (DBHC). The agreement is then processed by DBHC and sent to the recipient. The agreement is considered to be executed on the date of signature by the Chief of DBHC.

Deadlines:

November 06, 2018. November 6, 2019.

Range of Approval/Disapproval Time:

Other. Decisions on funding of project proposals are usually made no later than

180 days after the receipt of the project proposal.

Appeals:

Other. None. Proposals not funded may be resubmitted.

Renewals:

Other. Proposals are funded on a project-specific basis. Requests for future funding must compete with other requests for project funding. A grant agreement can be modified or extended at the discretion of the Division of Bird Habitat Conservation.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Matching Requirements: In determining whether to accept projects for funding approval, applicants must guarantee a 3:1 match amount. That is, the applicant must match each Act dollar with 3 non-Federal dollars. Federal dollars refers to U.S. Federal dollars. Federal dollars of non-U.S. governments are eligible. In the U.S. and Canada, match must be in cash; outside of the U.S. and Canada, match may either be in cash or in-kind. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Unless the project is extended, awarded funds must be spent during the approved Period of Performance of the grant agreement, and in accordance with financial and reporting procedures specified in the grant agreement. Projects are usually two years in duration. Method of awarding/releasing assistance: other

Reports:

Quarterly financial reports are required for recipients opting to receive grant funds in advance of expenditure. A performance report is required for each grant award annually, at the end of the fiscal quarter following the award anniversary date. A final performance report is due at the end of the fiscal quarter following the end of the award period of performance. Interim and final reports must be submitted in accordance with the terms and conditions of the grant agreement and must include SF-425 Federal Financial Report. Recipients must report expenditures using the SF 425, Federal Financial Report form. Recipients are responsible for monitoring and reporting performance for each award and sub-award under this program in accordance with 2 CFR 200 and 2 CFR Part 170.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

The Recipient shall maintain a complete, detailed accounting system to report expenditures of grant funds and a detailed accounting of receipts and expenditures of non-Federal matching dollars or value of services. Records, accounts, and supporting documents must be retained for 3 years after submission of final report.

EXAMPLES OF FUNDED PROJECTS:

2017 Projects not yet selected. Program expects to fund 25-35 awards to support public-private partnerships carrying out projects in the United States, Canada, Latin America, and the Caribbean that promote the long-term conservation of Neotropical migratory birds and their habitats through: 1) Protection and management of neotropical migratory bird populations; 2) Maintenance, management, protection, and restoration of neotropical migratory bird habitat; 3) Research and monitoring; 4) Law enforcement; and 5) Community outreach and education. Strengthening Capacity for Caribbean Shorebird Conservation Through the Caribbean Waterbird Census This project will improve the long-term survival of shorebirds and their habitats across the flyway by building local capacity in the Caribbean to identify priority sites and monitor them through promoting the Caribbean Waterbird Census and providing training in its methods; promoting practical measures for shorebird conservation through small grants; and increasing support for conservation of shorebirds and their habitats in the region by increasing awareness through several annual education programs that reach multiple target audiences (e.g., community members, stakeholders, hunters, decision-makers, developers, etc.). Conservation Action for Cerulean Warbler in Canada Project objectives are to: 1) work with landowners in the Carolinian Region, to reduce threats and to conserve or enhance habitat for Cerulean Warbler and other mature forest-dependant birds at risk; 2) work with partners to maintain or enhance the habitat available for Cerulean Warbler and; 3) implement a long-term recovery monitoring to identify threats, to prioritize sites for conservation, to track recovery and to monitor project success. 2019 Projects not yet selected. Program anticipates funding projects that support public-private partnerships carrying out projects in the United States, Canada, Latin America, and the Caribbean that promote the long-term conservation of Neotropical migratory birds and their habitats through: 1) Protection and management of neotropical migratory bird populations; 2) Maintenance, management, protection, and restoration of neotropical migratory bird habitat; 3) Research and monitoring; 4) Law enforcement; and 5) Community outreach and education. 2018 Projects not yet selected. CRITERIA FOR SELECTING PROPOSALS:

Proposals will be screened and selected for funding primarily on the basis of criteria contained in 16 U.S.C. 6101. However, proposals will also be evaluated on: scope and significance of effort; importance of resource values; relationship of project to other efforts locally/regionally; and feasibility and cost-effectiveness. Selection criteria are available on the program website.

15.636 Alaska Subsistence Management

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Alaska National Interest Lands Conservation Act, 16 U.S.C. 3119 and 3122; and Fish and Wildlife Coordination Act, 16 U.S.C. 661 to 666.

OBJECTIVES:

To identify and provide information needed to sustain subsistence fisheries and wildlife management on Federal public lands, for rural Alaskans, through a multidisciplinary, collaborative program. Two programs are administered under ANILCA to fulfill this objective. The Fisheries Resource Monitoring Program (Monitoring Program) funds approximately 40 studies annually to provide information on stock status and trends, harvests, and traditional ecological knowledge to manage and regulate Federal subsistence fisheries. The Partners for Fisheries Monitoring Program (Partners Program) strengthens Alaska Native and rural involvement in subsistence fisheries management and research. The program provides funds directly to Alaska Native and rural organizations to hire fishery biologists, social scientists, and educators with the intent of increasing the organizations ability to participate in Federal Subsistence Management.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Funds may be used for approved fisheries subsistence management, fisheries monitoring, and traditional ecological knowledge projects.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Individual/Family; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An individual/family, profit organization, other private institution/organization, public nonprofit institution/organization; an officer, employee, agent, department or instrumentality of the Federal government, of the State of Alaska, municipality or political subdivision of the State of Alaska; Federally recognized Indian Tribal Government (including any Native village as defined in the Alaska Native Claims Settlement Act).

Beneficiary Eligibility:

Federal; Individual/Family; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; State; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; An individual/Family, profit organization, other private institution/organization, public nonprofit institution/organization; an officer, employee, agent, department, or instrumentality of the Federal government, of the State of Alaska, municipality or political subdivision of the State of Alaska, or of any foreign government.

Credentials/Documentation:

. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An applicant should consult the office or official designated as the single point of contact for more information on the process.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must submit the Standard Form (SF)-424, the appropriate Budget and Assurances forms (SF-424A and SF-424B - Non-construction), Project Narrative/Investigation Plan, Budget Justification, Negotiated Indirect Cost Rate Agreement, Conflict of Interest Disclosures, Certification Regarding Lobbying, and SF-LLL Disclosure of Lobbying Activities.

Award Procedure:

For the Monitoring Program, an inter-agency technical review committee evaluates proposal. The committee develops a draft monitoring program from the highest priority projects, based on their technical review and available funding. The draft

ASSISTANCE LISTINGS DESCRIPTIONS

monitoring plan is reviewed by ten regional advisory councils and the public. An inter-agency staff committee reviews all comments, and provides recommendations. The Federal Subsistence Board selects projects for the Monitoring Plan taking into account all comments and recommendations. Funding of the Monitoring Plan is administered by the Office of Subsistence Management (OSM). For the Partners Program, an external review committee is formed to evaluate proposals and make recommendations for funding. The evaluations are based on the criteria outlined in the request for federal assistance. The proposals are ranked and, based on available funding, the highest ranking proposals are funded by OSM approximately 3 months after the NOFO closing date. Funding of the Partners Program is administered by OSM. Once a Monitoring Program project or Partners Program position is selected for funding, a funding instrument, i.e., notice of award, between Fish and Wildlife Service and the recipient is drafted by OSM and processed through the contracting office. The award is considered executed when signed copies of the agreement are sent to the recipient and the contracting office obligates the funds.

Deadlines:

November 15, 2018. Partners Program February 19, 2019. Monitoring Program November 15, 2018 for the Partners Program and February 19, 2019 for the Monitoring Program

Range of Approval/Disapproval Time:

Other. Currently, the next Notice of Funding Opportunity (NOFO) for the Partners for Fisheries Monitoring Program will be posted August 2018, remain open for 90 days and close November 15, 2018. Information can be found at <http://www.doi.gov/subsistence/partners>. OSMs decisions on Partners Program positions are announced within 3 months of the closing of the NOFO. 15.637 Migratory Bird Joint Ventures

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Fish and Wildlife Act, 16 U.S.C. 742 et seq.; Fish and Wildlife Coordination Act, 16 U.S.C. 661-666; Fish and Wildlife Conservation Act, 16 U.S.C 2901 et seq.; Migratory Bird Treaty Act 16 U.S.C. 703 et seq.; and Endangered Species Act, 16 U.S.C. 1531 et seq.

OBJECTIVES:

To protect, restore, and enhance wetland and upland ecosystems for the conservation of migratory birds.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants), Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Joint Ventures are public/private partnerships, guided by a Management Board of public/private representatives and use a U.S. Fish and Wildlife Service (USFWS) approved Implementation Plan that establishes conservation goals, priorities, and strategies. The Implementation Plan typically includes stepped down goals and objectives from a variety of national and international bird planning efforts. A Joint Venture Coordinator facilitates the coordination and implementation of the Joint Venture program. The USFWS provides basic administrative funding to the Joint Venture to cover costs associated with coordination; planning; monitoring, evaluation and applied research; communications and outreach; and project development and implementation. Joint Ventures may provide Federal assistance to partners within these categories to achieve the goals of the Joint Venture. The USFWS does not fund the entire scope of Joint Venture operations. Joint Venture partners are expected to contribute funding towards one or more of these categories. Non-federal match is not required, but leveraging USFWS dollars provided for Joint Ventures administration is a critical component of the Joint Ventures program.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Federal, State and local government agencies, Federally recognized Indian Tribal governments, private nonprofit institutions/organizations; public nonprofit institutions/organizations; profit organizations, interstate and intrastate entities, and individuals or families who are also private landowners.

Beneficiary Eligibility:

Anyone/general public; General Public.

Credentials/Documentation:

Applicant must participate or intend to participate in strategic conservation planning, implementation and evaluation activities designed to meet the Joint Venture objectives as identified in an approved Implementation Plan and all related plans. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Once the project is designed and either fits within an approved Implementation Plan or is reviewed and approved by a Joint Ventures Management Board, a cooperative agreement or grant agreement is written, executed, and work can begin.

FY17 Tribal Wildlife Grants Award Examples: Passamaquoddy Tribe Indian Township Reservation (\$200,000) Monitoring White-tailed Deer Migration, Survival and Mortality Characteristics from a Deer Wintering Area (DWA) on Passamaquoddy Reservation Land Tribal land DWA protects 200-400 white tail deer, and the Tribe harvest 20-60 deer/year. The Tribe will collect data on deer movement and survival to understand why deer densities are low in and around tribal land. Objectives include: 1) Track the migration corridors, distances traveled and timing of migrating deer to and from the Indian township DWA. 2) Identify important habitats for fawning, feeding and early wintering conditions. 3) Assess seasonal survival rates and cause specific mortality for the adult female (2: 1.5 years) segments of the population. 4) Assess feasibility of future fawn captures using clustered GPS locations. Partners include: ME DIF&W, Penobscot Nation, Downeast Lakes Land Trust, Aleut Community of St. Paul Island Alaska (\$99,265) Sustainable Reindeer Management on St. Paul Island, Alaska St. Paul Island is located in the middle of the Bering Sea. Reindeer are an important subsistence food resource for tribal and community members on the island. The goal of the project is to enhance reindeer management to ensure long-term sustainability and resiliency of the herd by 1) Understanding bull:cow ratios and recruitment rates via unmanned aircraft system surveys; 2) Collaborating with subsistence hunters to assess body condition, presence of disease and genetic testing; 3) Assessing grazing pressure and feasibility of temporary exclusion fencing to rehabilitate rangeland; and 4) Educating tribal and community members in responsible and ethical hunting practices via hunter education and implementing reindeer curriculum in schools. In 2013, USDA's NRCS conducted a vegetation survey on St. Paul and concluded the range can support a herd of no more than 200 reindeer. As of October 2017, the herd was estimated at 400 reindeer. The Tribal Ecosystem Conservation Office has managed a hunting permit and reporting system since 1996 and recently updated the Reindeer Management Plan to keep the herd size near 200 with a bull:cow ratio at 1:5. Their plan is to manage a spring velvet season so hunters can identify male and barren female reindeer to harvest. Pregnant females can be identified by their hard antlers and will not be harvested in order to sustain the herd into the future. Mille Lacs Band of Ojibwe (\$199,075) Mille Lacs Band Identifying Key Habitats for the Conservation of Juvenile and Adult Walleye in Mille Lacs Lake The research project will aid in the development of a management plan to restore walleye stocks in Mille Lacs Lake. Recruitment of young walleye to the adult population has been limited in recent years and was identified as a high priority for future research efforts by a blue ribbon panel of university experts brought together to ponder the numerous biological issues that plague this world renowned lake. To address this problem, and expand on previous research, the Mille Lacs Band of Ojibwe along with Great Lakes Indian Fish and Wildlife Commission, U.S. Fish and Wildlife Service, and Fond du Lac Band of Lake Superior Chippewa, proposed a telemetry study to track both juvenile and adult walleye life stages in the summer and fall of 2018. Project objectives include: 1) assess the thermal niche of juvenile and adult walleye across seasons, 2) identify aquatic habitats that are key for adult and juvenile life stages, and 3) identify temporal, spatial, and thermal overlap of juvenile and adult habitats. CRITERIA FOR SELECTING PROPOSALS:

The following criteria is used to select proposals: (1) Resource Benefit: What are the expected benefits to fish and wildlife resources, including species that are not hunted or fished, and their habitat if this program is successfully completed? The Service requires that the Tribe articulate how the benefits of its proposal support the goals and objectives of the TWG and Service and Tribal Performance Goals in their proposal narratives. (2) Performance Measures: To what extent does the proposal provide obtainable and quantifiable performance measures and a means to monitor, evaluate, and report on these measures compared to an initial baseline? The measures should be specific and clear, and should provide demonstrable benefits to the target species of the action. These actions must support the goals and objectives of the TWG, the Service and the Tribe. (3) Work plan: Are the program activities and objectives well-designed and achievable? (4) Budget: Are all major budget items justified in relation to the program objectives and clearly explained in the narrative description? (5) Capacity Building: To what extent does the program increase the grantee's capacity to provide for the benefit of wildlife and their habitat? (6) Contributions and Partnerships: To what extent does the applicant display commitment to the project proposal through in-kind contribution or matching funds and to what extent does it incorporate contributions from other nonfederal partners in the form of either cash or in-kind services?.

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Endangered Species Act International Cooperation, 16 U.S.C. 1537

OBJECTIVES:

To support the creation, implementation, and/or replication of innovative training

programs in Latin America and the Caribbean (LAC) that will train future generations of resource managers through a holistic, cooperative, ecosystem-oriented approach adapted to the complexities of modern society and the interconnectedness of the landscapes upon which society depends.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Projects should take place in Latin America or the Caribbean, ideally in a recognized high priority ecosystem or ecoregion of biome, or a key location associated with flagship, endangered or migratory species of regional concern. If work is to be conducted outside that region, the proposal must explain why it is preferable that the project is implemented elsewhere. Funds provided under this program will not be used for the following activities: the purchase of firearms or ammunitions; buying of intelligence information or paying informants; gathering information by persons who conceal their true identity; law enforcement operations that prompt suspects to carry out illegal activities so they may be arrested (entrapment); or any activity that would circumvent sanctions, treaties, laws or regulations of either the U.S. or the country in which the activity would occur. Funds may not be used to provide material support or resources to individuals, entities, or organizations of countries that have been identified by the U.S. Department of State as state sponsors of terrorism. The countries currently identified are: Cuba, Iran, Sudan and Syria. This program is administered in compliance with the Federal Grants and Cooperative Agreements Act of 1977, as amended. These funds may not be used towards training U.S. Federal Government personnel.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Participation is limited to Federal, State and local governments, non-profit, non-governmental organizations; public and private institutions of higher education; and any other organization or individual with demonstrated experience deemed necessary to carry out the proposed project.

Beneficiary Eligibility:

Federal; Private nonprofit institution/organization; State; Local; Public nonprofit institution/organization; Federal, State and local government agencies; non-profit, non-governmental organizations; public and private institutions of higher education; and any other organization or individual with demonstrated experience deemed necessary to carry out the proposed project.

15.642 Challenge Cost Share

(CCS),

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Department of the Interior and Related Agencies Appropriations Act, 2004, Title I, Public Law 108-108.

OBJECTIVES:

Encourage partnerships with nonfederal governments, private individuals and organizations, educational institutions, philanthropic and charitable groups, and businesses to support the mission of the Service. Projects must conserve, protect, and enhance fish, wildlife, and plants for the continuing benefit of the American people.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds may be used for regionally approved Challenge Cost Share projects. Field managers plan and implement the projects which must be on, or directly benefitting, Service (federal) lands. The program requires that the Service expend no more than 50% of the cost to complete a project and that a minimum of the other 50% of the funds be of nonfederal origin. The cooperator share may be a non-monetary contribution, such as materials, or in-kind services. For further information, please contact the regional office.

Applicant Eligibility:

Federal; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions (includes institutions of higher education and hospitals); Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Applicants may be an individual/family, minority group, specialized group, small business, profit organization, private nonprofit/organization, quasi-public nonprofit institution/organization, native American, Federal, Interstate, Intrastate, State, Local, Sponsored organization, public nonprofit institution/organization, other public institution/organization, U.S. territory, or any organization with interests which support the mission of the Service. This program requires the cooperator(s) to provide a minimum of 50 percent of cost share from non-Federal sources, for local programs on National Wildlife Refuges, or benefitting other Service lands.

Beneficiary Eligibility:

Federal; Individual/Family; Profit organization; Other private institution/organization; State; The Challenge Cost Share program is not a grant program, although they do use cooperative agreements for donations to these field projects. Service field station managers are encouraged to form partnerships and to secure project cost-sharing for projects initiated at that refuge or field station. By Service policy, the matching 50% cost share is provided by non-Federal sources, state/local governments, private individuals/organizations, business enterprises, and philanthropic and charitable groups.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Service identifies projects or objects on or directly benefitting a national wildlife refuge or other Service lands for which cost sharing may be sought, and then solicits project proposals from partners/cooperators. Interested parties may contact the local National Wildlife Refuge or other Service office to participate or otherwise donate time, goods, or funds for these projects in order to support the mission of the Service. Proposals, including Standard Form 424 "Application for Federal Assistance," are submitted to the cooperating Service office that forwards them to their servicing Regional Office.

Award Procedure:

The Regional Challenge Cost Share Coordinator assembles a committee of Fish and Wildlife Service employees from a variety of disciplines to review, rank, and select the proposals for refuges or hatcheries for funding.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Other. Decisions on funding of project proposals are usually made no later than 180 days after the receipt of the project proposals. If funding is approved, a Challenge Cost Share Agreement (CCSA) is written between the Service and a cooperator(s) in which there is an equal partnership between the Federal government and the cooperator(s) that produces or provides a tangible product

ASSISTANCE LISTINGS DESCRIPTIONS

which mutually benefits Service lands and objectives, and the public. The Regional Contracting and General Services offices will review all CCSA's for contractual sufficiency. The agreements will be signed by the cooperator(s) and the Regional Director.

The program announcement and application instructions for this program can be found at Grants.gov website <http://www.grants.gov/search/basic.do>. The Notice of Funding Availability and Application Instructions are also located on this program's website at <https://www.fws.gov/international/grants-and-reporting/how-to-apply.html>. If you are unable to access the Internet, hard copies are available upon request from the Branch of Near East, South Asia & Africa, Division of International Conservation, U.S. Fish and Wildlife Service, 5275 Leesburg Pike, Falls Church, VA 22041. A proposal will not be considered complete if required elements are not submitted as instructed. U.S. applicants must submit (among other elements) a complete, signed Standard Form 424 "Application for Federal Assistance."

Award Procedure:

Projects are reviewed and competitively selected for funding using criteria developed on the requirements of the Marine Turtle Conservation Act of 2004 (P.L. 108-266). Review criteria can be found in the application information at <http://www.fws.gov/international/grants-and-reporting/how-to-apply.html>. Once a proposal has been selected for funding, an FWS approving official executes an Assistance Award between the U.S. Fish and Wildlife Service and the Recipient. Fully executed Awards are sent to the Recipient either electronically or through the mail. The Division of International Conservation then administers all other aspects of the Assistance Award.

Deadlines:

January 22, 2018. April 02, 2018. January 22, 2018, and April 2, 2018.

Range of Approval/Disapproval Time:

Other. Decisions on funding of project proposals will be made within 180 days after the receipt of the project proposal.

Appeals:

Not Applicable.

Renewals:

Not Applicable. None. However, at the discretion of the Division of International Conservation, active awards can be modified, e.g.: time extensions or budget changes.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Awarded funds must be spent during the approved project period of performance, in accordance with program financial and performance reporting procedures.

Method of awarding/releasing assistance: other

Reports:

Recipients must submit a final performance report no later than 90 calendar days after the award end date. Recipients of awards with performance periods longer than 12 months will be required to submit interim reports. Program may require recipients to submit interim reports annually, semiannually, or quarterly. Program will detail all performance reporting requirements, including frequency and due dates, in the notice of award letter. . Recipients are responsible for monitoring performance for each award and sub-award under this program in accordance with 2 CFR 200. Complete reporting requirements can be found at this program's web page at <http://www.fws.gov/international/pdf/assistance-award-guidelines.pdf>.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Recipients will maintain records in accordance with 2 CFR 200. Program-specific legislation/regulation may dictate additional records retention requirements. Program will detail all non-standard records retention requirements in the notice of award.

EXAMPLES OF FUNDED PROJECTS:

2019 Program has not yet selected projects for funding. Program anticipates funding projects that conserve nesting populations and habitat and address other threats to the survival of marine turtles in foreign countries. 2017 Program has not yet selected projects for funding. Program anticipates funding projects that are effective for the long-term conservation of marine turtles, and those that are similar in scope to FY 2016. The program supported: 1) A project for Leatherback & Hawksbill turtle research and population recovery in Panama; 2) a project to reduce Eastern Pacific Leatherback Bycatch in the Tuna Fisheries of the Eastern Tropical Pacific; 3) a project to combat Marine Turtle Trade in Vietnam. 2018 Program has not yet selected projects for funding. Program anticipates funding projects that conserve nesting populations and habitat and address other threats to the survival of marine turtles in foreign countries.

CRITERIA FOR SELECTING PROPOSALS:

Proposals will be reviewed based on criteria developed from the requirements of the Marine Turtle Conservation Fund (Public Law 108-266). Additional details on the selection criteria can be found in the Marine Turtle Notice of Funding Availability and Application Instructions <http://www.fws.gov/international/grants-and-reporting/how-to-apply.html>. Hard copies of the criteria are available upon request from the Division of International Conservation.

15.647 Migratory Bird Conservation

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Migratory Bird Treaty Act, 16 U.S.C. 703 et seq.; Fish and Wildlife Act, 16 U.S.C. 742 et seq.; Fish and Wildlife Coordination Act, 16 U.S.C. 661-666; and Fish and Wildlife Conservation Act, 16 U.S.C. 2901 et seq.

OBJECTIVES:

To maintain and enhance populations and habitats of migratory bird species found in the Upper Midwest (IL, IN, IA, MI, MN, MO, OH, WI).

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Grants may be used for the conservation of any bird species protected by the Migratory Bird Treaty Act and occurring in U.S. Fish and Wildlife Service (USFWS) Region 3 (the Upper Midwest, including IL, IN, IA, MI, MN, MO, OH, and WI). Special emphasis will be placed on Midwest Birds of Concern (see <https://www.fws.gov/midwest/midwestbird/concern.html>) as these species are experiencing known or suspected population declines, are recreationally important, or are party to biological or social conflicts. Implementing national, regional, and flyway bird conservation plans is the USFWS's highest priority including the Partners in Flight North American Landbird Conservation Plan (<http://www.partnersinflight.org>), U.S. Shorebird Conservation Plan (<https://www.shorebirdplan.org/>), North American Waterbird Conservation Plan (<https://www.fws.gov/birds/management/bird-management-plans/waterbird-conservation-for-the-americas.php>), North American Waterfowl Management Plan (<https://www.fws.gov/birds/management/bird-management-plans/north-american-waterfowl-management-plan.php>), Mississippi Flyway bird management plans (<http://mississippi.flyways.us/>), and the habitat conservation strategies and research priorities of the Upper Mississippi River and Great Lakes Region Joint Venture (<http://www.uppermissgreatlakesjv.org/Plans.htm>). Proposals related to the priorities identified in these plans and Bird Conservation Region and state-level bird conservation planning efforts will receive high funding consideration. The following activities are also of high interest to the USFWS: (a) Population surveys, monitoring, and assessments to determine the status, trends, distribution, demography, and responses to management of bird species and groups of concern. Emphasis will be placed on landscape-level applications of standardized inventory and monitoring protocols as identified through the Midwest Coordinated Bird Monitoring Partnership (<http://midwestbirdmonitoring.ning.com>). Local-scale bird monitoring (e.g., local land management units) will generally not be a focus of this grant program, nor will support for long-term operational bird monitoring efforts. Rather, the program seeks to address coordination of monitoring efforts and development and evaluation of new survey and monitoring techniques (both field and analytical); (b) Conservation of focal species for which conservation plans and/or working groups have been developed and research, monitoring, and other priorities have been identified. Examples of focal species with such plans include: Henslow's Sparrow, Grasshopper Sparrow, Bobolink, and other Midwestern grassland birds; Golden-winged Warbler, Cerulean Warbler, and Canada Warbler; Wood Thrush; American Woodcock, Wilson's Phalarope, Upland Sandpiper, and Marbled Godwit; and Common Tern, Black Tern, King Rail, and Lesser Scaup. (For further information on focal species, see <http://www.fws.gov/midwest/midwestbird/concern.html>); and (c) Strategic Conservation, wherein the USFWS and partners integrate biological planning, landscape design, conservation delivery, and monitoring and evaluation in a manner that generates the adaptive feedback that enables sound decisions and continue to improve our efficiency and effectiveness in saving birds (<http://www.fws.gov/midwest/science/SHC/FAQ.htm>). Strategic conservation involves applied research, including studies of bird habitat requirements, threats, limiting factors, full life cycle migratory connectivity, and population responses to habitat conservation activities; testing of biological and conservation delivery assumptions; social science research that informs and facilitates conservation delivery; and use of Geographic Information Systems, modeling, and similar tools to identify bird habitat focus areas and further bird conservation planning efforts.

EXAMPLES OF FUNDED PROJECTS:

2017 Program has not yet selected projects for funding, but anticipates funding projects that (1) increase the utility of the Midwest Avian Data Center, (2) build monitoring capacity of the Midwest Migration Network, (3) build technical capacity for strategic conservation of grassland birds, and (4) resolve migratory connectivity and full life cycle management issues for Common, Black, and Caspian terns, Bobolink, and Wood Thrush. 1) Surveys of Double-crested Cormorants and other colonial birds in the Great Lakes region, (2) development of monitoring protocols to evaluate success of the Minnesota Prairie Plan, (3) development of protocols for monitoring landbird occurrence and condition as migrants pass through the Upper Midwest, and (4) building engagement and capacity of Milwaukee inner-city communities through monitoring of Chimney Swifts, Common Nighthawks, and other urban bird species of concern. 2018 Program has not yet selected projects for funding, but anticipates funding projects that (1) build technical capacity for strategic conservation of grassland birds, (2) provide habitat management guidelines to States to support conservation of bird species of conservation concern, (3) increase support for birds in our urban centers, particularly among ethnically diverse communities, and (4) significantly advance the knowledge, methodology, or partner engagement that will further bird conservation in the Midwest. 2019 Program has not yet selected projects for funding, but anticipates supporting projects that relate to conservation partnership building and full life cycle focal bird species conservation.

CRITERIA FOR SELECTING PROPOSALS:

Proposals will be reviewed to determine how well they address the migratory bird program priorities outlined above and in a Notice of Funding Opportunity published annually on the Grants.gov website for CFDA 15.647. All applications received will be reviewed by a team of 4-5 USFWS wildlife biologists (GS-12 grade level or higher). (Any conflict of interest identified will require that a reviewer remove themselves from the evaluation process.) Each of the reviewers will independently score each proposal on a scale of 1-10 for each of the following criteria [criteria weights in brackets]: (1) relevance to the priorities and award requirements described or referenced in the NOFO [0.2]; (2) alignment with the

ASSISTANCE LISTINGS DESCRIPTIONS

DOI Priorities for Financial Assistance [0.1]; (3) novel contributions to, or significant advancement of, the knowledge, methodology, or partner engagement furthering bird conservation in the Midwest [0.2]; (4) clarity and justification of objectives relevant to overall project goals, and appropriateness of methodology designed to meet those objectives [0.2]; (5) demonstrated history of successful completion of similar projects by applicants, including nature of collaboration with relevant partners [0.1]; (6) budget within range of available program funds, and budget and timeline appropriate to attain successful completion of project [0.1]; and (7) partner match demonstrating applicant's commitment to project success [0.1]. Scores will be summed across all criteria for all reviewers; project proposals will then be ranked and grants awarded in priority order, subject to available funding, unless all reviewers agree that a particular proposal scored so low that the risk of failure or likelihood of inappropriate product is too great to justify an award.

15.648 Central Valley Project Improvement Act (CVPIA)

CVPIA.

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Central Valley Project Improvement Act Fish and Wildlife Restoration Activities,
Pub. L. 102-575, 106 STAT. 4714, 3406(b)(16)

OBJECTIVES:

(a) To protect, restore, and enhance fish, wildlife, and associated habitats in the Central Valley and Trinity River basins of California; (b) To address impacts of the Central Valley Project on fish, wildlife and associated habitats; (c) To improve the operational flexibility of the Central Valley Project; (d) To increase water-related benefits provided by the Central Valley Project to the State of California through expanded use of voluntary water transfers and improved water conservation; (e) To contribute to the State of California's interim and long-term efforts to protect the San Francisco Bay/Sacramento-San Joaquin Delta Estuary; (f) To achieve a reasonable balance among competing demands for use of Central Valley Project water, including the requirements of fish and wildlife, agricultural, municipal and industrial and power contractors.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds may be used for research to improve management and increase Anadromous fish resources; spawning area improvement; installation of fish passages; construction of fish protection devices, and data collections. No other Federal agencies may apply for award opportunities. Agreements will be awarded for projects that will result in attaining the objectives noted above and the mandates set out in the CVPIA. Areas of emphasis include fish and wildlife restoration activities and investigations, evaluation of ecologic and hydrologic effects of existing and alternative operations of water facilities and systems, the effects of the CVP on anadromous fish populations, and delivery of refuge water supplies. The Secretary of the Interior is authorized and directed to promulgate such regulations and enter into such agreements as may be necessary to implement the intent, purposes and provisions of Title XXXIV. This title does not and shall not be interpreted to authorize construction of water storage facilities. For further information, please contact the regional office.

EXAMPLES OF FUNDED PROJECTS:

2018 1) Construction for Phase 1 of the Hallwood Habitat Restoration is scheduled to be completed in 2018. This project removes nearly 1 million cubic yards of material from the Yuba River Middle Training wall and construct 1.3 miles of seasonal side channels and enhance 90 acres of floodplain habitat. 2) Monitoring of juvenile Chinook Salmon outmigration using rotary screw traps on the Stanislaus River will be conducted. 3) Mokelumne River spawning and rearing habitat projects will be funded. 2017 1)CVPIA is working to restore floodplain as part of the Dos Rios Project at the confluence of the San Joaquin and Tuolumne Rivers.2)CVPIA expects to begin implementation of two large scale restoration on the Yuba River, the Yuba Rivers Narrow Restoration project and the Yuba River Hallwood Floodplain Restoration Project. 1) The CVPIA has completed project planning and permitting for two large scale habitat restoration projects on the Yuba River. Actual restoration is planned to begin in the spring of 2018. 2) The Stanislaus River Buttonbush habitat restoration project was completed in FY 2017. This project restored 4.4 acres of habitat and excavated 10,000 cubic yards of material while adding 2,800 cubic yards of appropriately sized gravel to the restoration area. In addition 2,400 linear feet of side channel was created. 3) The Mokelumne River habitat restoration project. 2019 CVPIA has not yet selected projects for funding. CVPIA anticipates funding projects that (a) protect, restore, and enhance fish, wildlife, and associated habitats in the Central Valley and Trinity River basins of California; (b) address impacts of the Central Valley Project on fish, wildlife, and associated habitats; (c) improve the operational flexibility of the Central Valley Project; (d) increase water-related benefits provided by the Central Valley Project to the State of California through expanded use of voluntary water transfers and improved water conservation; (e) contribute to the State of California's interim and long-term efforts to protect the San Francisco Bay/Sacramento-San Joaquin Delta Estuary; and (f) achieve a reasonable balance among competing demands for use of Central Valley Project water, including the requirements of fish and wildlife, agricultural and municipal, industrial and power contractors.

CRITERIA FOR SELECTING PROPOSALS:

Proposals will be reviewed by a team of Federal staff based on the following criteria: Addresses high priority need as described in the Request for Proposal (RFP) "Purposes and Funding Priorities"; Clearly stated goals, objectives, hypotheses, and relevance of idea; Approach is valid and technically sound; Primary Investigators and/or subcontractors record of performance and expertise; Budget is reasonable and provides good value for funds requested; and Cost

sharing or in-kind contributions.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: A single cooperative agreement was funded to implement the program nationally. In addition to completing national outreach efforts, the cooperative agreement recipient provided subgrant award opportunities to state fish and wildlife agencies and other organizations for programs to increase fishing and boating participation. Federal funds were leveraged by \$10,162,524 of cash and in-kind contributions. Fiscal Year 2018: A Notice of Funding Opportunity for a multi-year cooperative agreement to implement the program was issued. Funding will continue to be used to implement the program nationally. A cooperative agreement will be funded to implement tactics identified in the Strategic Plan for the National Outreach and Communication Program. Subgrant award opportunities for pilot projects and regional or state level programs will likely be available. Fiscal Year 2019: Funds will be awarded to the cooperative agreement recipient selected in FY18 to implement strategies identified in the programs strategic plan. Specific examples will likely include projects with state fish and wildlife agencies, innovative education programs designed to educate the public on places to fish and boat, and programs targeted at increasing youth and underserved populations participation in fishing and boating.

EXAMPLES OF FUNDED PROJECTS:

2017 A single cooperative agreement is being funded from this program. The recipient is expected to maintain a national web site that provides information needed to go fishing and boating. The recipient is continuing innovative programs that seek to increase fishing and boating participation by minorities and other underrepresented groups, such as a partnership with the Disney Corporation. A single cooperative agreement was funded from this program. The recipient used program funds to develop and distribute various conservation stories and a public service announcement that informed consumers about the role that anglers and boaters have in funding conservation. These efforts resulted in 994 million media impressions on conservation. The recipient developed a pilot angler retention program with the Georgia Department of Natural Resources that resulted in increased fishing license sales and revenue. In addition, program funds were also used to continue a boat registration reactivation program with state agencies. This effort resulted in more than 51,000 additional boat registrations nationwide. 2019 Funding will be used to implement tactics identified in the programs strategic plan. These tactics will include educational and outreach efforts that reduce barriers to fishing and boating participation. Projects will be done with state fish and wildlife agencies and other stakeholders. 2018 Program funding will be used to maintain national and state level campaigns that promote fishing and boating participation and that provide the public with information needed to go fishing and boating. Program funding will also be used for the initial year of the pilot First Catch Centers in Pennsylvania and Texas. These centers provide the public with skills and training needed to learn how to fish and will provide repeated fishing opportunities throughout the year to increase anglers skills and abilities.

CRITERIA FOR SELECTING PROPOSALS:

15.655 Migratory Bird Monitoring, Assessment and Conservation

(Migratory Bird),

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Fish and Wildlife Act, 16 U.S.C. 742 et seq.; Fish and Wildlife Coordination Act, 16 U.S.C. 661-666; Fish and Wildlife Conservation Act, 16 U.S.C. 2901 et seq.; Migratory Bird Treaty Act, 16 U.S.C. 703 et seq.

OBJECTIVES:

Working with others to conserve, enhance, and better understand the ecology and habitats of migratory bird species.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Grants and payments may be used for the conservation of any bird species protected by the Migratory Bird Treaty Act. Special emphasis will be placed on bird species listed in USFWS conservation and management priorities documents (e.g. USFWS Birds of Conservation Concern 2008, Focal Species list). Implementing national, regional, flyway Bird Conservation Region, and state-level bird conservation plans (e.g., Partners in Flight North American Landbird Conservation (<http://www.partnersinflight.org>), U.S. Shorebird Conservation Plan (<https://www.fws.gov/birds/management/bird-management-plans/the-us-shorebird-conservation-plan.php>) North American Waterbird Conservation Plan (<https://www.fws.gov/birds/management/bird-management-plans/waterbird-conservation-for-the-americas.php>) are among the Service's highest priorities. Projects related to the priorities identified in these plans will receive the greatest funding consideration. Projects should address one or more of the following activities: a) Population surveys and monitoring to determine the health, status, trends, and distribution of bird species and groups of concern. Emphasis will be placed on landscape-level applications of standardized inventory and monitoring protocols (e.g., Breeding Bird Atlases, national marshbird call playback surveys). Local-scale monitoring (e.g., local land management units) activities will generally not be a focus of this program; b) Applied research, including but not limited to, studies of habitat requirements, limiting factors, and population responses to habitat conservation activities; development of new monitoring techniques and programs for poorly-surveyed species; use of Geographic Information Systems, bird habitat modeling, and similar tools to identify bird habitat focus areas and further bird conservation planning efforts; and investigation of avian mortality events and monitoring of health and disease problems; c) Compilation of technical information, such as status reviews of bird species of concern, development of habitat management and restoration guidelines, disseminating updates and providing training about current and emerging diseases which impact migratory bird populations, and other outreach and education programs including programs structured towards youth and connecting people with nature. Habitat management projects are generally not covered under this program. For further information, please contact the regional office.

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

This opportunity is limited to projects carrying out actions described in a species' approved recovery plan, in the implementation schedule of a species' approved recovery plan, actions recommended in complete 5-year status review of the species or in a spotlight species action plan, or projects documenting species' response to climate change. These are discretionary funds that are used for project purposes to help ensure the use of the best available scientific information in making management decisions. The percentage of funds set aside for discretionary activities varies each year.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Profit organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); State and local government agencies. Institutions of higher education, including public, private state colleges and universities, nonprofits that have 501(c)(3) status with the IRS, Native American tribal organizations (other than recognized tribal governments), city, county or township governments, individuals, Native American tribal governments (federally-recognized), for-profit organizations, and small businesses.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Small business; Private nonprofit institution/organization; Native American Organizations; State; Local; Public nonprofit institution/organization; Federally Recognized Indian

Credentials/Documentation:

Costs will be determined in accordance with 43 CFR Part 12, Subpart C, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." Section 12.62 (of the common rule), identifies Federal cost principles for determining allowable cost. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. FWS Regional and Field Office contacts can provide specific information on the amount of funding available, as well as Regional recovery priorities. We encourage you to contact the appropriate FWS Regional and Field Office contacts to discuss potential projects. If funding is available and the potential project addresses a high priority Regional recovery need, then the Regional contact will refer the potential applicant of the appropriate FWS Ecological Services Field Office for further coordination.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Awards will be announced by August 1 of each Fiscal Year via letters sent directly to the applicants. No work may begin on a project until the appropriate legal contracting or procurement documents, and the required environmental compliance documents, have been signed by the authorized FWS official. Unsuccessful applicants will be notified either by letter, fax, email or by telephone.

Deadlines:

July 31, 2018. July 31, 2018.

Range of Approval/Disapproval Time:

From 120 to 180 days. Applications are due by July 2 of each year so that the proposal selection and funding process can be completed before the end of each Fiscal Year (September 30). However, you may submit applications throughout the year. Consideration of applications will ultimately be based on the FWS budget cycle. We encourage partners (especially existing partners who already have a working relationship with local FWS Field Offices) to talk to the local FWS Field Offices about possible project ideas and submittal timeframes.

Appeals:

Not Applicable.

Renewals:

>180 Days. However, project applicants are not prohibited from submitting applications for consideration for subsequent funding for multi-year projects though there is no governmental guarantee that multiple years of the project will be funded.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Reports:

Recipients of Recovery Implementation funding will be required to provide a written final report for each funded project detailing project results. If a project is funded for more than one year, the recipient will be required to provide a written, annual report at the end of each year detailing the status of each project, in addition to the final report when the project is completed. In general, OMB Circulars A-102 Sections 40 and 41, and 2 CFR 215 specify requirements for both financial and program performance reporting. A performance report is due annually within 90 days of the anniversary of the start date of the funding award and a final report is

due 90 days after the funding expiration. Award recipients may be required to complete the following financial form: Standard Form (SF)-425, Federal Financial Report Recipients are responsible for monitoring and reporting performance each award and sub-award under this program in accordance with 2 CFR 200 and 2 CFR Part 170.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Records must be maintained for 3 years following the submission of the final expenditure report or until final action has been taken on any litigation, claim or audit finding.

EXAMPLES OF FUNDED PROJECTS:

2018 Should funding become available, the Service intends to continue to fund conservation actions including securing scientific information about endangered or threatened species, implementing restoration actions that will lead to delisting of a species, help prevent extinction of a species, or aid in the recovery of a species. 2017 Should funding become available, the U.S. Fish and Wildlife Service (Service) intends to fund projects that contribute to the recovery of Service-managed endangered and threatened species in the United States. Projects that address species response to climate change receive additional consideration. Examples of projects funded in FY 2017 include a \$400,000 award to the University of Hawaii Pacific Cooperative Studies Unit to fund the Plant Extinction Prevention Program. The mission of this program is to protect Hawaii's rarest native plants from extinction by managing wild plants, collecting seeds and establishing new populations. A \$30,000 award will be used in the State of Idaho to

fund the Selkirk Recovery Zone Grizzly Bear Research and Monitoring project. This project will aid in evaluating the population trend, status, and distribution of the Selkirk grizzly bear population while providing vital information to develop a seasonal habitat predictive model. The information will be used to promote conservation of this threatened species. Finally, a \$20,000 grant will be used in California to fund surveys and assessments to determine population, demography, and basic ecology of the Mojave shoulderband snail. 2019 Should funding become available, the Service intends to continue to fund conservation actions including securing scientific information about endangered or threatened species, implementing restoration actions that will lead to delisting of a species, help prevent extinction of a species, or aid in the recovery of a species.

CRITERIA FOR SELECTING PROPOSALS:

15.658 Natural Resource Damage Assessment and Restoration

(NRDAR),

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Federal Water Pollution Control Act, 33 U.S.C 1251-1387; Oil Pollution Act, 33 U.S.C. 2701 et seq.; Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C 9601, et seq.; and Fish and Wildlife Act, 16 U.S.C 742 et seq.

OBJECTIVES:

To restore natural resources injured by oil spills or hazardous substance releases. This is to be done by Natural Resource Trustees; seeking and identifying natural resources injured, determining the extent of the injuries, recovering damages from responsible parties, and planning and carrying out natural resource restoration activities. The purpose of the Natural Resource Damage Assessment and Restoration (NRDAR) Program is to restore natural resources and their services that have been injured by an oil spill or hazardous substance release for the benefit of the American people. This is done by Natural Resource Trustees, including the U.S. Fish and Wildlife Service. We identify natural resources and their services that have been injured, determine the extent of the injuries, recover damages from responsible parties, and plan and carry out natural resource restoration activities.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Assistance is provided to fund NRDAR-related activities that fall under two main sub-activities: 1) assessment, and 2) restoration. Assessment activities are funded from either appropriated funds or recovered past assessment costs. While assessment funding is discretionary, the U.S. Fish and Wildlife Service and other DOI Bureaus involved in NRDAR cases work as collaboratively as possible with our co-Trustees (e.g., states, federally-recognized tribes, and other federal agencies with natural resource management responsibilities that were impacted by the specific NRDAR case) when deciding what assessment activities to conduct and when to offer financial assistance for specific assessment activities. Assessment activities support the specific NRDAR case and legal claim, and can include identifying the natural resources injured and any loss of services they provide (such as recreation), determining the extent of the injuries, scaling restoration costs and projects to the injuries, and determining damages (i.e., cost) necessary to restore the injured natural resources and services. Restoration activities are funded from NRDAR case-specific settlement funds that were paid by the responsible party (or parties) to all Natural Resource Trustees that were part of the NRDAR claim. These funds are non-discretionary as their use is dictated by the court consent decree (CD) or the court-lodged settlement for the case. Furthermore, all Natural Resource Trustees must unanimously approve the expenditure of case settlement funds on restoration activities, through the administrative body of a Trustee Council (TC) and a TC Resolution. Additionally, the TC produces a restoration plan(s), which is publicly reviewed, that further directs how settlement funds are to be spent and the type of restoration projects and activities that can be conducted.

Again, this restoration plan(s) involves the unanimous approval of all TC members before it can be finalized and implemented. Restoration activities are intended to restore, replace, or acquire the equivalent of the injured natural resources and their services. They can include the planning, implementation, and monitoring of restoration projects; the acquisition of land (for replacement of habitat, the benefit of injured wildlife species, and the benefit of the public); the creation of habitat, such as aquatic habitat in a stream or lake; and the creation, improvement, or enhancement of natural resource services, such as boating, hiking, and fishing opportunities, to replace lost services. All assistance provided for NRDAR activities, both assessment and restoration, must meet the intent of the NRDAR Program as well as the specific needs of a given NRDAR case.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: In FY16, there were a few restoration projects that resulted in an unusually large number of acres managed/protected or made available for recreational opportunities. Therefore, we anticipate FY accomplishments to include approximately 4,000 acres and 100 miles of habitat enhanced or restored, 150,000 acres and 200 miles of habitat managed or protected, and 29,000 acres and 200 miles made available for recreational opportunities. We based this estimate on the 4 year average for each category. More than 6,000 acres and 200 streams/shorelines were enhanced and/or restored. More than 20,000 acres were newly managed, and more than 4,500 acres were protected through fee title or conservation easement. Nearly 400 river miles and 3,500 acres were made available for recreational opportunities. A total of 85 restoration projects were completed. Of those 85 projects, 26 projects benefited threatened or endangered species, 56 projects benefited migratory birds, 30 projects benefited interjurisdictional fishes, and 1 project benefited marine mammals (some projects benefited more than one trust resource category). Fiscal Year 2018: We anticipate accomplishments similar to those reported for FY17. Fiscal Year 2019: We anticipate accomplishments similar to those reported for FY17.

EXAMPLES OF FUNDED PROJECTS:

2017 FY17 and FY18: We have not selected projects for funding. Project selection occurs on a local or regional basis and can occur throughout the FY. We anticipate funding projects to restore trust species and their habitats to compensate for injuries from hazardous substance releases and oil discharges. FY17: In FY17, the Exxon Valdez Oil Spill Trustee Council, through the U.S. Fish and Wildlife Service (Service), continued a cooperative agreement with Great Land Trust, an Alaskan non-profit organization that specializes in working in voluntary partnerships with landowners, agencies, communities and other partners to improve the quality of life and economic health of Alaskan communities within the area impacted by the Exxon Valdez oil spill. Habitat protection and acquisition is part of the Trustee Councils overall strategy to offset the harm done by the oil spill to marine and

coastal natural resources, their habitats, and the human uses of those natural resources, in accordance with the 1991 natural resource damages civil settlement with the Exxon Corporation. Using the Trustee Councils habitat prioritization process, Great Land Trust worked in FY17 with the State of Alaska, the Kodiak Island Borough, the native village corporation Lesnoi, Inc., and Trustee Council representatives, including the Service, to achieve the conservation and protection of 1,058 acres of habitat important for marine birds, sea otters, juvenile fish, and many other natural resources at Kodiak Island, including approximately 4.6 miles of coastal shoreline, 57 acres of freshwater and coastal wetlands, and 1,001 acres of upland habitat. The project provides for public access to the area for recreational and subsistence fishing, hiking, camping, bird and whale watching, and Native Alaskan cultural uses. The area is now managed by the Kodiak Island Borough for the benefit of the public. A restoration project was initiated in FY17 using funding from a Natural Resource Damage Assessment and Restoration settlement with multiple responsible parties who were involved in the release of PCBs into the Fox River and Green Bay in Wisconsin. The ultimate objective of the project is to restore and enhance fish and wildlife habitat associated with coastal wetlands of Lower Green Bay, with specific benefits to northern pike (*Esox lucius*), waterfowl, and marsh birds. The outcomes of this project will be the establishment of 30 acres of aquatic vegetation, the protection of coastal shoreline wetland habitat, the enhancement and management of 26 acres of coastal wetlands, and the creation of 5 acres of pike spawning habitat. Secondary outcomes include benefits to water quality, property values, aesthetics, cultural awareness, and restoration ecology. Specific accomplishments will include: installing engineered log jams to increase woody habitat, promote vegetation establishment, and protect the shoreline; establishing 30 acres of source vegetative plant communities by seeding and planting wild celery, wild rice, and hard-stem bulrush; and enhancing 26 acres of coastal wetlands and establishing 5 acres of pike spawning habitat at the Ken Euers Nature Area, a park owned and managed by the City of Green Bay. In FY17, the U.S. Fish and Wildlife Service (Service) provided funds to the Ousatonik Fish and Game Protective Association (OFGPA) to prepare a design for restoring the East Aspetuck River, a tributary to the Housatonic River in northwest Connecticut. The OFGPA is working with the Service to remove an antiquated dam and reconnect 10.1 miles of free-flowing riverine habitat for coldwater fish. The design was recently submitted for approval to state and federal regulators. In FY18, the Service hopes to provide additional funds to project partners to remove the dam and restore riparian habitat. The OFGPA is a small club devoted to fishing, hunting, land and water preservation, and public education. They hope to create improved fishing access at the site of the dam and educate the public about the river restoration effort once its completed. The river restoration and fishing access improvements are intended to help compensate for injuries to the Housatonic River that resulted from years of upstream PCB contamination from the General Electric facility in Pittsfield, Massachusetts. The Housatonic River Natural Resource Damage Trustees, including the Service, have funded more than 50 restoration projects with settlement funds. In FY17, an Eastern Hellbender restoration project was funded with Richardson Road Landfill Superfund Site (RHLSS) Natural Resource Damage Assessment and Restoration settlement funds. So far, the Wetlands Trust has acquired 5 acres along Butternut Creek and is about to close on an additional 7 acres - all of which is historic or known hellbender habitat. All of the acquired acres will be protected, and habitat restoration (the addition/creation of habitat rock and juvenile rearing huts) will be conducted along 2,500 feet of the creek. Funds are also supporting the rearing of approximately 100 hellbenders at a facility managed by the Wetland Trust in Unadilla, New York. This project compensates for impacts to aquatic habitat in the watershed as a result of contaminant releases from the RHLSS and supports the goal to protect habitat and encourage its public use. In FY17, a study was initiated that will identify specific physical factors that determine freshwater mussel habitat in the Big River within the Southeast Missouri Lead Mining District (SEMO). The study will help differentiate physical habitat factors from toxicological factors influencing mussel distribution in the Big River by modeling remotely-sensed and physical stream characteristics. The study will compare these physical habitat factors between reference streams and contaminated reaches of the Big River. The U.S. Fish and Wildlife Service and the Missouri Department of Natural Resources will use the results of this study to refine the assessment portion of their Natural Resource Damage Assessment and Restoration case, which seeks to restore natural resources, including freshwater mussel habitat in the Big River, that have been negatively impacted by historical and current lead mining activities. The study was funded using appropriated (discretionary) NRDAR assessment dollars. 2019 We have not selected projects for funding.

ASSISTANCE LISTINGS DESCRIPTIONS

Project selection occurs on a local or regional basis and can occur throughout the FY. We anticipate funding projects to restore, replace, and/or acquire the equivalent of natural resources and their services that have been injured from oil spills or hazardous substance releases. 2018 We have not selected projects for funding. 15.660 Endangered Species - Candidate Conservation Action Funds

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

ASSISTANCE LISTINGS DESCRIPTIONS

Endangered Species Act, 16 U.S.C. 1531 et. seq.; and Land and Water Conservation Fund Act, 54 U.S.C. 200302 et seq.; 16 U.S.C. 460l(el)-4 to 460l(el)-11 (prior to 2015)

OBJECTIVES:

The objective is to secure candidate and other at-risk species information or undertake restoration actions that will help avert federal listing of species. The purpose is to provide a means by which the ecosystems upon which candidate and at-risk species depend may be conserved, to provide a program for the conservation of these species.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants), Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The assistance can be used for Candidate Conservation. Funding may be used for actions related to: (1) the development of scientific information that is useful in supporting candidate assessments, conservation actions and candidate conservation agreements; (2) reduce threats to a candidate and other high priority species, such as propagation of imperiled freshwater mussels; or (3) conservation of candidate species, such as biological field work to conduct species surveys; or (4) in a spotlight species action plan, or projects documenting species' response to climate change. These are discretionary funds that are used for project purposes to help ensure the use of the best available scientific information in making management decisions. The percentage of funds set aside for discretionary activities varies each year.

Applicant Eligibility:

Anyone/general public; Natural Resources

Beneficiary Eligibility:

Anyone/general public; Anyone/general public

Credentials/Documentation:

. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. FWS Regional Field Office contacts can provide specific information on the amount of funding available, as well as Regional recovery priorities. We encourage you to contact the appropriate FWS Regional and Field Office contacts to discuss potential projects. If funding is available and the potential project address a high priority Regional candidate conservation need, then the Regional contact will refer the potential applicant of the appropriate FWS Ecological Services Field Office for further coordination.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The following Federal regulations apply to this program: (1) Federal Acquisition Regulation Subpart 31.2; 2 CFR Parts 215, 220, 225, 230; 43 CFR Part 18; and 48 CFR 31. The following OMB Circulars apply to this program: OMB Circular No. A-102 and A-133. Applicant must complete the Standard Form (SF) 424, and the appropriate Budget and Assurances Forms (SF 424A and SF 424B - Non-construction; or SF 424C and SF 424D - Construction). Applicants must also submit a project summary page, and a project description. The project description section of the application should address the evaluation factors identified in the Full Announcement posted on www.grants.gov.

Award Procedure:

Awards will be announced by August 1 of each Fiscal year via letters sent directly to the applicants. No work may begin on a project until the appropriate legal contracting or procurement documents, and the required environmental compliance documents, have been signed by the authorized FWS official. Unsuccessful applicants will be notified either by letter, fax, email or by telephone.

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Fish and Wildlife Coordination Act, 16 U.S.C. 661-666; Endangered Species Act, 16 U.S.C. 1531 et. seq.; and Omnibus Public Land Management Act of 2009Wolf

ASSISTANCE LISTINGS DESCRIPTIONS

Compensation and Prevention Program, Pub. L. 111-11, 123 STAT. 1171, 6202(a)
OBJECTIVES:

To provide federal financial assistance to livestock producers undertaking proactive, non-lethal activities to reduce the risk of livestock loss due to predation by wolves and to compensate livestock producers for livestock losses due to such predation.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

This financial assistance opportunity can be used by eligible States and Indian tribes in supporting projects that assist livestock producers in undertaking proactive, non-lethal activities to reduce the risk of livestock loss due to predation by wolves or to compensate livestock producers for livestock losses caused by wolves. Appropriated funds will be divided equally in support of these two objectives. The creation of two separate sources of funding will allow the Service to ensure that the two objectives of the program: 1) assisting livestock producers in undertaking proactive, non-lethal activities to reduce the risk of livestock loss due to predation by wolves and 2) compensating livestock producers for livestock losses caused by wolves, are addressed equally. Qualifying projects must include at a minimum a 50 percent non-Federal cost share.

Applicant Eligibility:

Government - General; Federal; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); State governments/agencies Indian tribes as defined in Public Law 111-11

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Anyone/general public; Farmer/Rancher/Agriculture Producer; Small Business Person; Land/Property Owner; Individual/ Family/Small Business/Profit Organization/Private Organization/Anyone/ General Public/Farmer/ Rancher/ Agricultural Producer/Small Business Person/Land/ Property Owner

Credentials/Documentation:

Funds are available only to States and Indian tribes with prior history of wolf depredation. To be eligible to receive a grant, a State or Indian tribe must (1) designate an appropriate agency of the State or Indian tribe to administer the one or more programs funded by the grant; (2) establish one or more accounts to receive grant funds; (3) maintain files of all claims received under programs funded by the grant, including supporting documentation; (4) submit annual reports to the Secretary of the Interior that include a summary of claims and expenditures under the program during the year, a description of any action taken on the claims, and such other reports as the Secretary may require to assist the Secretary in determining the effectiveness of activities provided assistance through this program; (5) promulgate rules for reimbursing livestock producers under the program. Applicants are also required to fully assess any claim of livestock depredation prior to issuing payment. OMB Circular No. A-87 applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Eligible State and Tribal applicants are encouraged to contact the appropriate Regional Coordinators to ensure all eligibility, credentials, and documentation requirements are met prior to application. An incomplete application will not be considered for funding. An eligible State or Indian tribe may apply for either or both sources of funding, but a separate application must be provided for each source of funding.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Eligible State and Tribal applicants must submit a project narrative identifying that they will adhere to P.L. 111-11. Applicants must also provide an Application for Federal Assistance (SF 424) and supporting information. This form must be signed by the official with the authority and responsibility to commit the State or Tribal body to participate in the program. An eligible State or Indian tribe may apply for either or both sources of funding.

Award Procedure:

Awards to eligible State and Indian tribes will be made as grants based on 1) the

level of livestock predation in the State or on the land owned by, or held in trust for the benefit of, the Indian tribe; 2) whether the State or Indian tribe is located in a geographic area that is at high risk for livestock predation; 3) any other factors that the Secretary of the Interior determines appropriate.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. 120 days

Appeals:

Other. Decisions can be appealed to the Fish and Wildlife Service, Chief, Endangered Species Division of Consultation, Habitat Conservation Planning, Recovery, and State Grants. Final determination rests with the Secretary of the Interior.

Renewals:

Not Applicable. None. However, project applicants are not prohibited from submitting applications for consideration for funding in a subsequent year.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. To meet the two objectives of the program, awards to eligible State and Indian tribes will be made as grants based on 1) the level of livestock predation in the State or on the land owned by, or held in trust for the benefit of, the Indian tribe; 2) whether the State or Indian tribe is located in a geographic area that is at high risk for livestock predation; 3) any other factors that the Secretary of the Interior determines appropriate. Qualifying projects must include at a minimum a 50 percent non-Federal cost share. The cost share may be cash or a third party in-kind contribution, such as volunteer efforts and donations of goods or services. MOE requirements are not applicable to this assistance listing.

15.667 Highlands Conservation

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Highlands Conservation Act, Pub. L. 108-421, 118 STAT. 2375, 2(2); and
Emergency Wetlands Resources Act - National Wetlands Inventory, 16 U.S.C.
3901 and 3931-3932.

OBJECTIVES:

To conserve priority lands and natural resources and recognize the importance of

the water, forest, agricultural, wildlife, recreational, and cultural resources, and the national significance of the Highlands region of the United States. Preserve and protect high-priority conservation land in the Highland regions.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

A state or state agency with authority to own and manage land located within the Highlands region may use a land conservation partnership project to acquire conservation-valued land, either through fee acquisition or conservation easement, from a willing seller to permanently protect, conserve, or preserve land. Project lands of conservation value are identified by the U.S. Forest Service, Department of Agriculture, with input from pertinent units of local government and the public. The list of lands of conservation value is provided to the governors of the states within the Highlands region. The list of projects to be funded is submitted to the Secretary of the Interior, who, along with the Secretary of Agriculture, submits the eligible project list to Congress. The Federal grant share of the land conservation partnership project will not exceed 50 percent of the total cost of partnership to acquire conservation-valued land.

Applicant Eligibility:

State; Any state or state agency with authority to own and manage land located within the Highlands region for conservation purposes may apply by identifying the source of non-Federal funds, describing the management objectives for the project land, identifying the purpose of the use of the land, and providing that the land will not be converted, used or disposed of for a purpose inconsistent with land conservation.

Beneficiary Eligibility:

State; Beneficiaries are states or state agencies with authority to own and manage land within the Highlands region for conservation purposes, including the Palisades Interstate Park Commission.

Credentials/Documentation:

Must be a state or state agency with the authority to own and manage land within the Highlands region for conservation purposes. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. The U.S. Forest Service, Department of Agriculture, is responsible for conducting the resource assessment and preparing the Highlands project lands of conservation value update for the states involved. The U.S. Forest Service will identify in the update the lands that have high conservation value.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. It is the responsibility of the Highland states to submit projects to the Department of the Interior for funding. The Highland states may do this individually or they may jointly submit land conservation partnership projects.

Award Procedure:

The U.S. Forest Service is responsible for doing the resource assessment and preparing the priority land update for the states involved. The U.S. Forest Service will identify in the update the lands that have high conservation value. Only lands available from willing sellers will be considered in the program. The Department of the Interior (DOI) has the sole responsibility for project grants. The states will apply directly to DOI for project funding. The DOI will award grants to the States or their entities for the acquisition of land, or interests in land, for conservation purposes in the Highlands.

15.668 Coastal Impact Assistance

(CIAP),

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

Outer Continental Shelf (OCS) Lands Act, as amended; 31 U.S.C. 6301-6305.

OBJECTIVES:

The intent of the program is to disburse funding to eligible producing states and coastal political subdivisions for the purpose of conservation, protection, or restoration of coastal areas including wetlands; mitigation of damage to fish, wildlife, or natural resources; planning assistance and the administrative costs of complying with these objectives; implementation of a federally-approved marine, coastal, or comprehensive conservation management plan; and mitigation of the impact of outer Continental Shelf activities through funding of onshore infrastructure projects and public service needs.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The intent of the program is to disburse funding to eligible producing states and coastal political subdivisions for the purpose of conservation, protection, or restoration of coastal areas including wetlands; mitigation of damage to fish, wildlife, or natural resources; planning assistance and the administrative costs of complying with these objectives; implementation of a federally-approved marine, coastal, or comprehensive conservation management plan; and mitigation of the impact of outer Continental Shelf activities through funding of onshore infrastructure projects and public service needs.

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); States eligible to receive funding are Alabama, Alaska, California, Louisiana, Mississippi, and Texas and 67 coastal political subdivisions among the six States.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); The producing coastal states, their eligible coastal political subdivisions, and the public will ultimately benefit from the program.

ASSISTANCE LISTINGS DESCRIPTIONS

Credentials/Documentation:

Yes. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Prior to submitting any grant applications, an eligible State must submit a State Plan that provides detail on how a State and its Coastal Political Subdivisions (CPS) will use the CIAP funds and implement the State plan. An applicant should consult the office or official designated as the single point of contact in his or her State for more information on this process when applying for assistance and on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

15.670 Adaptive Science

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE AUTHORIZATION:

The Fish and Wildlife Act, 16 U.S.C. 742a-742j, not including 742 d-1; National Wildlife Refuge System Administration Act, 16 U.S.C. 668dd-ee; Endangered Species Act, 16 U.S.C. 1531 et seq.; Fish and Wildlife Conservation Act, 16 U.S.C. 2901 et seq.; Fish and Wildlife Coordination Act, 16 U.S.C. 661-666; and Migratory Bird Treaty Act, 16 U.S.C. 703 et seq.

OBJECTIVES:

The U.S. Fish and Wildlife Service (USFWS) uses a science-based, adaptive framework for setting and achieving broad-scale conservation objectives that strategically address the problems fish and wildlife will face in the future. This framework, called Strategic Habitat Conservation, is based on the principles of adaptive management and uses population and habitat data, ecological models, and focused monitoring and assessment efforts to develop and implement strategies that result in measurable fish and wildlife population outcomes. This process uses the best available scientific information to predict how fish and wildlife populations will respond to changes in the environment, thus enabling the USFWS to focus habitat conservation and other management activities where they will be most effective. In addition, the USFWS needs focused, applied science directed at high impact questions surrounding threats to fish and wildlife resources for which management and/or mitigation is required to maintain species at healthy, sustainable, desired levels. USFWS must base its decisions on the best science available, in order to defend its regulatory decisions, biological opinions and species conservation recommendations to land managers.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Support will be provided for science projects: to include species risk and vulnerability assessments, inventory and monitoring, population and habitat assessments, biological planning and conservation design, ecosystem services, traditional ecological knowledge management evaluation and research, decision support, data management, and conservation genetics; to identify and implement landscape-scale conservation solutions to such issues as adaptation, land use change, invasive species spread, and fire frequency changes; and to address high impact questions surrounding threats to fish wildlife, and plants, providing answers needed to manage species to healthy, sustainable, desired levels. Support will be provided for convening partners for collaborative conservation planning and prioritization; to articulate shared priorities; identify gaps in scientific knowledge and capacity; and complement and build upon each others efforts to avoid duplication while maximizing resources, to help federal, state, and tribal agencies fulfill our public trust responsibilities for fish and wildlife conservation. Support will be provided to communicate science information, tools, assessments, and other products. This program is administered in compliance with the Federal Grants and Cooperative Agreements Act of 1977, as amended. These funds may not be used towards training U.S. Federal Government personnel.

Applicant Eligibility:

Federal; Interstate; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals);

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Endangered Species Act, 16 U.S.C. 1531 et seq.

OBJECTIVES:

The goal of this grants program is to reduce threats to highly endangered wildlife in their natural habitat. Proposals should identify specific conservation actions that have a high likelihood of creating durable benefits, such as: Protection of at-risk populations; Veterinary/wildlife health interventions; Activities related to execution of species survival plans; Strengthening local capacity to conserve the target species; Actions addressing unsustainable exploitation; Efforts to mitigate or stop wildlife-human conflict; and Rehabilitation and rescue. Project activities that emphasize data collection and status assessment should describe a direct link to management action, and explain how lack of information has been a key limiting factor for management action in the past. Proposals that do not identify how actions will reduce threats, or do not demonstrate a strong link between data collection and management action, have a lower likelihood of being selected. Proposed project work should occur within the species range, or, if work is to be conducted outside of the range, the proposal should show a clear relevance to its conservation.

EXAMPLES OF FUNDED PROJECTS:

2018 Awards were made to the Nature Conservancy, The American Littoral Society, and the State of Maryland. These awards were to monitor and assess the impact of the previously awarded Hurricane Sandy Resiliency Cooperative Agreements. These projects were funded by the National Fish and Wildlife Foundation. The projects covered Gandys Beach in New Jersey, Wreck Pond in New Jersey, and Martins Island in Maryland. 2019 No new awards anticipated. 2017 We anticipate up to 25 new Monitoring and Assessment agreements across most of the existing Sandy Projects. These projects will evaluate the success/failure of the Recovery and Resiliency Project previously funded. There were two new awards. One to Rutgers University for the purpose of synthesizing work done on previously performed piping plover studies and the other to the State of Delaware to perform mosquito control at Prime Hook NWR. The funding modifications mitigated funding shortfalls in existing projects.

CRITERIA FOR SELECTING PROPOSALS:

Program specific criteria is specified in the announcements of individual financial assistance opportunities.

15.678 Cooperative Ecosystem Studies Units

(CESU),

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Fish and Wildlife Coordination Act, 16 U.S.C. 661-666; Endangered Species Act, 16 U.S.C. 1531 et seq.; Fish and Wildlife Conservation Act, 16 U.S.C. 2901 et seq.; Fish and Wildlife Act, 16 U.S.C. 742 et seq.; Migratory Bird Treaty Act, 16 U.S.C. 703 et seq.; Coastal Barrier Resources Act, 16 U.S.C. 3501 et seq.; and Public Lands Corps Act - Public Lands Corps, 16 U.S.C. 1721-1726.

OBJECTIVES:

The Cooperative Ecosystem Studies Units (CESU) Network is a national, collaborative consortium of federal agencies, tribes, universities, state and local governments, and other partners that provide scientific research, technical assistance, and education on natural and cultural resource issues to federal land management, environmental, and research agencies. There are currently 17 CESUs throughout the country. Each is comprised of a host university, multiple federal agencies, and additional academic and nonfederal partners. The mission of the CESU Network is to: Provide resource managers with high-quality scientific research, technical assistance, and education; provide resource managers with solid natural resource information; deliver research and technical assistance that is timely, relevant to resource managers, and needed to develop and implement sound adaptive management approaches; ensure the independence and objectivity of research; create and maintain effective partnerships among federal agencies and universities to share resources and expertise; take full advantage of university resources while benefiting faculty and students; provide research, technical assistance, and educational functions within the context of cultural, social, biological, and physical sciences; enhance the ability of Federal natural and cultural resource managers to generate, acquire, synthesize, act upon, and articulate to the public sound research and scientific information; encourage professional development of federal scientists and enhance their ability to manage federal science resources efficiently.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants), Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

CESU awards can be used for research, studies, assessments, monitoring, technical/scientific assistance, and educational services having to do with natural science or cultural resources.

Applicant Eligibility:

15.681 Cooperative Agriculture

FEDERAL AGENCY:

U.S. FISH AND WILDLIFE SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Fish and Wildlife Coordination Act, 16 U.S.C. 661666; Migratory Bird Conservation Act, 16 U.S.C. 715 et seq.; National Wildlife Refuge System Administration Act, 16 U.S.C. 668dd-ee; and Refuge Revenue Sharing Act, 16 U.S.C. 715s.

OBJECTIVES:

The objectives for the use of cooperative agriculture in the National Wildlife Refuge System (NWRS) are: Production or modification of specific cover types and/or growing methods that meet the life history requirements of species for which we have established objectives (e.g., waterfowl production); and Production of foods for wildlife species for which we have established objectives or maintenance, rehabilitation, or reestablishment of natural habitat.

TYPES OF ASSISTANCE:

Use of Property, Facilities, and Equipment

USES AND USE RESTRICTIONS:

.

Applicant Eligibility:

Individual/Family; Small business (less than 500 employees); Other private institutions/organizations; Applicants must be private individuals or small business entities.

Beneficiary Eligibility:

Individual/Family; Small business; Other private institution/organization; Selected cooperators who conduct cooperative agriculture on NWRS lands under this program, excluding coordination areas (which are areas managed by the Service in coordination with the States).

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The program will post an annual Notice of Participation Opportunity on Grants.gov. The annual notice will provide a link to the NWRS website where individual cooperative agricultural opportunities will be posted as they become available (<https://www.fws.gov/refuges/>). Individual cooperative agriculture opportunities will also be advertised through other national, regional, and local outreach channels as determined by the Service to be appropriate. The notice for each new opportunity will include a general description of the opportunity, the objective criteria the Service will use to evaluate applicants, the application due date, and application instructions. Individual cooperative agriculture agreements are typically approved for a 3-5 year period. Once that period ends, the Service will determine if those same cooperative agriculture activities should continue. If the Service will continue those same cooperative agriculture activities, a new individual cooperative agriculture opportunity will be posted on the NWRS website and made

available for eligible entities to apply. In general and at a minimum, applicants must provide completed FWS Form 3-1383- C (<https://www.fws.gov/forms/3-1383-C.pdf>) to apply for a cooperative agricultural opportunity. The Service will accept applications at the local refuge or complex office listed in the Notice in compliance with the terms and conditions in the Notice.

Award Procedure:

The Service will score each application based on the objective criteria outlined in the NOFO, specific opportunity requirements, and factors that make a potential recipient uniquely qualified. The Service will select the applicant best suited to conduct cooperative agriculture on NWRS lands. The Service will notify all applicants individually within 90 days after the closing of the opportunity notice. Unsuccessful applicants will be notified in writing describing why they were unsuccessful and of their right to appeal any adverse decision in accordance with 50 CFR 25.45.

Objective criteria may vary depending on the needs and objectives of a refuge (or other NWRS lands). Objective criteria may include: (1) Experience in the type of agricultural opportunity posted, especially personal experience on NWRS lands or comparable land; (2) Experience and ability to successfully cultivate crops or produce specific cover types and/or growing methods that meet the life history requirements of species for which we have established objectives under Service or similar restrictions; (3) Having the proper equipment, materials, labor, and/or other resources to participate in the cost-sharing nature of a CAA; and (4) Other objective criteria necessary to ensure the cooperative agriculture meets the resource management objectives of the NWRS lands.

15.805 Assistance to State Water Resources Research Institutes

(Water Research Institute Program),

FEDERAL AGENCY:

U.S. Geological Survey, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

Water Resources Research Act of 1984, Section 104, Public Law 98-242 as amended, 42 U.S.C. 10301 et seq.

OBJECTIVES:

To provide financial support to Water Resources Research Institutes located at designated State universities in each of the 50 States, Puerto Rico, the District of Columbia, Guam, the Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Federated States of Micronesia for research, information transfer and student training on one or more aspects of priority water problems.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants), Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

This program has two parts: a mandatory formula grant program and a competitive project grant program. The mandatory grant program provides the State Institutes with funds to support a State and regional program of water resources research and information transfer. This may include basic or applied research, setting up conferences to discuss research needs or results, conduct of research, information dissemination, and training of students as a byproduct of research. In general the funds are used to study regional, State, or local water problems, but the results may often have national significance. The competitive project grant program supports research focused on water problems of a regional or interstate nature and which relate to program priorities identified jointly by the State Institutes and the Geological Survey. Federal funds cannot be used for (1) formal instructional activities and general education, and (2) the cost of permanent buildings, either directly or indirectly.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); One University Water Research Institute is authorized in each State and other jurisdictions specified in Section 104. Other colleges and universities within a State are encouraged to participate in the program in cooperation with the designated Institute.

Beneficiary Eligibility:

Private nonprofit institution/organization; State; Public nonprofit

institution/organization; Researchers at qualified universities and colleges in the State through the designated Institute for the State.

Credentials/Documentation:

Proposed Research and Information Transfer Program application responsive to instructions issued by the U.S. Geological Survey. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Formula Grant Program: Requires each Institute to collaborate with State interests in defining research priorities and to coordinate with other Institutes in the region to avoid duplication of effort. Competitive Grant Program: Requires that the Institutes collectively collaborate with the Geological Survey in setting research priorities.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is subject to the provisions of 2 CFR Part 200 and Department of the Interior regulations 2 CFR Part 1402 and 43 CFR Part 12. Application form Standard Form (SF) 424 must be used. The application requirements as contained in the announcement package and the above regulations must be used for this program. Applications may be made only through the internet site <http://www.grants.gov>.

Award Procedure:

Formula Grant Program: Geological Survey approves or rejects, in part or as a whole, the program submitted by each State Institute. The State Institutes are notified of any amendments necessary to obtain Geological Survey approval. Competitive Grant Program: Geological Survey conducts a formal review and selection procedure and approves or rejects applications as a whole. Notification of an award is by receipt of a grant or cooperative agreement from a U.S. Geological Survey contracting officer through FedConnect (<https://www.fedconnect.net/FedConnect/>).

Deadlines:

June 01, 2018. National Competitive Grants (104g) January 18, 2018. Annual Base Grants (104b) [January 18, 2018 for the Annual Base Grants (104b) and June 1, 2018 for the National Competitive Grants (104g)]

Range of Approval/Disapproval Time:

15.808 U.S. Geological Survey Research and Data Collection

FEDERAL AGENCY:

U.S. Geological Survey, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Organic Act of 1879, 43 U.S.C. 31, 43 U.S.C. 36c., 43 U.S.C. 36d

OBJECTIVES:

To support research complementary to USGS program efforts in classification of the public lands and examination of the geological structure, water, mineral, and biological resources, and products of the national domain. This entry covers a variety of USGS assistance awards not covered by any other CFDA program entries. Awards are typically supported by funding from internal projects and programs, and funds are not separately budgeted or reserved for external projects or proposals under this entry.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Applications must be for scientific research projects which are within the Survey's area of responsibility. The majority of funds are used to support research that will enhance existing, long-term collaborative projects. Funds can be used for attendance at national conferences for the dissemination of project results. Further, conferences and symposia will be supported only if it is clear that equivalent results cannot be obtained at regular meetings of professional societies. Office furniture, office equipment, and foreign travel are not normally considered for support.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals);

ASSISTANCE LISTINGS DESCRIPTIONS

Profit organizations, public nonprofit institutions/organizations, private nonprofit institutions/organizations, and State and local governments may make application for support by a named principal investigator. Due to limited availability of funds to support new external projects, consultation with USGS is strongly recommended prior to submission of applications.

Beneficiary Eligibility:

Anyone/general public; Scientist/Researchers; Engineer/Architect; Profit organizations, public nonprofit institutions/organizations, private nonprofit institutions/organizations, and State and local governments, industry and public decision makers, research scientists, engineers, and the general public will ultimately benefit from knowledge gained under the program.

Credentials/Documentation:

15.810 National Cooperative Geologic Mapping

(StateMap and EdMap),

FEDERAL AGENCY:

U.S. Geological Survey, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

National Geologic Mapping Reauthorization Act of 2009, Public Law 111-11.

OBJECTIVES:

To produce geologic maps of areas in which knowledge of geology is important to the economic, social, or scientific welfare of individual States. StateMap supports:

(1) projects which produce new geologic maps with attendant explanatory information including correlation of map units, description of map units and symbols, stratigraphic columns, geologic sections, and other pertinent information; and (2) projects which compile existing geologic data in a digital form for inclusion in the National Digital Geologic Map Database. EdMap: Provide funding for undergraduate and graduate students in academic research programs, through cooperative agreements, that involve geologic mapping and scientific data analysis as major components; expand research and educational capacity of graduate programs that teach earth science students the techniques of geologic mapping and field data analysis; and facilitate the publication and distribution of geologic maps generated in field-based graduate academic research programs.

TYPES OF ASSISTANCE:

Cooperative Agreements, Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

STATEMAP: Only one application will be accepted from each State geological survey. State proposals cannot include in-kind services by the U.S. Geological Survey. Travel to meetings of professional societies is not an acceptable expense for the program, nor are funds intended for the purchase of computer hardware, software, or other nonexpendable property. Student tuition or reimbursement is not an allowable expense. EdMap: Proposals cannot include a request for in-kind services by the U.S. Geological Survey. Funds are not intended for the purchase of capital equipment. Student tuition or reimbursement is not an allowable expense. For further information, please contact the National Cooperative Geologic Mapping Program office.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); StateMap program is restricted by statute to State geological surveys. Where State surveys are organized under a State university system, an application may be submitted by a State college or university on behalf of the State geological survey. EdMap program is restricted to universities with geoscience or related departments or programs.

Beneficiary Eligibility:

Anyone/general public; State; State geological surveys participating in this program and the general public will ultimately benefit from this program.

Credentials/Documentation:

Proposals for StateMap must include a letter of support from the State Geologic Mapping Advisory Committee to qualify for funding. Proposals for EdMap must include a letter of support from a State Geologist or USGS Project Chief. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is subject to the provisions of 2 CFR Part 200 and Department of the Interior regulations 2 CFR Part 1402 and 43 CFR Part 12. Application form Standard Form (SF) 424 must be used. The application requirements as contained in the announcement package and the above regulations must be used for this program. Applications may be made only through the internet site <http://www.grants.gov>.

Award Procedure:

Notification of an award is by receipt of a cooperative agreement from a U.S. Geological Survey contracting officer through FedConnect (<https://www.fedconnect.net/FedConnect/>).

Deadlines:

November 15, 2018. EDMAP November 15, 2018. STATEMAP November 15, 2018 (for both STATEMAP and EDMAP)

Range of Approval/Disapproval Time:

Other. StateMap: Approval/disapproval will be announced by mid-February (or shortly after budget allocation). EdMap: Approval/disapproval will be announced by late February (or shortly after budget allocation).

Appeals:

Not Applicable.

Renewals:

Other. StateMap: Proposals must be submitted for a 1-year project period only. However, projects that were approved and funded during the previous fiscal year may be submitted as renewals (competing continuations). A completely new proposal subject to full review, must be submitted each year. EdMap: Proposals may be submitted which request a performance period of 1 year at a time. Student mapping projects may last up to 2 years, however, each year a separate proposal must be submitted. Students are only allowed two years of EdMap funding. Funding for year two will be determined through the annual competitive announcement.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. The StateMap program is required by Public Law 111-11 to be carried out on a 1:1 matching basis; each recipient must match each Federal dollar with a nonfederal dollar. The nonfederal share may be contributions of services or cash provided to contractors to perform geologic mapping or other services directly applicable to proposed work on the project. The specific source(s) of the State contribution, such as State legislative appropriation, must be provided in the proposal. The EdMap program is required by Public Law 111-11 to be carried out on a 1:1 matching basis; each recipient must match each Federal dollar with a nonfederal dollar. The nonfederal share may be a contribution of funds or services. Such services can include those related to the student research project or cash provided to contractors, i.e., field assistants to perform geologic mapping or other services directly applicable to proposed work on the project. Student tuition is not an allowable expense for direct cost or match for either StateMap or EdMap. MOE requirements are not applicable to this assistance listing.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Thirty-seven states submitted applications. No further information is available, because funds have not yet been obligated. Thirty-three states submitted applications. Thirty states were awarded grants totaling \$968,583. Successful state applicants funded 14,256 student hours. Funded data preservation efforts included: preserving, digitizing, and publicly exposing on the Web aerial imagery, engineering reports, and geologic hazards maps and documents; preserving unique and valuable rock samples and cores, often with associated geophysical logs, maps, and other data, by improving storage conditions,

repackaging, and digitizing for public exposure on the Web; and scanning and archiving oil and gas well records to encourage natural resource development and inform geologic investigations. In partnership with Association of American State Geologists, the NGGDPP conducted a successful Data Rescue and Preservation Workshop, attended by 60 representatives primarily from state geological surveys, to educate and share information about reliable practices for the preservation and public exposure of valuable data and materials to promote their use in geoscience investigations. Fiscal Year 2018: Thirty-six states submitted applications. Thirty states were awarded funds totaling \$1,029,690. Successful state applicants funded 20,963 student hours. Funded data preservation efforts included: digitization and standardization of geologic maps to enable integration with other maps and spatially-relevant data; photographing rock thin sections for preservation and posting on the Web for direct study; preserving, photographing, and publicly exposing on the Web valuable rock cores, including rare cores drilled along the U.S. Atlantic Outer Continental Shelf, for study and analysis; and digitizing and posting on the Web historic mining documents, photographs, and videos to inform geologic studies and resource development. Fiscal Year 2019: In FY 19, the NGGDPP anticipates receiving approximately 35 project proposals, and awarding 28 to 30 grants. The Program Announcement for NGGDPP grants is expected to be issued in November/December of 2018. No further information is available. The geoscience data, collections, and artifacts preserved by state geological surveys are described in the National Digital Catalog

(<https://www.sciencebase.gov/catalog/item/4f4e4760e4b07f02db47dfb4>) and information about the NGGDPP is available at <https://datapreservation.usgs.gov>.

EXAMPLES OF FUNDED PROJECTS:

2019 In FY19, while the Program has not yet selected projects for funding, the NGGDPP expects to award several grants to states focusing on modernizing and digitizing geologic maps for use in GIS software. Maps digitized to known standards will be more readily integrated for spatial analyses, modeling, and 3D visualization to inform geologic investigations. 2017 Information not available, because successful projects have not yet been selected. Multiple state geological surveys received NGGDPP funds to preserve, digitize, and disseminate fragile and unique mining documents, including exploration information and mineral property files. The cataloged and accessible mineral property file collections provide users with assay results, geologic maps, and related data that would otherwise cost tens of thousands to millions of dollars to reproduce. These data help drive new exploration projects and are highly utilized by the mining industry. Mining properties that may have been uneconomical to mine when the reports were produced may now be mineable at a substantial profit. The states benefit from increased exploration activity, and successful exploration projects generate employment and tax revenue. The Mineral Property Files are also used by archeologists, historians, environmental consultants, legal community, and general public. Mining documents have assisted efforts to identify environmental contamination and safety issues, and mitigate abandoned mine sites. 2018 Annually, state geological surveys request NGGDPP funds to preserve, inventory, photograph, digitize, describe, and catalog valuable rock cores extracted during drilling operations for natural resource development (oil, gas, mineral, water) and other geoscience investigations. Drilling a borehole requires approximately \$4 million. Rock core preservation and availability to researchers reduces the need for these expensive drilling operations. In FY18, NGGDPP funds are being used to prepare archival sets of diminishing and deteriorating core intervals from U.S. Atlantic Outer Continental Shelf (OCS) cores from wells drilled between 1975-

ASSISTANCE LISTINGS DESCRIPTIONS

1984. Geophysical logs that complement the core collection are also being digitized and made publicly available. The cores are important to a variety of research and commercial needs, including carbon sequestration, geologic stratigraphy, aquifer studies, and potential future oil and gas exploration. The persistent demand for access to these cores, combined with their declining and often fragmented physical states, as well as the prohibitive costs to users of acquiring new core samples from the OCS, underscore the need for imminent preservation actions to ensure sustainable access.

Program anticipates funding projects that will develop and establish a nationwide consortium to expand the use of remotely sensed data and the science of remote sensing through education, outreach and research applications development. Other priorities will likely include conducting critical applied research real-time applications relevant to each State, sometimes expanding to and of benefit to regions of the U.S. Plans are for a multi-year grant activity subject to availability of funds.

CRITERIA FOR SELECTING PROPOSALS:

Panel composed of expert scientists and administrators drawn from government evaluate all assistance applications. Criteria for judging applications includes: relevance and timeliness of the proposed research to the goals of the program; technical quality of the proposal; competence of the principal investigator and recipient organization; and appropriateness and reasonableness of the budget.

15.820 National and Regional Climate Adaptation Science Centers

NRCASC,

FEDERAL AGENCY:

U.S. Geological Survey, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

Consolidated Appropriations Act of 2008, Public Law 110-161, Public Law 110-

ASSISTANCE LISTINGS DESCRIPTIONS

161, 43 USC Code 36(d).

OBJECTIVES:

To enable the National Climate Change and Wildlife Science Center (NCCWSC) and the eight Department of the Interior Climate Science Centers (DOI CSC) to be responsive to the research and management needs of Federal and State agencies by working with partners to provide science and technical support regarding the impacts of climate change in fish, wildlife, plants and ecological processes and the mechanisms for adaptation to, mitigation of, or prevention of those impacts. Center activities will focus on providing national and regional habitat and population modeling and forecasting tools, integrating physical climate models with ecological models, assessing vulnerabilities and forecasting changes, and developing standardized approaches.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

The Department of the Interior (DOI) Climate Science Centers were developed according to a consistent national strategy and are managed at the national level by the NCCWSC. National coordination of research, modeling, and other scientific and data management matters at the DOI CSCs will ensure uniformity of downscaling and forecasting models and standardized information to support management of fish and wildlife resources and regional partnership collaborations. NCCWSC will develop cooperative agreements and/or grants with the DOI CSCs at the primary hosting Universities to conduct specific research, data gathering, data management and similar scientific activities. For further information, please contact the NCCWSC or regional DOI CSC office.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; There are eight (8) DOI CSCs; each CSC has a single "Host Institution" that is eligible to apply on behalf of themselves and members of the CSC university consortium: Alaska CSC: University of Alaska, Fairbanks; Southeast CSC: North Carolina State University, Raleigh; Northwest CSC: Oregon State University, Corvallis; Southwest CSC: University of Arizona, Tucson; North Central CSC: Colorado State University, Ft. Collins; South Central CSC: Oklahoma University, Norman; Northeast CSC: University of Massachusetts, Amherst; Pacific Islands CSC: University of Hawaii, Manoa.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Anyone/general public; Education Professional; Scientist/Researchers; Research scientists, policy makers, natural resource managers, educators, and the general public will benefit from the program.

Credentials/Documentation:

Proposals must furnish evidence of the applicant's qualifications for performance of the proposed education, outreach, science coordination and research activities. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is subject to the provisions of 2 CFR Part 200 and Department of the Interior regulations 2 CFR Part 1402 and 43 CFR Part 12. Application form Standard Form (SF) 424 must be used. The application requirements as contained in the announcement package and the above regulations must be used for this program. Applications may be made only through the internet site <http://www.grants.gov>.

Award Procedure:

Notification of an award is by receipt of a grant or cooperative agreement from a U.S. Geological Survey contracting officer through FedConnect (<https://www.fedconnect.net/FedConnect/>).

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

EXAMPLES OF FUNDED PROJECTS:

2018 Information not yet available. 2019 Information not yet available. 2017
Information not available. Many of our projects are on a regional-scale, answering
questions that relate to ecosystems, coastlines, or landscapes that cross state
boundaries. Various projects were initiated in FY 2017 across eight (8) Regional
Climate Adaptation Science Centers. Our science projects resulted in the release of
over 165 new publications and over 115 new datasets. New findings from one
NCASC-supported study revealed that hybridization, or the interbreeding of
species, is increasing between native and invasive trout across the northern Rocky
Mountains. These interactions pose a serious threat to biodiversity of aquatic
ecosystems and may have important implications for resource managers and
anglers. Also in FY17, the Northeast and North Central CASCs were honored for
their leadership in helping the nations natural resources become more resilient to
the impacts of a changing world. The Northeast CASC was recognized for their
work with the University of Massachusetts Amherst and the MA Division of
Fisheries and Wildlife to develop the Massachusetts Wildlife Climate Action Tool
to help resource managers access information on the vulnerabilities of fish, wildlife
and habitats; and explore adaptation actions to promote resilient natural
communities. The North Central CASC was recognized for their work with the
Wind River Tribal Water Engineers Office and Water Resources Control Board
and other partners to support drought preparedness on the Wind River Reservation.
The North Central CASC was also recognized for the project Building Social and
Ecological Resilience to Climate Change in Southwestern Colorado which is an
on-going project studying the impacts of climate change as it relates to higher
temperatures, prolonged drought, accelerated snowmelt, larger and more intense
fires, and extreme storms as well as the spread of invasive species. These changes
put livelihoods, ecosystems and species at risk. The project focuses communities in
southwestern Colorados San Juan and Gunnison river basins, this project will
expand opportunities for scientists, land managers, and affected residents to
identify actions that can support resilience and adaptation in the face of changing
climate conditions. Projects in FY 2017 were selected based on CSC Science Plans
and directed science initiatives. Projects were both internally funded (USGS and
other Federal Agencies) and externally funded (via Cooperative Agreements or
Grants).

CRITERIA FOR SELECTING PROPOSALS:

Application proposals will be reviewed by the appropriate geographical DOI CSC
Center Director and/or the headquarters NCCWSC Director to ensure projects fall
within the authorized program purpose. Criteria for judging applications will
include scientific excellence and relevance to the solution of important problems
within the mission of the Department of the Interior. Applications will be funded
only to the extent permitted by available funds.

15.875 Economic, Social, and Political Development of the Territories

FEDERAL AGENCY:

INSULAR AFFAIRS, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

The Guam Organic Act, 64 Stat. 384, 48 U.S.C. 1421 et. seq., Act of February 20,
1929, 48 U.S.C. 1661; Executive Order 10264; Public Law 83-517, 48 U.S.C. et.

seq.; Public Law 94-241, Public Law 104-134, Public Law 108-188, and Public
Law 99-658.

OBJECTIVES:

The Office of Insular Affairs will pursue the Departments mission of Fulfilling Our
Trust and Insular Responsibilities by executing activities which bolster healthcare
capacity, strengthen island economies, and fulfill U.S. Compact obligations. OIA
carries out the Secretarys responsibilities for U.S.-affiliated insular areas. These
include the territories of Guam, American Samoa, the U.S. Virgin Islands (USVI),
and the Commonwealth of the Northern Mariana Islands (CNMI). Additionally,
OIA administers and oversees Federal assistance to three freely associated states
(FAS): the Federated States of Micronesia (FSM), the Republic of the Marshall
Islands (RMI) and the Republic of Palau (Palau).

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use, Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

Financial assistance is limited to the U.S. territories, the Freely Associated States
and to non-profit organizations whose missions directly benefit these seven insular
areas. A notable exception is the state of Hawaii which receives Compact Impact
aid mandated by Public Law 108-188 and Brown Treesnake Control Program
funding. Financial assistance is used for a variety of activities including capital
improvements, government operations, and technical assistance.

Applicant Eligibility:

U.S. Territories and possessions (includes institutions of higher education and
hospitals); Eligible applicants are the U.S. territories of Guam, American Samoa,
the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands,
the state of Hawaii; the Freely Associated States of the Federated States of
Micronesia, the Republic of the Marshall Islands, and the Republic of Palau; and
any non-profit institutions/organizations whose missions directly benefit the seven
insular areas.

Beneficiary Eligibility:

U.S. Territories; Beneficiaries are the U.S. territories of Guam, American Samoa,
the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands;
the state of Hawaii; and the Freely Associated States of the Federated States of
Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Credentials/Documentation:

Not applicable. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is
required for this listing. An environmental impact assessment is required for this
listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental
Review of Federal Programs." An applicant should consult the office or official
designated as the single point of contact in his or her State for more information on
the process the State requires to be followed in applying for assistance, if the State
has selected the program for review. An environmental impact statement or an
environmental impact assessment may be required depending on the project grant.
All proposed projects shall be reviewed for applicability.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit
Requirements for Federal Awards applies to this program. Application procedures
vary. Please contact the Headquarters Office for specific information. The standard
SF-424 forms are required for project grants with the exception of projects funded
by the Compacts of Free Association.

Award Procedure:

A grant award is made to an eligible entity in the specific amounts and for the
specific purposes set forth in the annual Department of the Interior and Related
Agencies Appropriation Act signed by the President.

Deadlines:

Contact the headquarters or regional location, as appropriate for application
deadlines.

(HPF),

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

National Historic Preservation Act, PL 54 USC 301 et seq., 16 USC Code 470.

OBJECTIVES:

To provide FORMULA grants to States, Tribes, Territories, the Freely Associated States, the District of Columbia, Certified Local Governments, and other applicants as defined by Congress, to assist in the identification, evaluation, and protection of historic properties by such means as education, survey, planning, technical assistance, preservation, documentation, and financial incentives like grants and tax credits available for historic properties. To provide PROJECT grants to eligible grantees to provide for the identification, evaluation, and protection of historic properties as defined by Congress.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

FORMULA Grants can directly finance staff salaries, equipment, and materials, and travel necessary to accomplish required program area purposes. Awarded funds may be transferred (and for States 10% must be) to third parties to carry out historic preservation activities such as surveys, preservation plans, National Register nominations, architectural plans and specifications, historic structures reports, and engineering studies necessary to restore or repair properties listed on the National Register of Historic Places. In accordance with 54 USC 302902., as amended, grantees must agree to assume, after completion of a rehabilitation project, the cost of the continued maintenance, repair, and administration of the property in a manner satisfactory to the Secretary. PROJECT grants assist in the identification, nomination, evaluation, and protection of historic properties as defined by Congress and the National Historic Preservation Act. ALL funded projects must follow the Secretary of the Interior's Standards for Archeology and Historic Preservation (36 CFR 78). Major reconstruction is not eligible, and rarely acquisition.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); FORMULA grants: States, Territories and Tribes as defined in the 54 USC 301 et seq (commonly known as the National Historic Preservation Act), operate programs administered by a State Historic Preservation

Officer or Tribal Historic Preservation Officer appointed by the Governor, Tribal government or according to State or Tribal law, and which are otherwise in compliance with the requirements of the Act. PROJECT grants: Eligible tribal applicants include Federally recognized Indian Tribes, Alaska Native Corporations, and Native Hawaiian organizations. Other project grants follow eligibility as defined by Congress and stated in statute or committee language.

Beneficiary Eligibility:

Individual/Family; Land/Property Owner; State; FORMULA grants: State, Tribal and local governments, public and private nonprofit organizations, and individuals. According to their own priorities and plans, States and Tribes select their own projects and may sub-grant to public and private parties, including local governments, nonprofit and for-profit organizations, and/or individuals to accomplish program objectives. At least ten percent of each State's annual appropriation must be sub-granted to local governments certified as eligible to carry out preservation functions according to 36 CFR 61. PROJECT grants: State, Tribal, Local governments, public and private nonprofits, and federal agencies as defined by Congress.

Credentials/Documentation:

FORMULA grants: Each State must have a State Historic Preservation Officer, qualified Review Board, employ professionally qualified staff, and maintain an approved statewide historic preservation plan in accordance with 36 CFR 61. Each Tribe must have a Tribal Historic Preservation Officer and qualified staff. Each State or Tribe must administer the agreed upon program areas as required by NPS. PROJECT grants: as defined by Congress. All grants: 2 CFR 200, in its entirety, applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. FORMULA grants: Application is made by the States and Tribes, and other eligible entities in the form of planned activities scope of works, and budgets through Grants.gov. States submit additional information through an online data collection system under OMB control number 1024-0038, Expiration Date: January 21, 2021. FORMULA AND PROJECT grants: Standard 424 series is required and other approved OMB grant forms as necessary. Funding announcements for all grants under this CFDA, along with application procedures, packages and instructions, points of contact and procedures for submitting applications are made available on www.grants.gov.

Award Procedure:

An annual appropriation is allocated by Congress to the National Park Service under the Historic Preservation Fund. FORMULA grants: Annual funding for States and Tribes is awarded through an approved apportionment formula. PROJECT grants: Competitive grants are awarded competitively based on review of applications received, requested amounts, available appropriations, direction of Congress and the National Historic Preservation Act.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Varies depending on the type, complexity, and number of applications received. A representative range would be 60 days dependent on any additional review by the Department.

Appeals:

Other. None. Final award decisions are not subject to appeal; however, the National Park Service will provide applicants with information on why their proposals were not selected for award.

Renewals:

Not Applicable. FORMULA Grants to States and Tribes are for 2 years, subject to Use or Lose procedures established by the National Park Service. In rare instances extensions are granted past the two years. PROJECT Grants are renewed or extended on a case by case basis should more time for the project be warranted.

Formula and Matching Requirements:

Statutory Formula: Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Matching Requirements: Grants are awarded at a ratio of 60 percent Federal, 40 percent State (public and/or private funds and/or allowable in-kind donations). American Samoa, Guam, Commonwealth of Northern Mariana Islands, Federated States of Micronesia, Republic of Palau, Republic of Marshall Islands and Virgin Islands are exempt from matching share per Public Law 96-205. MOE requirements are not applicable to this assistance listing.

OBJECTIVES:

The Secretary of the Interior, through the National Park Service, for the purpose of effectuating the policy established by the Historic Sites Act of 1935, has the following powers and perform the following duties and functions: a) preserve for public use historic sites, buildings, and objects of national significance for the inspiration and benefit of the people of the United States; b) make a survey of historic and archaeologic sites, buildings, and objects for the purpose of determining which possess exceptional value as commemorating or illustrating the history of the United States; c) make necessary investigations and researches in the United States relating to particular sites, buildings, or objects to obtain true and accurate historical and archaeological facts and information concerning the same; and d) erect and maintain tablets to mark or commemorate historic or prehistoric places and events of national historical or archaeological significance.

TYPES OF ASSISTANCE:

Advisory Services and Counseling

USES AND USE RESTRICTIONS:

Properties recognized as National Historic Landmarks will, upon application by the owner or administrator, be awarded a bronze plaque attesting to the property's national significance. At the same time, the applicant is requested to observe certain simple preservation precepts with regard to the property, but is not required by law to do so. Should subsequent occurrences alter the historic qualities of the property, National Historic Landmark status may be revoked by the Secretary of the Interior and the plaque removed. Automatic listing of National Historic Landmark properties in the National Register of Historic Places affords a degree of Federal protection under Section 106 of the Historic Preservation Act of 1966, as amended, and fulfills one of the prerequisites for Federal assistance under the National Register grants-in-aid program (see 15.904) and the Certain National Historic landmarks are also made eligible for Federal tax benefits and protections and technical preservation assessment and assistance.

Applicant Eligibility:

Anyone/general public; Property owners and general public.

Beneficiary Eligibility:

Federal; Individual/Family; Private nonprofit institution/organization;
Anyone/general public; Land/Property Owner; Public nonprofit

institution/organization; Anyone may suggest that a property be considered for inclusion in an appropriate National Historic Landmark theme study, provided the property has a high degree of historic integrity and potential national significance with relation to some broad facet of American history. The owner of the property may be an individual, government, or corporate body. Properties of only State or local significance do not qualify.

Credentials/Documentation:

Request should be supported by full discussion of national significance of property and documented integrity. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. If the property is not listed in the National Register of Historic Places, write the National Historic Landmarks Survey giving a brief resume of the history of the property and its present condition and advising what assistance can be provided in the nomination process. If the property is already listed in the National Register, provide a brief resume of the historical facts that justify consideration of national significance. Properties nominated to, or already listed in, the National Register of Historic Places at a national level of significance by the State Historic Preservation Officer may be reviewed by the National Historic Landmarks Survey staff.

Award Procedure:

When the property has been investigated, findings, in the form of a thorough NHL nomination form, are presented to the National Park System Advisory Board which evaluates the property's national significance and high integrity and recommends a final action to the Secretary of the Interior. Owners of proposed landmarks are contacted prior to a landmark study, given an opportunity to comment on a final study, and then notified after designation of the landmark.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Determined by scheduling of theme studies, availability of staff or funds, and proximity to twice yearly Advisory Board meetings.

Appeals:

Other. Owner comments and approval to designate are sought prior to the meeting of the Advisory Board. Board meetings are open to the public. Appeals process is outlined in program regulations (36 CFR 65.10).

The National Register.,

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

National Historic Preservation Act of 1966, as amended, Public Law 89-665, 16 U.S.C. 470, 80 Stat. 915 et seq.; Executive Order 11593, May 13, 1971; Tax Reform Act of 1976, Public Law 94-455; Public Law 94-442; 90 Stat. 1519; Revenue Act of 1978; Public Law 95-600; National Historic Preservation Act Amendments of 1980; Public Law 96-515; Tax Treatment Extension Act of 1980; Public Law 96- 541; Economic Recovery Tax Act of 1981, Public Law 97-340; Tax Reform Act of 1984, Public Law 98-369; Tax Reform Act of 1986, Public Law 99- 514; National Historic Preservation Act Amendments of 1992, Public Law 102-575; Executive Order 13287, March 3, 2003; Public Law 31-287, 54 U.S.C. 32101 et seq.

OBJECTIVES:

To expand and maintain the National Register of Historic Places for planning, preservation, research, public education and tourism efforts; to make the information on districts, sites, buildings, structures and objects of historical, architectural, archeological, engineering and cultural significance more accessible to the public in order to increase and broaden the public's understanding of the

information, foster a national preservation ethic, and to promote greater appreciation of America's heritage; to coordinate with Federal agencies, State and Tribal preservation offices, and the Advisory Council on Historic Preservation in the implementation of laws and policies pertaining to historic preservation; and to establish liaison with and give guidance to communities under Title I of the Housing and Community Development Act of 1974 (see 14.218).

TYPES OF ASSISTANCE:

Advisory Services and Counseling

USES AND USE RESTRICTIONS:

Professional advice is provided in determining whether a property qualifies for inclusion in the National Register according to the Criteria for Evaluation contained in 36 CFR Part 60. Listing does not affect the range of actions an owner may take, as long as Federal funding, licensing or assistance is not involved and no governmental unit receives any authority or control over the property, including its use and disposition. However, if a Federal project might have an effect on a property listed or eligible for listing, the agency involved must provide the Advisory Council on Historic Preservation a reasonable opportunity to comment pursuant to 36 CFR Part 800. Registered properties also become eligible to receive grants from the Historic Preservation grant-in-aid program of the Department of the Interior (see 15.904), when funding is available, to receive home improvement loans from the Department of Housing and Urban Development under Title I of the National Housing Act as amended on October 18, 1974, or to participate in the community grant program provided by the Housing and Community Development Act of 1974. Major Federal tax advantages can be received on certain rehabilitation expenditures for "certified National Register of Historic Places National Register Number: 15.914 Agency: Department of the Interior Office: National Park Service 15.914 - National Register of Historic Places - CFDA: Programs Page 1 of 5 <https://www.cfda.gov/index?s=program&mode=form&id=599c956354180ff190b20d9e9ea5...> 1/4/2018 historic structures" and for charitable contributions for conservation purposes of partial interests in historic properties.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Eligible applicants are the States and territories as defined in the National Historic Preservation Act, operating under programs administered by State Historic Preservation Officers appointed by the Governors (listed in Appendix IV of the Catalog); or the Tribal Preservation Officers; Federal agencies required to nominate and consider historic properties within their jurisdiction or as a result of the National Environmental Policy Act of 1969 and Executive Order 11593, and the National Historic Preservation Act operating under programs administered by representatives (listed in Appendix IV of the Catalog) appointed by the heads of the agencies; and, in States without approved State Historic Preservation Programs, persons and local governments. Applicants eligible for Federal Tax benefits include owners of individually listed properties and properties certified by the Secretary of Interior as being historic and in a district certified as historic.

Beneficiary Eligibility:

Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; Land/Property Owner; Public nonprofit institution/organization; Public and private owners of historic properties listed in the National Register of Historic Places or of properties certified by the Secretary of Interior as being historic and in a district certified as historic.

Credentials/Documentation:

Nominations are submitted on standard nomination forms provided upon request to the State Historic Preservation Officers, Federal Preservation Officers, and Tribal Preservation Officers who must certify that each property was properly nominated. Procedures for National Register nominations are found in 36 CFR Part 60. Request for determinations of eligibility must be adequately documented as described in Appendix A of 36 CFR Part 63. Requests for certification of historic properties must be documented as described in Section 36 CFR Part 67 and requests for certification of State and local statutes and districts must be documented as described in Section 36 CFR Part 67. To participate in the program, each State must have an approved review board, an approved State staff, and an accepted State historic preservation plan. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

ASSISTANCE LISTINGS DESCRIPTIONS

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. For National Register nominations the signature of the State Historic Preservation Officer on the nomination form certifies that the State review board has reviewed the nomination and that all applicable procedures, including notification to the property owner at least once during the nomination process, have been followed. The signature of the Federal Preservation Officer for Federal property or the Tribal Preservation Officer on Tribal lands on the nomination form certifies that the property has been nominated in compliance with the National Historic Preservation Act.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Anyone may prepare a National Register nomination. After the property is approved by the State Historic Preservation Officer, Tribal Preservation Officer, or Federal Preservation Officer, the nomination form or letter of request for a determination of eligibility should be forwarded to the Keeper of the National Register, National Park Service, Department of the Interior, 1849 C Street, NW, Mail 15.914 - National Register of Historic Places - CFDA: Programs Page 2 of 5 <https://www.cfda.gov/index?s=program&mode=form&id=599c956354180ff190b20d9e9ea5...> 1/4/2018 Stop 2280, Washington, DC 20240. Nominations submitted for review are announced in the Federal Register to provide a period of comment. Documentation for certification for Federal tax benefits of historic buildings and structures, State and local statutes and districts should be forwarded to the appropriate State Historic Preservation Office, which sends it to the appropriate National Park Service Office.

Award Procedure:

The professional review staff of the National Register determines whether the properties meet the National Register criteria as contained in 36 CFR Part 60. Properties that meet the criteria are then officially listed in the National Register and become eligible for Federal tax benefits and Historic Preservation Fund grants when they are available.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Other. After nomination by State, 45 days at Federal level.

Appeals:

Other. A nomination returned to the States, Tribes, or Federal agencies may be resubmitted, depending upon the reason for its rejection. Appeals for listing and removal may be made in accord with 36 CFR 60.12.

CRITERIA FOR SELECTING PROPOSALS:

Criteria for Evaluation: In accordance with the provisions of 36 CFR 60.4, the following criteria are designed to guide the States and the Secretary of the Interior in evaluating potential entries (other than areas of the National Park System and National Historic Landmarks) to the National Register: The quality of significance in American history, architecture, archeology, engineering, and culture is present in districts, sites, building, structures, and objects that possess integrity of location, design, setting, materials, workmanship, feeling, and association, and; (A) that are associated with events that have made a significant contribution to the broad patterns of our history; or (B) that are associated with the lives of persons significant in our past; or (C) that embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or (D) that have yielded, or may be likely to yield, information important in prehistory or history. Ordinarily cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years shall not be considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that do meet the criteria or if they fall within the following categories. (A) a religious property deriving primary significance from architectural or artistic distinction or historical importance; or (B) a building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event; or (C) a birthplace or grave of a historical figure of outstanding importance if there is no other appropriate site or building directly associated with his productive life; or (D) a cemetery which derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

54 U.S.C. 200305 Land and Water Conservation Fund, Assistance to States, and;
54 U.S.C. 101702(a) Cooperative Agreements, Transfer of Service Appropriated Funds.

OBJECTIVES:

To provide financial assistance to the States and their political subdivisions project that are included in Statewide Comprehensive Outdoor Recreation Plans (SCORPs) and acquisition and development of outdoor recreation areas and facilities for the general public, to meet current and future needs.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants, Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Land acquisition and development grants may be used for a wide range of outdoor recreation projects, such as picnic areas, inner city parks, campgrounds, tennis courts, boat launching ramps, bike trails, swimming pools, playing fields, and support facilities such as roads, water supply, etc. Facilities must be open to the general public and not limited to special groups. Every park or outdoor recreation area acquired or developed with assistance under this program must remain available and accessible for public outdoor recreation use forever. Development of basic rather than elaborate facilities is favored. Operation and maintenance of facilities are not eligible expenses for funding. States only are also eligible to apply for grants to revise and update existing SCORPs; prepare new SCORPs; conduct statewide surveys, technical studies, data collection and analysis; and for other planning purposes that are clearly related to SCORP refinement and improvement.

Applicant Eligibility:

Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Anyone/general public; For planning grants, only the State agency formally designated by the Governor or State law as responsible for the preparation and maintenance of the SCORP is eligible to apply. (Treated as States for this purpose are the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, the Northern Mariana Islands, and Guam.) For acquisition and development grants, the above designated agency may apply for assistance for itself, or on behalf of other State agencies or political subdivisions, such as cities, counties, and park districts. Additionally, Indian tribes that are organized to govern themselves and perform the functions of a general purpose unit of government qualify for assistance. Individuals, nonprofit organizations, and

private organizations are not eligible. The general public. For planning grants, same as Applicant Eligibility. The State Liaison Officer (SLO), who is appointed by the Governor or designated in State legislation to administer the program in the State or Territory, must provide assurance that the project is consistent with the SCORP; i.e., that it meets high priority recreation needs shown in the action program portion of the Plan. The State must have a sufficient balance of LWCF funding and the required match available for the project. The sponsoring agency must permanently dedicate the project to public outdoor recreation and assume responsibility for its operation and maintenance. SCORPs must cite the State's legal authority to participate in the Land and Water Conservation Fund program. 2 CFR, Part 200, 43 CFR, OMB Circulars, standard forms, and program information.

Beneficiary Eligibility:

Anyone/general public; The general public. For planning grants, same as Applicant Eligibility.

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The SLO has the prerogative for initial determination of project eligibility, priority need, and order of fund assistance within the State. All project proposals are submitted to the National Park Service by the SLO. Environmental impact information is required for this program; a screening form is used to determine whether an EA or EIS is necessary.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding announcements for this program, along with registration procedures, application packages and instructions, points of contact, and procedures for submitting applications will be available on www.grants.gov. Proposals selected by the State for sub-award and forwarded to NPS must be accompanied by the standard federal application forms required by 2 CFR Part 200.

Award Procedure:

Proposals received in response to announcements on grants.gov are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the announcement. Awards may be made to the highest rated proposals based on the amount of funding available each year. All grants are made to the State lead agency and if applicable passed through to the project sponsor, whether State or local government.

requirements are voluntary. Matching Requirements: The Land and Water Conservation Fund Act requires that the share of federal funds not exceed 50 percent of the total project cost. Generally, match must be derived from State, local, or private sources, but under certain conditions all or part of the project sponsor's matching share may be from other Federal assistance programs, such as Community Development Block Grants, when such use is allowable under the other programs sponsoring legislation. Otherwise, no other Federal funds may be applied to the project cost, even if all matching requirements are met. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Funds are available for obligation during the fiscal year in which they are appropriated and for the two following fiscal years. The assistance period for individual projects varies and may be extended but on average is three years. Complex projects may be broken down into stages, with one being initially approved and the remainder qualified for activation at a later date. Except for project preparation costs, all costs must be incurred within the project period to be eligible for reimbursement. Planning projects may not be phased. Method of awarding/releasing assistance: other

Reports:

All projects are monitored for progress through consolidated performance reports, which should be at least annually. State inspection reports are submitted every 5 years on completed projects stating whether the properties acquired and/or developed with fund assistance are still being used in accordance with the agreement. For planning projects, end products are specified in the application for assistance. Consolidated performance reports are required which should be at least annually. Unless otherwise stated in the agreement document, recipients shall submit the following reports on an annual basis: (1) SF-425, Federal Financial Report; and (2) Program Performance Reports. Upon completion of the agreement, recipients shall submit a final: (1) SF-425, Federal Financial Report; and (2) Program Performance Report; and (3) other specific reports that may be applicable to the agreement such as property inventories, and patent and invention disclosures SF-425, Federal Financial Report Program Performance Report

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for park and recreation use and historic uses are submitted to the appropriate National Park Service Regional Office. Application forms are issued by the National Park Service.

Award Procedure:

FLP: Upon approval of a park and recreation application, the National Park Service will request GSA or DOD military service, in the case of base closures, to assign the property to the Secretary of the Interior for transfer. Upon assignment by DOD or GSA, the National Park Service will transfer the property to the applicant. HSPP: To ensure the adequate preservation of the historic surplus property, the National Park Service will provide the technical assistance to the applicant during the development of the application. Upon approval of the application, the National Park Service will formally recommend to GSA or DOD that the property be transferred to the applicant. GSA or DOD will prepare the deed, which includes provisions for maintaining the property in perpetuity, and the property will be conveyed to the applicant.

Deadlines:

October 01, 2010. FLP: The National Park Service must notify the General Services Administration within 30 calendar days after the date of the notice of determination of surplus if there is an eligible applicant interested in acquiring the property, or otherwise comply with the DOD Base Realignment and Closure (BRAC) planning and disposal schedules. For a park and recreation transfer, the National Park Service must request assignment of property from GSA within 30 calendar days after the expiration of the 30 day period, or otherwise comply with DOD Base Realignment and Closure (BRAC) planning and disposal schedules.

HSPP: An eligible state or local government that wishes to acquire a property under the HSPP must follow the notification instructions given in the official surplus determination notice for that property. As part of this process, the eligible applicant must contact the appropriate regional office of the National Park Service to request and move forward with an application. Approval of the application and conveyance of the property follows the process described above under Section 093.

on www.grants.gov. Selection may be based on the following: Initial project partners are identified and a lead project partner is designated. Note: The lead partner may be a state or local agency, tribe, non-profit organization, or citizens' group. Federal agencies, including the National Park Service, maybe the lead partner only in collaboration with a nonfederal partner. Project has specific, partner- defined goals and anticipated measurable results that are: clearly stated; support the National Park Service mission and RTCA mission and strategic plan goals; protect important natural resources or enhance outdoor recreation opportunities; and will have results that occur within an appropriate timeframe. (3) There is a commitment by lead project partners to significant public involvement and outreach in the project. (4) Roles and contributions of initial project partners, including RTCA, are identified. There is a commitment by initial project partners to cooperate and to provide or obtain the resources necessary to implement the project. (5) There is evidence of broad support for the project. Preference is given to a project that also: (a) provides physical connections among resources; (b) includes an NPS area as an actively involved project partner; (c) includes both natural resource conservation and outdoor recreation; (d) partners with a health organization.

15.922 Native American Graves Protection and Repatriation Act

(NAGPRA).

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Native American Graves Protection and Repatriation Act, Pub.L. 101-601 10, 104 Stat. 3057, 25 U.S.C. 3008.

OBJECTIVES:

To provide grants to museums to assist in the consultation on and documentation of Native American human remains and cultural items; to provide grants to Indian tribes and Native Hawaiian organizations, as defined in the Act, to assist in identifying human remains and cultural items; and to provide grants to museums, Indian tribes and Native Hawaiian organizations to assist in the repatriation of human remains and cultural items.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Grant funds must be used for CONSULTATION, DOCUMENTATION, or REPATRIATION under NAGPRA. Consultation and documentation projects should lead to determining control, treatment, and disposition of NAGPRA cultural items. Consultation projects support efforts related to compiling or revising a NAGPRA inventory and making or responding to requests for items in a NAGPRA summary. Documentation projects support determining the geographical origin, cultural affiliation, and other basic facts surrounding the acquisition of Native American cultural items. Repatriation means the transfer of control of Native American human remains and/or cultural items to lineal descendants, Indian tribes, and Native Hawaiian organizations. Repatriation includes disposition of culturally unidentifiable Native American human remains (CUI) according to 43 C.F.R. 10.11. Repatriation projects defray costs associated with the packaging, transportation, contamination removal, reburial, and/or storage of NAGPRA-related human remains and/or cultural items. The Notice of Funding Opportunity posted with the funding opportunity announcement has further information regarding eligible activities.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An eligible applicant is: A museum that has control of Native American human remains, funerary objects, sacred objects, or objects of cultural patrimony and has received Federal funds. The term Museum includes state or local government agencies, private institutions, and institutions of higher learning that have received Federal funds. An Indian tribe, Alaska Native

village, or Native Hawaiian organization. An "Indian tribe" means any tribe, band, nation, or other organized group or community of Indians, including any Alaska Native village (as defined in, or established pursuant to, the Alaska Native Claims Settlement Act), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. The Department of the Interior has interpreted this definition as applying to over 560 Indian tribes and Alaska Native villages that are recognized by the United States Government. This list does not include Alaska regional or village corporations, although Alaska Native villages may subcontract work under grants to such corporations. A Native Hawaiian organization includes any organization that: a) serves and represents the interests of Native Hawaiians; b) has as a primary and stated purpose the provision of services to Native Hawaiians; and c) has expertise in Native Hawaiian Affairs. NAGPRA states that such Native Hawaiian organizations shall include the Office of Hawaiian Affairs.

Beneficiary Eligibility:

Native American Organizations; State; Local; Federally Recognized Indian Tribal Governments; State, local, public nonprofit institution/organization, other public institution/organization, Federally Recognized Indian Tribal Government, Native American organization, American Indian.

Credentials/Documentation:

Eligible museums must have completed a written summary of their Native American collections and an inventory of Native American human remains and associated funerary objects in their collections to the National Park Service and the appropriate Indian tribes and Native Hawaiian organizations by the deadlines in 43 CFR Part 10. For repatriation grants, publication under 43 CFR Part 10 of a Notice of Inventory Completion or Notice of Intent to Repatriate in the Federal Register is required. Funding is not available for activities that occur prior to the submissions of the application. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

15.925 National Maritime Heritage Grants

Maritime Heritage Grants,

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

National Maritime Heritage Act of 1994, P. L. 103-541, Sec. (4)(c).

OBJECTIVES:

To provide matching grants for preservation or education projects that foster a greater awareness and appreciation of the role of maritime endeavors in Americas history and culture. The grants will help State, Tribal, and local governments and private nonprofit organizations preserve and interpret their maritime heritage. It is designed to reach a broad audience and enhance public awareness and appreciation for the maritime heritage of the United States.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds may be used for education or preservation projects that promote the understanding of significant aspect of American maritime heritage. Projects that involve historic resources as defined in the National Historic Preservation Act, as amended, must comply with treatments defined in the "Secretary of the Interior's Standards for the Treatment of Historic Properties" (36 CFR 78), Standards for Historic Vessel Preservation Projects, and Standards for Archeology and Historic Preservation (48 FR 44716). The Grantee must grant a preservation easement or preservation agreement for each grant-assisted property. In general, the Grants Program does not fund projects which will train the individual maritime heritage professional to do his or her job better or assist in career recognition or promotion. This includes activities such as developing training or continuing education courses for the maritime heritage education or preservation professional, personal research, or research resulting in highly specialized reports or publications with narrow audience appeal and little potential for public use or applications.

Applicant Eligibility:

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Preapplication coordination with State Historic Preservation Offices is required.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding announcements for this program, along with registration procedures, application packages and

instructions, points of contact, and procedures for submitting applications will be available on www.grants.gov. Applicants may visit the National Maritime Heritage Program website at <http://www.nps.gov/maritime/grants/intro.htm> for more information.

Award Procedure:

Proposals received in response to announcements on [grants.gov](http://www.grants.gov) are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the announcement. Awards may be made to the highest rated proposals based on the amount of funding available each year. Award amounts are based on recommendations made by the National Maritime Heritage Grant Review Panel to the Secretary of the Interior, who makes final award decisions. The Review Panel is composed of representatives from the NPS, Maritime Administration, National Oceanographic and Atmospheric Administration, U.S. Coast Guard, Naval History and Heritage Command Advisory Council on Historic Preservation, Smithsonian Institution, and the National Archives and Records Administration. Each application is scored individually based on standardized criteria. Awards are made as direct grants to State or tribal Historic Preservation Offices (SHPO or THPO), who issue sub-grants to applicants.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Varies depending on the type and complexity of the project. Further information will be available for each specific project at the time the funding opportunity announcement is posted on www.grants.gov and may be obtained by contacting the Program Manager listed as the point of contact.

Appeals:

Other. None. Final award decisions are not subject to appeal; however, the National Park Service may provide applicants with information on why their proposals were not selected for award.

Renewals:

Other. Grants are not renewable, but the grant period may be extended upon approval of a request to the program, showing that unforeseen circumstances prevented the project from being completed on time.

(USPAP Standards 1 and 2) published by the Interagency Land Acquisition Conference. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Informal pre-application coordination with ABPP staff is highly recommended. Coordination with appropriate State Historic Preservation Office(s) is required for National Historic Preservation Act Section 106 Review. The ABPPs Nationwide Programmatic Agreement for Section 106 Review, available on the ABPPs website <https://www.nps.gov/abpp/grants/grants>, for this grant program must be consulted prior to applying.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding announcements for this program, along with registration procedures, application packages and instructions, points of contact, and procedures for submitting applications will be available on www.grants.gov and the ABPPs website www.nps.gov/abpp. Applicants are responsible for initiating the Section 106 Review with the appropriate SHPO and consulting parties prior to submitting a complete application.

Award Procedure:

Proposals received in response to announcements on grants.gov are reviewed on the basis of a competitive, merit-based review process, and are rated in accordance with the evaluation criteria stated in the announcement. Awards may be made to the highest rated proposals based on the amount of funding available throughout the year. The Director of the National Park Service makes awards to approved applicants.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Varies depending on the type and complexity of the project. Further information will be available for each specific project at the time the funding opportunity announcement is posted on www.grants.gov and may be obtained by contacting the Program Manager listed as the point of contact.

Appeals:

Other. None. Final award decisions are not subject to appeal; however, the National Park Service will provide applicants with information on why their proposals were not selected for award.

Renewals:

Other. If renewals or extensions are applicable to the project, this information will be included in the funding opportunity announcement. When renewals or extensions are applicable, continuation of funding for these activities is at the discretion of Congress and will be subject to availability of appropriated funds.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are mandatory. 50% Recipient/non-federal cost share is required under this program. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Battlefield land or interests in land are purchased immediately after receipt of funds, usually no later than one year after receipt of funds. Periods of Performance for awarded grants is typically 3 years to allow for purchase and recording of required easement or preservation agreement. Method of awarding/releasing assistance: lump sum.

Reports:

Unless otherwise stated in the agreement document, recipients shall submit the following reports on an annual basis: (1) SF-425, Federal Financial Report; and (2) Program Performance Reports. Upon completion of the agreement, recipients shall submit a final: (1) SF-425, Federal Financial Report; and (2) Program Performance Report; and (3) other specific reports that may be applicable to the agreement such

as property inventories, and patent and invention disclosures. In certain cases, grantees or sub-grantees must encumber the title to the acquired battlefield property with easement, in favor of enforceable in court by the State Historic Preservation Officer, or by another agency acceptable to the NPS and SHPO, in perpetuity. In other cases where a State government agency will acquire and manage the property, the State must enter into a preservation agreement with the NPS. The agreement must assert that the State will hold the property forever, allow for public access, maintain and protect the historic features and landscape, restrict development to only that needed for interpretation and visitor access, and pursue site development only after appropriate environmental and cultural studies are completed to inform best possibilities for low impact design and construction. Both the easements and preservation agreement must acknowledge Land and Water Conservation Fund Act Section 6(f)(3) restrictions and must be sent to the NPS for review and approval prior to their execution and recordation. The SF 425 Federal Financial Report is required. SF-PPR and Program Performance Report.

15.930 Chesapeake Bay Gateways Network

Chesapeake Bay Gateways and Trails,

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

P.L. 105-312, Title V, Sec 502(A) and (B), Conservation, Restoration and Restoration of Sites; 16 USC 1246(h)(1): Agreements to Operate, Develop, and Maintain Portions of National Trails; and 54 USC 101702(a): Agreements for the Transfer of Appropriated Funds to Carry Out NPS Programs

OBJECTIVES:

The NPS Chesapeake Office provides technical and financial assistance to state and local agencies, tribes and private sector organizations in the Chesapeake Bay watershed under the Chesapeake Bay Initiative Act, the National Trails System Act and other authorities. Assistance supports implementation of: The Chesapeake Bay Initiative Act, which authorizes the NPS to: identify, conserve, restore, and interpret natural, recreational, historical, and cultural resources within the Chesapeake Bay Watershed; identify and utilize the collective resources sites for enhancing public education of and access to the Chesapeake Bay; link sites with trails, tour roads, scenic byways, and other connections; develop and establish watertrails comprising water routes and connections to sites and other land resources within the Chesapeake Bay Watershed; and create a network of sites and watertrails. The Chesapeake Bay Program, a collaborative watershed restoration partnership among the states of Maryland, Virginia, Pennsylvania, Delaware, New York, and West Virginia, the District of Columbia, the Chesapeake Bay Commission and the federal government. The six Governors and the other partners signed the 2014 Chesapeake Bay Watershed Agreement establishing specific goals, outcomes, management strategies and work plans for conservation and restoration. The NPS is responsible for fostering interjurisdictional collaboration to add 300 new public boating, fishing and water access sites to the Bay and tributaries and

conserve 2 million acres of hunting, fishing, wildlife and other conservation lands by 2025. NPS also participates in and supports other initiatives advancing the agreement. The partnership-based Captain John Smith Chesapeake National Historic Trail (NHT). This 3,000 mile trail extends from Norfolk Virginia to Cooperstown New York and along all the Bays major tributaries. The Chesapeake NHT was created through the National Trails System Act (Public Law 90-543, as amended) which provides for technical and financial assistance to States or their political subdivisions, landowners, private organizations, or individuals to operate, develop, and maintain any portion of such a trail either within or outside a federally administered area. To advance these, the NPS collaborates with partners to increase access to the Chesapeake and rivers, to conserve important landscapes and resources, to promote tourism and local economies, to engage youth in meaningful work and place-based education, to improve recreational opportunities, and to interpret the natural and cultural resources of the Chesapeake region.

TYPES OF ASSISTANCE:

Cooperative Agreements, Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Recipients of financial assistance must comply with all applicable federal, state, and local environmental laws and regulations. Local planning offices can provide advice on Federal, state or local permits that will be necessary; and NPS - Chesapeake staff can advise on compliance and permitting processes. As advised by NPS Chesapeake, Recipients may be required to (1) document local support for the project; (2) document consultation with their State Historic Preservation Office, state agencies in charge of endangered species, local planning and zoning officials, and other affected agencies in developing their projects and gaining approval for project implementation; and (3) complete an Environmental Screening Form for their proposed project. All facilities and programming developed with NPS Chesapeake Bay funding must be accessible to persons with disabilities. It is the responsibility of the award recipient to comply with the Architectural Barriers Act of 1968, Section 504 and 508 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1990 as amended. All construction projects must be designed and engineered in accordance with applicable law. The services of a professional, registered engineer or architect are advised to assure that necessary provisions are being met with respect to public safety, codes, and standards. All projects involving physical development must incorporate specific objectives to green the project, such as developing environmentally sensitive designs, incorporating low impact development approaches (e.g., incorporating storm water management, rain gardens, pervious surfaces, green roofs, etc.), incorporating eco-friendly materials into structural elements of your project, utilizing native, non-invasive plant species, and using green procurement practices. All projects proposed to develop new or enhanced public water access facilities must develop one or more of the following types of public water access facilities: boat-related access, swimming access, fishing access and/or viewing access for water, wildlife, and shoreline areas. For proposed development projects located on the Captain John Smith Chesapeake National Historic Trail, NPS Chesapeake Office may supply standardized CAJO trail-marking and orientation, and possibly interpretation, signage appropriate to the site.

Other. None. Final award decisions are not subject to appeal; however, the National Park Service will provide applicants with information on why their proposals were not selected for award.

Renewals:

Other. Projects may generally be renewed on an annual basis, not to exceed a total of 5 years. If renewals or extensions are applicable to the project, this information will be included in the funding opportunity announcement. When renewals or extensions are applicable, continuation of funding for these activities is at the discretion of Congress and will be subject to availability of appropriated funds.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Projects completed under the Public Land Corp (PLC) Act require a 25 percent nonfederal match (cash and/or in-kind services) for all entities except where an award is provided to a State government and on Indian Lands as defined in the PLC Act. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is provided on a project basis. Most projects are two to three months in duration depending on complexity and other factors. Some projects are as long as a year. Method of awarding/releasing assistance: lump sum.

Reports:

Unless otherwise stated in the agreement document, recipients shall submit the following reports on an annual basis: (1) SF-425, Federal Financial Report; and (2) Program Performance Reports. Upon completion of the agreement, recipients shall submit a final: (1) SF-425, Federal Financial Report; and (2) Program Performance Report; and (3) other specific reports that may be applicable to the agreement such as property inventories, and patent and invention disclosures. SF-425, Federal Financial Report

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Japanese American Confinement Sites Grant Program,

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Preservation of Japanese American Confinement Sites Act, Public Law 109-441, 120 Stat. 3288

OBJECTIVES:

To provide for the preservation and interpretation of historic confinement sites where Japanese Americans were detained during World War II. The program was established to encourage projects that identify, research, evaluate, interpret, protect, restore, repair, and acquire historic confinement sites in order that present and future generations may learn and gain inspiration from these sites and that these sites will demonstrate the Nation's commitment to equal justice under the law.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Japanese American Confinement Sites grant funds may be used for identifying, researching, evaluating, interpreting, protecting, restoring, repairing, and acquiring historic confinement sites where Japanese Americans were detained during World War II as authorized by the Preservation of Japanese American Confinement Sites Act of 2006. These historic confinement sites are defined as the ten War Relocation Authority camps (Gila River, Granada (Amache), Heart Mountain, Jerome, Manzanar, Minidoka, Poston, Rohwer, Topaz, and Tule Lake), as well as other historically significant locations, as determined by the Secretary of the Interior, where Japanese Americans were detained during World War II. These sites are specifically identified in Confinement and Ethnicity: An Overview of World War II Japanese American Relocation Sites, published by the Department of the Interior, National Park Service, Western Archeological and Conservation Center, in 1999. For further information, Please contact the Regional Office.

15.957 Emergency Supplemental Historic Preservation Fund

HPF Hurricane Sandy Relief Grant Program,

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

National Historic Preservation Act, 54 U.S.C 3001 et.seq.; Disaster Relief
Appropriations Act, 2013 (P.L. 113-2); Bipartisan Budget Act of 2018 (P.L. 115-
123

OBJECTIVES:

Emergency supplemental HPF funding is intended to assist the historic resources within a major disaster declaration area that are listed in or determined eligible for the National Register. Funding should substantially mitigate threat to the site and include steps to mitigate future damage.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

Hurricane Sandy HPF relief grants must be used to preserve properties listed in or eligible for listing in the National Register of Historic Places.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; State; Eligible applicants are State and Tribal Historic Preservation Offices located within areas receiving major disaster declarations from FEMA.

Beneficiary Eligibility:

State; Federally Recognized Indian Tribal Governments; States and Tribes

Credentials/Documentation:

National Register listing, or certification of eligibility, of properties for which grant assistance be being applied. 2 CFR Part 200 , in its entirety, applies to this program 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms required by 43 CFR 12, Subparts C and F, must be used. In addition, applicants must also submit an Action Plan Narrative providing an overview of needs in the State.

Award Procedure:

Using the FEMA major disaster declarations as a starting point for determining the method of apportioning the \$47.5 million, the NPS will divide the appropriation into two groups. Group 1 includes \$38 million and will be apportioned to the four States containing counties that FEMA designated as eligible to receive both Individual and Public Assistance Connecticut, New Jersey, New York, and Rhode Island. The remaining funds will comprise Group 2, and will be awarded to the remaining eight States, the District of Columbia, and any Federally-recognized Indian Tribes located in those States, through an application process and based on

need as described in proposals submitted by the States and Tribes to the NPS. In apportioning the \$38 million from Group 1 that will be assigned to CT, NJ, NY, and RI, because State Historic Preservation Offices (SHPO) in those States have not yet completed damage assessments to historic properties, there is no single best method of determining need. Funds will be distributed using a formula that takes into account three evaluation factors, each having equal weight: 1) population of counties eligible for both IA and PA, 2) land area of counties eligible for both IA and PA , and 3) the number of properties listed in the National Register of Historic Places in counties eligible for both IA and PA.

15.961 Federal Historic Preservation Tax Incentive

Historic Tax Credit,

FEDERAL AGENCY:

NATIONAL PARK SERVICE, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Internal Revenue Code of 1986, 26 U.S. Code 47 and 170(h), as amended; Public Law No: 115-97, 131 Stat. 2054, Sec. 13402 (December 22, 2017).

OBJECTIVES:

Commonly known as the Rehabilitation Tax Credit or the Historic Tax Credit, the program provides a 20-percent federal tax credit to property owners who undertake a substantial rehabilitation of a historic building in a business or income-producing use while maintaining its historic character. The credit promotes historic preservation and community revitalization through the private investment in the rehabilitation of historic buildings.

TYPES OF ASSISTANCE:

Advisory Services and Counseling, Provision of Specialized Services

USES AND USE RESTRICTIONS:

The program provides a 20-percent federal tax credit for the substantial rehabilitation of historic buildings. The National Park Service (NPS) administers the certification program for the Department of the Interior. The NPS does not award tax credits, but certifies to the Internal Revenue Service (IRS) whether a building qualifies as a certified historic structure and whether an undertaken rehabilitation project qualifies as a certified rehabilitation, and is therefore eligible to claim the credit. The credit is claimed at the completion of the project, when the rehabilitated building is placed in service, as part of the property owners tax filing with the IRS (Form 3468). Costs eligible for the credit are limited to Qualified Rehabilitation Expenditures or QREs, generally only those costs that are directly related to the repair or improvement of structural and architectural features of the historic building as well as some eligible soft costs. The scope of review for the rehabilitation project includes not only the work that qualifies as an eligible expense, but also all other work to the building and its site and environment, including work to other buildings, new construction, additions, and any site improvements on the historic property.

Applicant Eligibility:

Anyone/general public; For the rehabilitation tax credit; private owners of commercial and other income-producing historic buildings held for investment purposes. For the conservation easement deduction; private owners of historic buildings proposed as the subject of charitable easement donations.

Beneficiary Eligibility:

Anyone/general public; For the rehabilitation tax credit; private owners of historic buildings held for investment purposes. For the income tax deduction for the donation of conservation easements; private owners of buildings.

Credentials/Documentation:

The National Park Service must certify to the Internal Revenue Service that the building qualifies as a certified historic structure and that the undertaken

ASSISTANCE LISTINGS DESCRIPTIONS

rehabilitation project qualifies as a certified rehabilitation for the project to be eligible to claim the tax credit. The NPS also certifies that a historic property contributes to the significance of a historic district for the purposes of a property owner donating a conservation easement. These certifications are made as part of the programs application process. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. None, but preliminary consultation and assistance is available and encouraged. The program is administered by the National Park Service in partnership with the State Historic Preservation Offices (SHPOs). The SHPOs are the first point of contact for property owners wishing to use the tax credits. SHPOs can help determine whether a historic building is eligible to claim the credits, provide guidance before beginning a rehabilitation project, and advise on the application requirements and whether proposed rehabilitation work meets the Secretary of the Interiors Standards for Rehabilitation.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Historic Preservation Certification Application (Form 10-168) is in three parts: Part 1 Evaluation of Significance for a determination that the building is a certified historic structure; Part 2 Description of Rehabilitation for preliminary certification that the proposed rehabilitation work meets the Secretary of the Interiors Standards for Rehabilitation; and Part 3 Request for Certification of Completed Work for determination that the completed project is a certified rehabilitation. Applications are submitted to the State Historic Preservation Office, which reviews the application and forwards it with a recommendation to the National Park Service (NPS). The NPS makes all certification decisions. Applicants are strongly encouraged to submit applications and obtain Part 1 and Part 2 approvals prior to beginning any work. Owners who begin work without prior NPS review and approval do so at their own risk.

Award Procedure:

The program is jointly administered by the Department of the Interior (DOI) and the Department of the Treasury. The National Park Service (NPS) administers the program on behalf of DOI. The NPS does not award the tax credits, but certifies to the Internal Revenue Service (IRS) whether a building qualifies as a certified rehabilitation, and is therefore eligible to claim the credit. The credit is claimed at the completion of the project, when the rehabilitated building is placed in service, as part of the property owners tax filing with the IRS (Form 3468). The NPS certification process is administered in partnership with the State Historic Preservation Offices (SHPOs) in a three-part application process. The SHPOs are the first point of contact for property owners wishing to use the tax credits and to find out more about the program requirements. Applications are submitted to the SHPO, which reviews the application and forwards it with a recommendation to the NPS. The NPS makes all certification decisions.

Applications may be put on hold if incomplete or missing information, if additional information is needed to complete review of the proposed project, or if the proposed work does not meet the Secretary of the Interiors Standards for Rehabilitation.

Appeals:

Other. Applications may be amended to provide additional information for reconsideration or to make changes to a proposed project in order to meet the program requirements. Certification decisions and denials may be appealed by registering the appeal in writing to the Chief Appeals Officer, Cultural Resources, within 30 days of receipt of the decision.

15.979 Hurricane Sandy

FEDERAL AGENCY:

U.S. Geological Survey, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

Public Law 113-2 (Disaster Relief Act)

OBJECTIVES:

To support research and data collection complementary to continued USGS activities supporting recovery and restoration efforts related to Hurricane Sandy. This entry covers a variety of USGS assistance awards funded through the Disaster Relief Appropriations Act. Data, tools, and information produced through these research and data collection efforts will 1) further characterize impacts and changes, 2) guide mitigation and restoration of impacted communities and ecosystems, 3) inform a redevelopment strategy aimed at developing resilient coastal communities and ecosystems, 4) improve preparedness and responsiveness to the next hurricane or similar coastal disaster, and 5) enable improved hazard assessment, response, and recovery for future storms along the hurricane prone shoreline of the United States.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Awards support research and information needs related to 1) coastal topography and bathymetry, 2) impacts to coastal beaches and barriers 3) impacts of storm surge and estuarine and bay hydrology 4) impacts on environmental quality and persisting contaminant exposures, and 5) impacts to coastal ecosystems, habitats, and fish and wildlife.

Applicant Eligibility:

15.980 National Ground-Water Monitoring Network

FEDERAL AGENCY:

U.S. Geological Survey, INTERIOR, DEPARTMENT OF THE
AUTHORIZATION:

Public Law 111-11, Subtitle FSecure Water: Section 9507 Water Data Enhancement by the United States Geological Survey

OBJECTIVES:

To support data providers for the National Ground-Water Monitoring Network. The National Ground-Water Monitoring Network (NGWMN) is a cooperative, integrated system of data collection, management, and reporting that will provide data needed to address groundwater management questions. Assistance is provided to new and existing data providers of the National Ground-Water Monitoring Network. The program will provide support to multi-state, State, Tribal, or local Water-Resource agencies which collect groundwater data to serve as data providers for the National Ground-Water Monitoring Network. Support will allow the data providers to perform tasks to get their data into the Network such as: selecting and categorizing their wells within NGWMN specifications, adding sites to the network, establishing and maintaining connections between their databases and the NGWMN Portal. Support will also allow agencies to maintain their connections to the NGWMN Portal and to enhance their networks to provide better data to the NGWMN.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Funding will be used to 1) help new data providers participate in the network, and 2) support existing data providers. Funding for new providers primarily is intended to support data providers to select and categorize their data in accordance with the Framework document guidelines, and to make data for selected sites available to the NGWMN. Funding for existing data providers will support work to keep their connections to the NGWMN data portal up to date and to enhance their networks to improve data available to the NGWMN. This can include updating data on their wells, performing maintenance or repairs on wells to maintain the ability to collect reliable data, drilling new or replacement wells for the NGWMN.

Applicant Eligibility:

Interstate; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; Proposals will be accepted from interstate, State, U.S. territory or possession, local, public nonprofit water-resource agencies/organizations which collect and maintain groundwater-level or groundwater-quality data. Various elements of the data which are required for the National Ground-Water Monitoring Network are often available from different agencies within a state. Each agency within a state which wishes to participate in the Network can submit a proposal for their part of the work. States may also submit a single proposal that covers the work of multiple state agencies. Coordination of agencies within a state is strongly encouraged.

Beneficiary Eligibility:

Federal; Profit organization; Private nonprofit institution/organization; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; Federal, State, Federally recognized Indian Tribal, and local governments, public nonprofit institutions/organizations, private nonprofit institutions/organizations, profit organizations, industry and public decision makers, research scientists, engineers, and the general public will ultimately benefit from data made available through the program.

Credentials/Documentation:

Proposals must include documentation of the data that are collected by the

ASSISTANCE LISTINGS DESCRIPTIONS

applicant that would become part of the National Ground-Water Monitoring Network. Proposals that intend to provide data that are collected by other agencies or entities generally will not be considered. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

EXAMPLES OF FUNDED PROJECTS:

2018 For FY18 proposals were received in all three areas above and funding is planned for all areas. 2019 For FY18 the program anticipates funding the same kind of projects 2017 For FY17 proposals were received in all three areas above. Projects were funded in one of three primary areas: 1) Projects to become a new data provider to the NGWMN, 2) Projects to support agency connections to the NGWMN Data Portal, and 3) Projects that enhance the NGWMN by adding agency data, maintain sites to ensure that data collected is of good quality, and to drill replacement or new NGWMN wells.

CRITERIA FOR SELECTING PROPOSALS:

Each objective applied for within a proposal will be reviewed according to three Criteria: Relevance, Technical Quality, and Budget. A score of 1 to 10 is given for each criterion. Persistent Data Service Proposals are only evaluated using the Budget criteria. Proposals will be reviewed and scored by the NGWMN Program Board. The Program Board is made up of Federal representatives, SOGW members, and State Data provider representatives.

15.981 Water Use and Data Research

FEDERAL AGENCY:

U.S. Geological Survey, INTERIOR, DEPARTMENT OF THE

AUTHORIZATION:

Public Law 111-11, Subtitle FSecure Water: Section 9508 Water Availability and Use Assessment Program.

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

To support State water resource agencies in developing water use and availability datasets that are integrated with each appropriate dataset developed or maintained by the USGS or that integrate any water use or water availability dataset of the State water resource agency into each appropriate dataset developed or maintained by the USGS. The Water Use Data and Research program will allow State Water Resource agencies to improve the collection and reporting frequency of water use categories, including the inclusion of categories that have been discontinued in the past due to limited resources. Data collection, and improvement efforts, as well as research conducted will complement priorities and investigations carried by Federal, State, and Local Governments, and by private industry in water availability assessments for human and ecological uses.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Funding will be used to support State Water Resource agencies in improving data collection techniques and methods, data delivery and management, and data integration with each appropriate dataset developed or maintained by the USGS. Funding for each State cannot exceed \$250,000 cumulatively over the length of the program.

Applicant Eligibility:

State; Proposals will be accepted from state agencies that collect and maintain water use data and databases. Various elements of the data that are required for the Water Use Data and Research (WUDR) program are often available from different agencies within a state; however only one agency is eligible to submit a proposal for the program. We ask that State agencies collaborate in this instance, and States may submit a single proposal that covers the work of multiple state agencies. Coordination of agencies within a state is strongly encouraged to avoid proposals that overlap.

Beneficiary Eligibility:

Private nonprofit institution/organization; State; Federally Recognized Indian Tribal Governments; State, Federally recognized Indian Tribal, and local governments, public nonprofit institutions/organizations, private nonprofit institutions/organizations, profit organizations, industry and public decision makers, research scientists, engineers, and the general public will ultimately benefit from data made available through the program.

Credentials/Documentation:

Proposals must include documentation of the data that are collected by the applicant that would become part of USGS Water Use Databases. Proposals that intend to improve data delivery and estimation accuracy will be considered, as will multi-State proposals. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. EXAMPLES OF FUNDED PROJECTS:

2018 Program has not yet selected projects for funding. Program anticipates funding projects that improve the availability, quality, compatibility, and delivery of water-use data that are collected and/or estimated by States. 2017 Program has not yet selected projects for funding. Program anticipates funding projects that improve the availability, quality, compatibility, and delivery of water-use data that are collected and/or estimated by States. Example 1: The Idaho Department of Water Resources proposes that funds be used to improve the collection, quality assurance, and transfer of water use data by targeting irrigation, public supply, and industrial use categories. The three main tasks of this project are to identify points of water diversion and make records of those diversions; improve metadata standardization, data discoverability, and data delivery; and diagram potential database improvements associating water measurement locations and measurement data with existing water right information. Example 2: This project proposes developing a method for estimating withdrawals for irrigated agriculture at the HUC-8 watershed scale from estimates of consumptive use of crop irrigation water using the Operational Simplified Surface Energy balance, and estimates of water use efficiencies calculated for selected irrigation distribution projects in order to quantify agricultural water use. This study will develop methods to improve water use estimates for irrigated agriculture in areas where measured data is not available. The results of this study will include Tier 1, 2, and 3 data products, and will improve tier levels by increasing the spatial and temporal resolution of irrigation withdrawal and consumption estimates, as well as providing greater continuity and consistency in these estimates. Example 3: The Utah Division of Water Rights proposes to improve online water use reporting tools for Industrial/Commercial users; improve database storage of water use data for Public Supply, Industrial, and Commercial data; and create a new program to transmit data electronically to the USGS and other entities. Additionally, improvements will be made to improve the storage of the data such that it can be easily organized and retrieved. 2019 Program has not yet selected projects for funding. Program anticipates funding projects that improve the availability, quality, compatibility, and delivery of water-use data that are collected and/or estimated by States.

16.026 OVW Research and Evaluation Program

(R&E).

FEDERAL AGENCY:

OFFICE ON VIOLENCE AGAINST WOMEN (OVW), JUSTICE,
DEPARTMENT OF
AUTHORIZATION:

Violence Against Women Act, as amended, Public Law 109-162, 42 USC Code 13925(b)(7).

OBJECTIVES:

The purpose of the Research and Evaluation (R&E) Program is to further develop and make maximum use of the evidence base for approaches to combatting domestic violence, sexual assault, dating violence, and stalking. By generating more knowledge about strategies for serving victims and holding offenders accountable, communities that benefit from VAWA funding will be better equipped to align their work with practices that are known to be effective, and they will be more capable of generating empirical knowledge on the efficacy of new and promising ways of doing things. Because OVW has very limited funds to support research and evaluation, this program prioritizes topics for which a stronger evidence base would help OVW grantees use federal funds most effectively.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

OVW is interested in funding research and evaluation to generate knowledge in the six areas of study listed below: 1. Victims needs. How victimization and its aftermath affect peoples lives, especially people who are marginalized; and what

ASSISTANCE LISTINGS DESCRIPTIONS

they need to cope, heal, and achieve safety and justice². Cultures, disparities, and access. Ways that cultural differences and social inequalities matter in terms of where and to whom people go for help, and whether people are able to access justice and get services that are useful to them³. Justice. Ways the justice system can effectively pursue and achieve justice in cases involving domestic/dating violence, sexual assault, and stalking; with justice broadly understood to include autonomy for victims, accountability for offenders, procedural fairness for all, and restorative justice⁴. Impact. Short- and long-term impact of the justice systems response, victim services, and other VAWA-funded interventions on victim safety and offender accountability⁵. Indicators of success. What success looks like and how to measure it for people who work with victims and offenders, for victims pursuing safety and justice, and for offenders being accountable for their violence⁶. Prevention. How to prevent violence from happening

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligible applicants are limited to: States (including territories), units of local government, federally recognized Indian tribal governments as determined by the Secretary of the Interior, nonprofit organizations (including tribal nonprofit organizations), institutions of higher education (including tribal institutions of higher education)

Beneficiary Eligibility:

U.S. Territories; Minority group; Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Native American Organizations; Health Professional; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; This program prioritizes research on topics for which a stronger evidence base would help OVW grantees use federal funds most effectively.

16.123 Community-Based Violence Prevention Program

FEDERAL AGENCY:

OFFICE OF JUSTICE PROGRAMS, JUSTICE, DEPARTMENT OF

AUTHORIZATION:

Community Based Violence Prevention (other than research or TTA), Title 34 USC 11171-11172; and an act appropriating funds for the Department of Justice

OBJECTIVES:

The Community-Based Violence Prevention (CBVP) Program helps states and localities support a coordinated and multidisciplinary approach to community youth gun and gang violence through prevention, intervention, suppression, and reentry in targeted communities. The CBVP Program is designed to support and enhance the coordination of existing community-based violence prevention and intervention programs and strategies approaches that are attempting to replicate models and strategies which that have been proven to have a positive impact on the reduction of violence in target communities. Toward achievement of the ultimate goal of eliminating community violence, the Community-Based Violence Prevention Program the CBVP Program has three main goals objectives: to change community norms regarding violence; to provide alternatives to violence when gangs and individuals in the community are making risky behavior decisions; and, to increase awareness of the perceived risks and costs of involvement in violence among high-risk young people. The CBVP Program supports effective use of focused deterrence (enforcement) strategies and public health and education approaches to stop violence. This Program will work with community-based organizations to develop and implement strategies to reduce and prevent violence, particularly shootings and killings. This will be accomplished by relying on supporting communities to establish and strengthen partnerships between law enforcement and outreach workers, clergy, and other community leaders and family members in efforts to deter young people from committing violence, particularly shootings and killings. To intervene in conflicts or potential conflicts and promote alternatives to violence. The Community-Based Violence Prevention Program will also involve law enforcement in its efforts and depends heavily on a strong public education campaign to instill in people the message that shootings and violence are not acceptable. Finally, the model CBVP Program also calls for the strengthening of communities so they have the capacity to exercise informal social controls and to respond to issues that affect them, including community violence. These activities are organized into five core components that address both the community and those individuals who are most at risk of involvement in a shooting or killing: community mobilization, outreach, faith leader involvement, police participation and public education

TYPES OF ASSISTANCE:

Project Grants
